## PRIVATE ADVERTISEMENTS

**Associations Incorporation Act 1981 (Vic.)**

## NOTICE OF SPECIAL RESOLUTIONS

## Christian Youth Camps Inc

The following resolutions were duly passed at an extraordinary meeting of Christian Youth Camps Incorporated (A11967), held on Thursday 15 August 2002:

1. that Christian Youth Camps Incorporated (A11967) be wound up voluntarily.
2. that the assets of the incorporated association remaining after the winding process was completed should be distributed by being transferred and/or given to CYC Ltd AC 095 681 342. It was noted that CYC Ltd had been established to conduct such camping, conferencing and seminar facilities for the benefit of the community in accordance with the principles and teaching of the Christian Brethren and that the income and property of CYC Ltd whensoever derived should be applied solely towards the promotion of the objects of CYC Ltd as set forth in its constitution and no portion was to be paid or transferred directly or indirectly by way of dividend, bonus or otherwise to the members of CYC Ltd save for the usual proviso in relation to out of pocket expenses, payment for services rendered and payment of any salary or wage due to the Director as an employee. It was noted that the trustees of the Christian Brethren Trust consented to the giving or transferring of the assets of Christian Youth Camps Incorporated on winding up to CYC Ltd. It was also noted that CYC Ltd held the same exemption from income tax and its constitution prohibited the distribution of income and property to an extent as great as that imposed pursuant to Rule 33 (1) of the Rules of Christian Youth Camps Incorporated.
3. that Frazer Holt of Renshaw Dawson Lang be appointed as liquidator for the purpose of winding up the affairs of Christian Youth Camps Incorporated and distributing of the property of the association.

**Planning and Environment Act 1987**

**MACEDON RANGES PLANNING SCHEME**

Notice of Amendment

Amendment C17

The Amendment applies to part of a parcel of land described as Lot 1 LP63941 Station Road, New Gisborne, which has a total area of 3.2 hectares and abuts Station Road to the east,

privately owned land to the south, the Gisborne Racecourse Reserve to the west and a vacant road reserve to the north.

The Amendment proposes to rezone the northern part of the land which is currently zoned Public Park and Recreation (PPRZ) to Residential 1 as shown on the map marked Macedon Ranges Planning Scheme Amendment C17. This zoning will be consistent with the zoning of the remainder of the parcel of land.

The Amendment is required to correct an anomaly in the planning scheme which finds part of a privately owned parcel of land zoned Public Park and Recreation. This zone provides for the use and development of the land for recreation purposes and is not appropriate for privately owned land, which is not required for recreation purposes.

The Amendment is available for public inspection, free of charge, during office hours at the following places: Macedon Ranges Shire Council, Kyneton Administration Centre, 129 Mollison Street, Kyneton, Vic. 3444; Gisborne Service Centre, 8 Hamilton Street, Gisborne, Vic. 3437; Department of Infrastructure, Upper Plaza, Nauru House, 80 Collins Street, Melbourne, Vic. 3000 and Northern Region Office, 57 Lansell Street, Bendigo, Vic. 3550.

Submissions about the Amendment must be forwarded to: Macedon Ranges Shire Council, PO Box 151, Kyneton, Vic. 3444 by 5.00 p.m. on 18 October 2002.

**Planning and Environment Act 1987**

**MANNINGHAM PLANNING SCHEME**

Notice of Amendment

Amendment C15

Manningham City Council has prepared Amendment C15 to the Manningham Planning Scheme.

The Amendment applies to land contained within the Public Use Zone – Local Government (PUZ6) and Public Park and Recreation Zone (PPRZ) throughout the municipality, that contain active recreational facilities.

The Amendment is required because the current planning scheme provisions for signage are quite restrictive considering the variety of uses that can operate within the Public Use Zone – Local Government (PUZ6) and Public Park

and Recreation Zone (PPRZ). The Amendment proposes to amend the schedules to Public Use Zone – Local Government (PUZ6) and Public Park and Recreation Zone (PPRZ) to enable planning permit applications to be considered by council for a broader range of signage within these zones. Effectively this would allow sponsorship signage within sporting reserves and major recreational facilities located within the municipality that are currently prohibited under the provisions of the Manningham Planning Scheme.

The Amendment can be inspected during office hours and is free of charge at: Manningham City Council Municipal Offices, 699 Doncaster Road, Doncaster and Department of Infrastructure, Level 3 Plaza, Nauru House, 80 Collins Street, Melbourne.

Submissions about the Amendment must be sent to: Manningham City Council, PO Box 1, Doncaster, Victoria 3108. Attention: Manager, Economic & Environmental Planning before 12 November 2002.

#### EXEMPTION

Application No. A283 of 2002

The Victorian Civil and Administrative Tribunal has considered an application, pursuant to Section 83 of the **Equal Opportunity Act 1995** (the Act), by Independent Corporate Solutions Pty Ltd (the applicant) to renew exemption No 341 of 1999 granting the applicant exemption from Sections 13, 42, 100 and 195 of that Act. The exemption for which renewal is sought enabled the applicant to –

- (a) specify criteria for positions in respect of which the applicant acts as an employment service for, or otherwise on behalf of, its client employers, being criteria requiring specified qualifications or minimum levels of qualifications or specified years of experience or minimum levels of experience, and to designate those positions by titles which include an indication of seniority or importance of the positions (such as the word “senior”); and
- (b) specify criteria for positions in respect of which the applicant acts as an employment service for, or otherwise on behalf of, its client employers, being criteria based on any attribute within the meaning of the Act, if the positions are based in, or the holders of the positions must ordinarily work in a country other than Australia and the work visa requirements of that country permit the grant of a work visa to enter that country only to a person who meets those criteria.

The exemption enabled the applicant to specify the criteria referred to in paragraphs (a) and (b) in advertisements and descriptions of the positions in question, and to apply those criteria in any employment decisions which the applicant makes in relation to those positions, including offering or refusing to offer employment in those positions, interviewing and short-listing for those positions, and the terms on which employment in those positions is offered.

In that exemption the conduct specified above was called "the relevant conduct".

Upon reading the material submitted in support of the application to renew the exemption, including the declaration of Donald Moore, Director of the applicant, the Tribunal is satisfied that it is appropriate to renew the exemption from Sections 13, 42, 100 and 195 of the Act to enable the applicant to engage in the relevant conduct.

The Tribunal hereby grants an exemption to the applicant from the operation of Sections 13, 42, 100 and 195 of the Act to enable the applicant to engage in the relevant conduct.

This exemption is subject to the condition that, for each position or class of positions to which the exemption applies, the applicant must obtain from the client employer and keep a certificate from that employer stating that the specified criteria for the position are consistent with the duties or nature of the position or with the requirements of the work visa of the country in which the position is based or in which the holder of the position would ordinarily be required to work (as the case may be).

This exemption is to remain in force from the day on which notice of the exemption is published in the Government Gazette until 12 September 2005.

Dated 6 September 2002

Deputy President

    - industry-related complaints registered with the Department and/or taxi depots; and
    - compliance with laws and other legal responsibilities the Department may consider relevant to determination of applicant suitability.
  - 6) Applicants without offences recorded against them and who otherwise have the highest degree of service excellence within the industry will be considered in preference over applicants who have a less satisfactory service history.
- f) Specify that applications must contain the following particulars:—
- confirmation the application is for a licence to operate a Peak Service Taxi-cab within the metropolitan taxi-cab zone;
  - the name, date of birth and address of the applicant;
  - confirmation the applicant is a permanent resident of Victoria;
  - details of the applicant's Drivers' Certificate including date of issue, classification and expiry date;
  - a declaration of (a) taxi-cab licences previously or currently held (owned) by the applicant or which the applicant has any direct or indirect interest in and (b) taxi-cab licences previously or currently operated by the applicant as the assignee of a taxi-cab licence;
  - a declaration of taxi-cab driving experience and, where the applicant is an existing taxi-cab operator, a declaration relating to existing practices by the operator in providing a high level of taxi services;
  - a declaration of any traffic and/or other offences recorded in the name of the applicant;
  - authorisation for the Department of Infrastructure to undertake any enquiries and records checks deemed appropriate to enable the Department to be fully informed about the suitability of the applicant to be considered for licence issue;

- an application for a National Police Certificate in the name of the applicant, together with a cheque or money order for the amount of \$24 and made payable to Victoria Police; and
- a non-refundable application fee of \$144.

In addition to the information to be contained in the application, applicants will also be required to produce, when requested by the Department of Infrastructure, the following in support of their application:

- proof of identity as specified in a list of acceptable proofs of identity provided by the Department of Infrastructure; and
  - documentation to verify applicant eligibility claims ( as outlined in Notes 1–5 above).
- g) Specify that all Tenders/Applications for taxi-cab licences within the proclaimed zone must be sealed in an envelope, marked “Metropolitan Taxi-cab Peak Service Licence Issue TPSL1/02” and mailed to be received by, or placed into, the Tender Box, 14th Floor, Nauru House, 80 Collins Street, Melbourne 3000, not later than 2.00pm on Thursday, 3 October 2002.
- h) Specify the following procedures for determination of applications by the Department of Infrastructure:
- (i) The Department of Infrastructure must publish in the Government Gazette a list of the names of all applicants who appear to satisfy the criteria specified in paragraph (d) and (e) above and whose application is submitted by the time specified in paragraph (g) above. The notice must invite persons who wish to dispute the eligibility of an applicant to submit any relevant information within 14 days after the date of the publication of the list;
  - (ii) Before accepting any applicant as meeting the eligibility criteria, the Department of Infrastructure must consider any written submissions made to it in respect of the eligibility of the applicant arising from the process described in (h)(i).
  - (iii) Only one licence will be issued to any one person;
  - (iv) Where an application is approved, the licence will be issued on payment of the licence fee, in full, referred to in paragraph (b);
  - (v) A maximum of 100 Metropolitan Taxi-cab Peak Service Licences will be issued as a result of this tender.
  - (vi) All licences issued will be subject to special conditions to ensure efficient and effective provision of taxi services including:
    - Peak Service taxi-cabs will only be permitted to operate for hire during the hours of 3pm until 7am the following morning on any day of the week. Peak Service taxis-cabs will also be authorised to operate at other times specified in licence conditions during major events such as the Formula One Grand Prix and Melbourne Cup;
    - a hiring which commences prior to, but not completed by 7am will be permitted to be completed;
    - Peak Service taxi-cabs must meet Victorian Taxi Directorate specifications for licensing as a taxi and must, at the time of licensing, be registered in the name of the licence holder;
    - Peak Service taxi-cabs will be identified with special registration number plates and will be required to have the roof section, including door pillar sections, painted “Victorian Taxi Green” to Victorian Taxi Directorate specifications. The remainder of the body will be painted “Victorian Taxi Yellow” and fitted with standard taxi livery decals;

- any vehicle presented for licensing as a peak time taxi cab must be less than 2.5 years old when first licensed as a taxi. The vehicle must not be operated as a taxi if it is more than 6.5 years of age. Age limits are calculated from the manufacturers' build date as shown on the vehicle compliance plate; and
  - Peak Service taxi-cab licences must not be transferred or assigned to another person at any time. This does not prevent the licence holder from employing a driver or engaging a driver under a Driver Bailment Agreement. At any time, the licence holder may cease operating the licence by surrendering the licence and taxi-cab registration plates to the Victorian Taxi Directorate. In the event of the surrender of a licence at any time, any remaining portion of the licence fee paid for that year of operation will be forfeited by the licence holder.
- (vii) (a) In the event that the number of applications that meet all eligibility criteria exceeds the number of licences available in either category, the distribution of licences amongst those eligible applicants will be determined as follows:
- 50 licences will be available to applicants in the taxi driver applicant category.

If, after consideration of all eligibility and selection criteria, including ranking applicants on the basis that applicants with the highest degree of service excellence will be considered in preference over applicants who have a less satisfactory service history, any number of career taxi-cab driver applicants are rated as equal, licence allocation will be determined in the order of longest verifiable periods of metropolitan taxi-cab driving experience.

- 50 licences will be available to applicants in the taxi operator category, subject to distribution of those licences on the basis of:
  - 18 licences being allocated to applicants who since 1 September 2001 have continuously held one or more taxi-cab licences either as a natural person, jointly with another person/s or as the director of an incorporated body and who operate, or are in effective control of, the taxi vehicle/s attached to the licence/s; and
  - 26 licences being allocated to applicants in the taxi operator category who since 1 September 2001 have continuously operated not more than one taxi-cab as the assignee of a taxi-cab licence where such assignment has been approved under section 150 of the **Transport Act 1983** but who, in the same period did not own any taxi-cab licence either as a natural person, jointly with another person/s or as the director of an incorporated body which holds a taxi-cab licence; and
  - 6 licences being allocated to applicants in the taxi operator category who since 1 September 2001 have continuously operated more than one taxi-cab as the assignee of the taxi-cab licences where such assignments have been approved under section 150 of the **Transport Act 1983**, but who, in the same period did not own any taxi-cab licence either as a natural person, jointly with another person/s or as the director of an incorporated body which holds a taxi-cab licence

If, after consideration of all eligibility and selection criteria, including ranking applicants on the basis that applicants with the highest degree of service excellence will be considered in preference over applicants who have a less satisfactory service history, any number of taxi operator applicants are rated as equal within any of the three licence allocation groups above, licence allocation will be determined in the order of longest verifiable periods of continuous metropolitan taxi-cab operating experience, beyond that specified above, relevant to that group of applicants.

- (b) In the event that there are insufficient applications which meet the prescribed eligibility criteria in either the taxi driver category (paragraph d)

or taxi operator category (paragraph e), any unallocated licences will be added to the pool of licences in the other category. If the number of licences available to the taxi operator category is increased as a result of insufficient driver applicants, the distribution of licences will be adjusted in proportion with the ratio described above.

- (viii) The release of the 100 licences will occur over a 12 month period and staged in groups of 25 licences each three months. Subject to clause vii (b), the first 25 licences will be issued to career drivers, the following 50 evenly mixed between drivers and operators and the final 25 to the operator category.
- (i) All applications for taxi-cab licences within the proclaimed zone lodged prior to 12 September 2002 are deemed to have lapsed.

### **Gas Industry Act 2001**

#### **RETAIL GAS MARKET RULES**

On 4 September 2002 the Essential Services Commission determined to approve amendments to the “Retail Gas Market Rules” under sections 65 and 67 of the **Gas Industry Act 2001**. The amendments are effective as of 4 September 2001.

In accordance with the requirements of clause 3.4 of VENCORP's "Scheme for Development and Implementation of Retail Gas Market Rules" those amendments are published hereunder.

Clause 1.2 is amended by inserting the following new clauses 1.2.5 and 1.2.6 after clause 1.2.4:

**“1.2.5 FRC HUB**

- (a) Each *Market Participant* and *Distributor* must be certified by *VENCORP* prior to using the *FRC HUB* for transactions specified in the *Gas Interface Protocol*. For the avoidance of doubt, a *Market Participant* who has no need to issue or receive a transaction specified in the *Gas Interface Protocol* does not need to seek *certification* until it has a requirement to use such a transaction. A *Market Participant* must achieve *certification* prior to its use of a transaction in accordance with the *certification* process published by *VENCORP*.
- (b) *VENCORP*, prior to the *Transition Date*, must establish and publish *operational terms and conditions* for the *FRC HUB*. *VENCORP*, in establishing these *operational terms and conditions*, must:
  - (i) Provide *Market Participants* and *Distributors* with the proposed *operational terms and conditions*
  - (ii) Allow a reasonable time to receive *Market Participant* and *Distributor* responses to finalise the proposed *operational terms and conditions*
  - (iii) Use the dispute resolution process defined in clause 1.5 as the adjudication mechanism for any disputed proposed term or condition.
- (c) *VENCORP*, prior to implementing changes to the published *operational terms and conditions* for the *FRC HUB*, must:
  - (i) Provide *Market Participants* and *Distributors* with the proposed change to the *operational terms and conditions*
  - (ii) Allow a reasonable time to receive *Market Participant* and *Distributor* responses to the proposed *operational terms and conditions*.
  - (iii) Use the dispute resolution process defined in clause 1.5 as the adjudication mechanism for any disputed proposed term or condition.
- (d) *VENCORP* and each *Market Participant* and *Distributor* must comply with the *operational terms and conditions*, as published by *VENCORP* on its website from time to time.
- (e) Where a *Market Participant* or *Distributor* uses or continues to use the *FRC HUB* in breach of the *operational terms and conditions*, then as soon as *VENCORP* becomes aware of such breaches *VENCORP* must:
  - (i) Notify the *Market Participant* or *Distributor* of the breach, or
  - (ii) If a previous notice of a breach has been provided to the *Market Participant* or *Distributor*, and continued significant breaches of the same nature are evident, then *VENCORP* must notify the Victorian Essential Services Commission and the *Market Participant* or *Distributor* to whom the breach applies.

**1.2.6 Exemption to certification**

For the period commencing 9am 14th September 2002 and ceasing 9am 1st January 2003 any *Market Participant* who is the registered *FRO* for any *supply point* and which *supply points* have *interval meters* installed, is exempt from clause 1.2.5(a) only for those transactions required to manage the delivery of orders and responses used in the maintenance of the *interval meter* or associated *supply point*.”

Chapter 1 is amended by inserting the following new clause 1.3A after clause 1.3.6:

**“1.3A Recovery of VENC Corp costs**

- (a) *Retailers* must pay to *VENC Corp* amounts for services provided under these rules and determined by *VENC Corp* in accordance with charges approved by the Victorian Essential Services Commission.
- (b) No later than 2.00pm on the twentieth *business day* after the end of a calendar month or 2.00pm on the second *business day* after receiving a final statement under clause 3.6.15 of the *MSOR*, whichever is the later, each *Retailer* must pay to *VENC Corp* in cleared funds the amount determined by *VENC Corp* under clause 1.3A(a).
- (c) Payments made in accordance with clause 1.3A(a) must be made using bank clearing house arrangements determined by *VENC Corp* in consultation with affected *Retailer* and published on the *Market Information Bulletin Board* by *VENC Corp*.
- (d) Disputes raised in relation to this clause 1.3A shall be determined under the dispute provisions of these Retail Gas Market Rules.
- (e) Each *Retailer* must pay to *VENC Corp* the amount determined by *VENC Corp* under clause 1.3A(a) whether or not the *Retailer* disputes, or continues to dispute, the amount payable.”

Clause 2.2.2 is amended by inserting the following new clause 2.2.2(c) after clause 2.2.2(b):

**“2.2.2 Site Access Information**

- (c) Each *Distributor* must use its best endeavours to provide each *Retailer* who is the *FRO* for a *distribution supply point* which is located in the *distribution area* of a *Distributor* with details of any changes to any *site access information* in relation to the *meter* that relates to that *distribution supply point* by 5.00 pm on the first *Business Day* following the day on which the *Distributor* receives those details. Those details must be identified to the *Retailer* by reference to the *MIRN* for the *distribution supply point* to which the *meter* relates.”

Clause 2.6.1 is amended by inserting the reference “(b)” at the start of the paragraph commencing with the words “The *average heating value...*” in clause 2.6.1(a).

Clause 2.6.1 is amended by deleting the word “may” and substituting the word “must” in new clause 2.6.1(b).

Clause 2.6.2 is amended by deleting all the words following the words “(v) the *consumed energy*,” in clause 2.6.2(a) and substituting the following:

“by

- (1) 5.00pm on the first *business day* after the day on which the *meter* was read where the *meter reading* was a *validated meter reading*; or
- (2) by 5:00 pm on the first *business day* after the day on which a *meter read* was provided by the *FRO* where the *meter reading* was a *validated meter reading*, or
- (3) where the *Distributor* has been unable to obtain a *validated meter reading* in accordance with a *meter reading schedule*, by 5:00 pm on the second *business day* after the *scheduled read date*; or
- (4) where the *meter reading* was an *estimated meter reading* or a *substituted meter reading* by 5:00pm on the second *business day* after the *scheduled read date*.”

Clause 2.6.2 is amended by deleting all the words following the words “(iv) information as to whether the readings used to calculate the *flow* are *actual meter readings*, *estimated meter readings* or *substituted meter readings*,” in clause 2.6.2(b) and substituting the following:

“by

- (1) midnight on the first *business day* after the day on which the *meter* was read where the *meter reading* was a *validated meter reading*; or

- (2) by midnight on the first *business day* after the day on which a *meter read* was provided by the *FRO* where the *meter reading* was a *validated meter reading*, or
- (3) where the *Distributor* has been unable to obtain a *validated meter reading* in accordance with a *meter reading schedule*, by midnight on the second *business day* after the *scheduled read date*; or
- (4) where the *meter reading* was an *estimated meter reading* or a *substituted meter reading* by midnight on the second *business day* after the *scheduled read date*.”

Clause 2.6.2 is amended by inserting the words “(excluding *base reading*, *flow*, *consumed energy* and the *average heating value* used to calculate the *consumed energy*)” after the reference “2.6.2(a)” in sub-clause 2.6.2(c)(i).

Clause 2.8.1 is amended by deleting the date “28 February” and substituting the date “30 April” in clause 2.8.1(d).

Clause 2.9.6 is amended by inserting the words “where that *distribution supply point* is a *second tier supply point*,” after the word “and”.

Clause 2.9 is amended by inserting the following new clause 2.9.7 after clause 2.9.6:

#### “2.9.7 Metered supply points

- (a) *Distributor* must calculate the total number of metered *supply points* in its *distribution area* as at midnight on the last calendar day of each month.
- (b) The *Distributor* must by 5:00pm on the fifth business day after the end of a calendar month provide *VENCorp* the details referred in clause 2.9.7(a).”

Clause 4.6.1 is amended by deleting the words “in relation to that” and substituting the words “and closest to, or on the” in clause 4.6.1(d)(i).

Clause 4.7 is amended by inserting the following new clause 4.7.3 after clause 4.7.2:

#### “4.7.3 Termination of Retrospective Transfer

Where a notice has been delivered to *VENCorp* by the *Distributor* in whose distribution area that *distribution supply point* is located, stating that the *proposed transfer date* nominated in the *transfer request* is invalid, then *VENCorp* must:

- (a) cease processing that *transfer request*; and
- (b) upon cessation of processing the *transfer request*, by midnight on the next business day, deliver a notice that the *transfer request* has been terminated, to:
  - (i) the *Market Participant* who delivered the *transfer request* to *VENCorp*;
  - (ii) the retrospectively affected *FRO* in relation to the *transfer request*;
  - (iii) the *Distributor* who owns the distribution network if the *supply point* to which the *transfer request* relates is a *distribution supply point* on that distribution network; and
  - (iv) the *Transmission Pipeline Owner* who owns or leases that part of the transmission system, if the *supply point* to which the *transfer request* relates is a *transmission supply point* on that transmission network.”

Attachment 1 is amended by deleting the words “day on which the transfer request notification is lodged” and substituting the words “*proposed transfer date*” in the definition of “*allowable period*”.

Attachment 1 is amended by inserting after the definition of “*business day*” the following new definition:

“*certification* A certificate issued by *VENCorp* confirming compliance with the *Gas Interface Protocol* and as required by the *operational terms and conditions* for the *FRC HUB*”

Attachment 1 is amended by deleting the definition “*customer characterisation*” and substituting the following:

“*customer characterisation* In relation to a *customer*, whether the *customer* is:

- (a) metropolitan or non-metropolitan (where “metropolitan” refers to the Melbourne metropolitan area), as published by the Department of Infrastructure; and
- (b) residential or business, where residential means the primary use of the consumed energy is for household purposes and business means the primary use of the consumed energy is for commercial type purposes as determined by the retail business for customer billing.”

Attachment 1 is amended by inserting after the definition of “FRC (Financially Responsible Organisation)” the following new definition:

“FRC HUB The *FRC HUB* is the network facility through which *VENCorp*, each *Market Participant* and *Distributor* can deliver and receive structured Business to Business transactions utilising the protocols and formats as defined in the *Gas Interface Protocol*”

Attachment 1 is amended by inserting after the definition of “*Gas Interface Protocol*” the following new definition:

“*generated consumed energy* Generated consumed energy is an estimate of consumption energy at a *Supply Point*, calculated by *VENCorp* using the estimation methodology defined in attachment 4, where the energy is required for wholesale settlement calculations and for which *VENCorp* has not yet received a *validated meter reading* or *estimated meter reading* from the relevant Distribution Business.”

Attachment 1 is amended by deleting the definition “MSOR” and substituting the following:

“*MSOR* The Victorian Gas Industry Market and System Operations Rules made under section 48N of the **Gas Industry (Residual Provisions) Act 1994**, as may be amended from time to time under section 52 of the **Gas Industry Act 2001**.”

Attachment 1 is amended by inserting after the definition of “*objection withdrawal notification*” the following new definition:

“*operational terms and condition* The terms and conditions under which *VENCorp*, each *Market Participant* and *Distributor* seek connection to and are obliged to operate under when connecting to and issuing or receiving transactions on the *FRC HUB*.”

Attachment 2 is amended by inserting after clause (l) the following new clauses:

- “(m) *VENCorp* publishes, on the *market information bulletin board*, a daily flow weighted heating value by 5pm on the *gas day* following the *gas day* to which the daily flow weighted heating value relates. The average of these values over a billing period is used by the Distribution Businesses in the conversion of volume values to energy. Index reads are deemed to have occurred at 9am on each *gas day* and therefore bounds the energy consumed to the end of the previous *gas day*. Hence the average daily flow weighted heating value published by *VENCorp* on the day of the index read, represents the final average daily flow weighted heating value in the set of average daily flow weighted heating values used by the Distribution Business in calculating the *average heating value* over the bill period.
- (n) Where Participants are required to calculate values under these Rules, such calculations must not apply truncation to any value. Derived values will not have an implied accuracy greater than any of the input variables to the calculation. Thus for a value derived from the product of two variables, one with two decimal place precision and one with three decimal place precision, the product will initially be

set to three decimal places to allow for rounding to a final precision of two decimal places. Rounding will only be applied to the final value derived in the calculation process. The rounding method will be as described in the examples below:

ROUND 2.14 to one decimal place – equals 2.1

ROUND 2.15 to one decimal place – equals 2.2

ROUND 2.159 to one decimal place – equals 2.2

ROUND 2.149 to two decimal places – equals 2.15

ROUND -1.475 to two decimal places equals – 1.48

**Example 1 Energy Calculation:**

PCF of 1.0989

HV of 39.81

Vol of 200

$1.0989 * 39.81 * 200 = 8749.4418$

Rounded to 8749

**Example 2 Energy Calculation:**

PCF of 1.0989

HV of 41.89

Vol of 200

$1.0989 * 41.89 * 200 = 9206.5842$

Rounded to 9207

**Example 3 Energy Calculation:**

PCF of 1.0989

HV of 38.55

Vol 345 cubic feet (100s)

$345 * 2.832 * 1.0989 * 38.55 = 41389.94982$

Rounded to 41390”

Attachment 3 is amended by deleting clause (c) and substituting the following:

**STYLE REQUIREMENTS.**

To ensure that material received can be reproduced, and that errors are minimised, the following guidelines are to be observed when submitting material by fax.

**Fax resolution:**

Material sent by fax should be transmitted using Fine Resolution (200 dots per inch by 200 dpi).

**Font size:**

Use 12 point (10 pitch) or larger.

**Font Style:**

Clear plain font styles, such as Helvetica, should be used.

**Graphics:**

Line drawings should be transmitted as large as possible to ensure clarity. Drawings up to A4 size sent by fax using Fine Resolution provide a good quality for reproduction.

**Avoid:**

Italics, underlining and full justification.

Ensure document is square when sending as documents that are sent skewed are difficult to read and process.
