#### EXEMPTION

Application No. A161/2005

The Victorian Civil and Administrative Tribunal (the Tribunal) has considered an application pursuant to Section 83 of the **Equal Opportunity Act 1995** (the Act), by The Australian Centre for Workplace Learning (a division of The Replay Group) (the applicant). The application for exemption is to enable the applicant to advertise for persons of Aboriginal

and Torres Strait Island background to participate in a Certificate III Aged Care Training Programme.

Upon reading the material submitted in support of the application, and upon hearing Adam Jones, the Tribunal is satisfied that it is appropriate to grant an exemption from Sections 37, 100 and 195 of the Act to enable the applicant to advertise for persons of Aboriginal and Torres Strait Island background to participate in a Certificate III Aged Care Training Programme.

In granting this exemption the Tribunal noted:

- The applicant is funded under the Structured Training Employment Programme (STEP) to run a Certificate III Aged Care Programme.
- STEP is a project run under the auspices of the Department of Employment and Workplace Relations to provide programmes solely for persons of Aboriginal and Torres Strait Island descent.
- The Aged Care industry has a high demand for trained staff and is under-represented by staff of Aboriginal and Torres Strait Island descent. Training such people in the provision of aged care service allows for culturally sensitive care for the aging Aboriginal and Torres Strait Island community.
- The objectives of the training are to equip these people with first aid skills and an understanding of OH & S and manual handling skills, and to progress the participants into further pre-employment programs with the aim of gaining employment.

The Tribunal hereby grants an exemption to the applicant from the operation of Sections 37, 100 and 195 of the Act to enable the applicant to advertise for and employ persons of Aboriginal and Torres Strait Island background to participate in a Certificate III Aged Care Training Programme.

This exemption is to remain in force from the day on which notice of the exemption is published in the Government Gazette until 9 June 2008.

Dated 6 June 2005

Mrs A. COGHLAN  
Deputy President

## EXEMPTION

Application No. A129/2005

The Victorian Civil and Administrative Tribunal has considered an application pursuant to Section 83 of the **Equal Opportunity Act 1995**, Rokate Pty Ltd t/as True Health. The application for exemption is to enable the applicant to advertise for and employ a man remedial massage therapist.

Upon reading the material submitted in support of the application and on hearing submissions made by Dr Katelyn Jacka on behalf of the applicant at the directions hearing held on 6 June 2005, the Tribunal is satisfied that it is appropriate to grant an exemption from Sections 13, 100 and 195 of the Act to enable the applicant to advertise for and employ a man remedial massage therapist.

In granting this exemption the Tribunal noted:

- The Applicant operates a practise which provides various kinds of therapeutic massage and, for that purpose, employs a number practitioners including remedial massage therapists.
- Currently the Applicant employs 3 female remedial massage therapists but no male remedial massage therapists.
- A number of the patients of the practise are male footballers who are tall and large-framed.
- A number of the Applicant's male patients have expressed a preference for remedial massage treatment from a male therapist.
- The Applicant's female remedial massage therapists have pointed out that it is difficult and fatiguing for them to provide remedial therapy to particularly large-framed males and have said that the number of these patients which they can treat in any one day is limited.
- There is a substantially higher proportion of females than males who practise remedial massage therapy, and providing employment opportunity for a male therapist will help to address this imbalance.

The Tribunal hereby grants an exemption to the applicant from the operation of Sections 13, 100 and 195 of the **Equal Opportunity Act 1995** to enable the applicant to advertise for and employ a man remedial massage therapist.

This exemption is to remain in force from the day on which notice of the exemption is published in the Government Gazette until 8 June 2008.

#### NOTICE OF PREPARATION OF REGULATORY IMPACT STATEMENT (RIS)

Local Government  
(Electoral) Regulations 2005

Notice is given in accordance with section 11 of the **Subordinate Legislation Act 1994** that a Regulatory Impact Statement (RIS) has been prepared in relation to the proposed Local Government (Electoral) Regulations 2005.

It is proposed that the Local Government (Electoral) Regulations 2005 will come into operation on 6 August 2005 and replace the Local Government (Elections) Regulations 1995.

The objectives of the proposed Regulations are to ensure that there is a framework for the conduct of local government elections that supports participation in elections, ensures transparent and secure elections and that provides for efficient and effective electoral processes.

The proposed Regulations will also address new legislative requirements introduced as part of the **Local Government (Democratic Reform) Act 2003**.

This RIS assesses the relative costs and benefits of the proposed Regulations and considers feasible alternatives. It concludes that the proposed Regulations represent the most appropriate alternative and that the benefits of the proposed Regulations significantly outweigh the costs.

Copies of the RIS and the proposed Regulations can be obtained by telephoning Local Government Victoria on (03) 9208 3430 or by downloading copies from the Department for Victorian Communities internet site at [www.dvc.vic.gov.au/local\\_gov.htm](http://www.dvc.vic.gov.au/local_gov.htm).

Public submissions on the proposed Regulations and the RIS are invited. All comments must be in writing and must be received by 5.00 pm on Thursday 7 July 2005.

## MEDICAL PRACTITIONERS BOARD OF VICTORIA

## Notice

Re: Dr David John Wignall

A Panel of the Medical Practitioners Board of Victoria on 25 May 2005 concluded a Formal Hearing into the professional conduct of Dr David John Wignall a registered medical practitioner.

The Panel determined pursuant to section 45A(1)(a) of the **Medical Practice Act 1994** ("the Act") that Dr Wignall had engaged in unprofessional conduct of a serious nature.

The Panel further determined:

- Pursuant to section 45A(2)(e) of the Act, the following conditions are imposed on Dr Wignall's medical registration:
  - i) Dr Wignall is to undertake the training course "Introduction to Psychoanalytical Psychotherapy" conducted by the Victorian Association of Psychoanalytical Psychotherapists to be completed within a timeframe approved by the Board;
  - ii) Dr Wignall is to continue ongoing supervision with Mr Conrad Hauser, or another nominated practitioner approved by the Board, with reports to the Board three monthly for twelve months; and thereafter at a frequency determined by the Board;
  - iii) the cessation of the supervision or provision of reports will only occur with the approval of the Board; and
- pursuant to section 45A(2)(g) of the Act, the medical registration of Dr Wignall is suspended for a period of six (6) months, effective from 9.00 am on 28 June 2005.

40,000	26.32%
50,000	24.70%
60,000	23.02%
75,000	20.28%

**Replace rule 9.4 with:**

- 9.4 If, in respect of a round of play–
- 9.4.1 By operation of rule 9.3, the value recorded on the meter on a prize meter system would fall below the initial seed value as described in Table 2 or Table 3 depending on the option in use multiplied by the cost of the Jackpot wager for the system; or
- 9.4.2 Simultaneous Royal Flushes have been paid under rule 10.3, the Casino Operator must cause the meter for the prize meter system to be reset to an amount no less than the initial seed value as described in Table 2 or Table 3 depending on the option in use multiplied by the value of the Jackpot wager for the system.

**Replace rule 10.1 with:**

- 10.1 Prize payouts for winning jackpot wager outcomes must be determined–
- 10.1.1 For Royal Flush and Straight Flush outcomes, by a Casino Supervisor, subject to rule 10.3; and
- 10.1.2 Otherwise, by the Dealer in accordance with Table 4 or Table 5 depending on the option in use.

Table 4: Option 1 – Caribbean Stud Poker Jackpot Payouts (to be used in conjunction with Table 2 only)

Outcome	Payout
Royal Flush	100% of the rounded meter value
Straight Flush	10% of the rounded meter value
Four of a Kind	\$500 for each \$1 of jackpot wager (bonus payout)
Full House	\$150 for each \$1 of jackpot wager (bonus payout)
Flush	\$100 for each \$1 of jackpot wager (bonus payout)

Table 5 Option 2 – Caribbean Stud Poker Payouts (to be used in conjunction with Table 3 only)

Outcome	Payout
Royal Flush	100% of the rounded meter value
Straight Flush	10% of the rounded meter value
Four of a Kind	\$600 for each \$1 of jackpot wager (bonus payout)
Full House	\$100 for each \$1 of jackpot wager (bonus payout)
Flush	\$60 for each \$1 of jackpot wager (bonus payout)
Straight	\$40 for each \$1 of jackpot wager (bonus payout)

Replace rule 10.3 with:

10.3 If, in a round of play–

10.3.1 There is more than one simultaneous Royal Flush, the payout for each Royal Flush and any simultaneous Straight Flush must be determined in accordance with the following formula–

$$P = \frac{M + N(R - 1)}{(9)R + S}$$

where–

the Royal Flush prize is 9P;

the Straight Flush prize is P;

and–

M is the rounded meter value;

N is the value of the Jackpot wager multiplied by initial seed value as described in Table 2 or Table 3 depending on the option in use.

R is the number of Royal Flushes;

S is the number of Straight Flushes.

Replace rule 11.5.1 with:

11.5.1 If there is a discrepancy in the number of cards, that round of play will be declared a misdeal. All jackpot wagers will be dealt with according to rule 11.14.

**Replace** rule 11.6.1 with:

- 11.6.1 If there is a discrepancy in the number of cards, that round of play will be declared a misdeal. All jackpot wagers will be dealt with according to rule 11.14.

After rule 11.6 **insert**:

- 11.7 If a player contravenes rule 5.10 by placing more than one Ante and/or Bet wager and:
- 11.7.1 The error is discovered prior to the Dealer announcing that the player/s may “Bet” or “Fold”, the Dealer will immediately notify the Game Supervisor who will direct that the round of play be declared a misdeal. All jackpot wagers will be dealt with according to rule 11.14.
- 11.7.2 The error is not noticed until after the Dealer has announced that the player/s may “Bet or Fold” the first hand dealt to the player will be considered to be his/her valid hand and any other hand(s) dealt to other betting areas where he/she has placed a wager will be considered void.
- (a) All other players at the table will then be given the option of retracting his/her “Ante” wager and “Bet” wager as applicable as described in 11.5.2.

**Replace** previous rule 11.7 with:

- 11.8 Where cards are dealt to any area where there is no “Ante” wager prior to the Dealer announcing that the player/s may “Bet” or “Fold”, that round of play will be declared a misdeal. All jackpot wagers will be dealt with according to rule 11.14.

**Renumber**:

- previous rule 11.8 to 11.9;  
previous rule 11.9 to 11.10;  
previous rule 11.10 to 11.11 and change reference to “rule 11.14”;  
previous rule 11.11 to 11.12 and change reference to “rule 11.14”;  
previous rule 11.12 to 11.13;  
previous rule 11.13 to 11.14;  
previous rule 11.14 to 11.15;  
previous rule 11.15 to 11.16;  
previous rule 11.16 to 11.17.

**Replace** rule 12.5.2 with:

- 12.5.2 The order of winning poker hands in “Wild Aruba Stud Poker” is described in Table 6.

**Change** previous rule numbered 12.7, to rule 12.6.At renumbered rule 12.6.1 **insert**:

- 12.6.1 If the Dealer’s hand does not qualify he/she will announce that they have no hand and settle all wagers according to the procedures described in rule 7.6 and in accordance with rule 12.7.1 (Table 6)

At renumbered rule 12.6.2 **insert**:

- 12.6.2 If the Dealer’s hand does qualify, the Dealer will compare his/her hand to each player’s hand in turn and settle all wagers according to the procedures described in rule 7.6 and in accordance with rule 12.7.1 (Table 6) as follows:
- (a) Pay the “Ante” and the “Bet” for those hands with a higher poker hand than the Dealer’s; or

- (b) Collect the “Ante” and the “Bet” for hands with a lower poker hand than the Dealers; or
- (c) Void the “Ante” and the “Bet” for hands with an equal poker value to that of the Dealer.

In renumbered rule 12.6.4 **insert:**

- 12.6.4 A player utilising the “Instant Winner” as described in rule 12.8 feature remains eligible for Jackpot payouts where that player has placed a qualifying Jackpot wager.

**Change** previous rule 12.8 to rule 12.7.

**Change** Table 4 to Table 6.

**Replace** rule 12.9 with:

- 12.8 The “Instant Winner”
- 12.8.1 The player, upon being dealt a Straight Flush or higher, can elect to utilise the “Instant Winner” feature instead of waiting until the Dealer plays out his or her hand for qualification.
  - 12.8.2 A player electing to utilise the “Instant Winner” feature will forfeit the right for their “Bet” to be paid at the payout odds described in Table 7.
  - 12.8.3 When a player elects to utilise the “Instant Winner” feature the “Ante” will be paid at odds of 1 to 1 (even money) and then receive an additional payment based on the amount of the “Ante”. The additional payment will be made according to the odds described in Table 7.

Table 7: “Instant Winner” Odds

Outcome	“Ante” Payout	Maximum Payout
Straight Flush	10 to 1	up to a maximum payout
Five-of-a-Kind	30 to 1	up to a maximum payout
Royal Flush (Wild)	50 to 1	up to a maximum payout
Royal Flush	100 to 1	up to a maximum payout

**Renumber** rule 12.10 to 12.9.

**Renumber** table 6 to table 8.

**Renumber** rule 12.11 to 12.10.

**Health Services Act 1988**

## PURCHASING POLICY (SECTION 134)

Health Purchasing Victoria ('HPV'), having given notice that it intended to make a purchasing policy in accordance with Section 134 of the **Health Services Act 1988** (Vic.) (referred to hereafter as 'the Act'), and after having taken into account comments and submissions made pursuant to Section 134B of the Act hereby gives further notice of the intention to make the following purchasing policy:

To whom does this policy apply?

1. This policy applies to all public hospitals listed in Schedule 1 of the Act and all public health services listed in Schedule 5 of the Act, unless specifically exempted in accordance with Section 134A of the Act or paragraphs 9.7 and or 11.
  - 1.1. In this policy—
    - 1.1.1. "hospital" means "public hospital";
    - 1.1.2. "health service" means "public health service";
    - 1.1.3. "supplier" includes a person or body on a panel of suppliers.

Key requirements of the policy

2. All hospitals and health services are required to abide by the outcomes of the planned HPV tenders listed in the 2004–2006 timetable, which is a Schedule to this policy.
3. All hospitals and health services are required to only purchase goods and/or services which will be the subject of those tenders from the successful tenderers with whom HPV enters into a contractual relationship to supply those goods and services.
4. Hospitals and health services may only enter into a contract or renew any current contract with suppliers for goods or services as per the attached tender program where there is an ability to terminate agreements when the relevant HPV tender is awarded.
5. The role of hospitals and health services, as applicable, is to:
  - 5.1. assist HPV in identifying potential tendering opportunities, including working with HPV to collect procurement data to assist in that identification process, and developing the tendering program;
  - 5.2. provide input into the development of business cases as requested;
  - 5.3. nominate staff to participate as required in product reference groups that will contribute towards
    - 5.3.1. the development of tender specifications,
    - 5.3.2. the evaluation of bid responses and/or other negotiations with suppliers; and
  - 5.4. report their usage level of and/or management of HPV contracts.
6. Hospitals and health services, when planning future procurement activities, are to consider whether these procurement activities may suit the establishment of a new HPV contract that may potentially lead to improved value for other HPV clients. Such an opportunity should be discussed with HPV.

When does the policy not apply?

7. This policy does not apply in relation to the purchase of, or payment for, particular goods or services named in the attached Schedule by a hospital or health service to the extent provided for in paragraphs 8 to 11 of this policy, provided that the hospital or health service complies with any requirements of those paragraphs. Such hospitals and health services are required to comply with this policy in all other respects.

Existing contracts

8. This policy does not apply to:
  - 8.1. the extent that a hospital or health service has a current contract in respect of the supply of particular goods and/or services that are named in the Schedule; or

8.2. an HPV contract let in accordance with a previous Direction or Purchasing Policy.  
Health service or hospital opts out

9. Opting out or exemption prior to the end of the tender development period

9.1. In paragraphs 9.2 and 9.7 “tender development period” in relation to a proposed contract in respect of the particular goods or services means the period—

9.1.1. from the date of commencement of this purchasing policy; and

9.1.2. ending at the time which is 5 working days after HPV has provided to the health service or hospital a document entitled “final draft tender brief and specification” in relation to a proposed contract in respect of the supply of the particular goods or services.

9.2. If at any time prior to the end of the tender development period regarding particular goods or services named in the schedule the chief executive officer of a health service or hospital—

9.2.1. notifies HPV in writing that it opts out of the particular tender (either in whole or part) on clinical or operational grounds; and

9.2.2. advises HPV in writing as to the reasons for that belief—

this policy does not apply to that hospital or health service in relation to that tender, or those goods or services for which the hospital or health service has opted out (as applicable).

A health service or hospital which opts out of a particular tender may only opt back into the tender at any time up to the stage of tender development period for that particular good or service for which HPV proposes to tender at which the health service or hospital supplies HPV with data regarding its current arrangements in relation to the procurement of the good or service (including data about volume and price of those goods or services).

9.3. If a chief executive officer of a hospital or health service provides a notice to HPV pursuant to clause 9.2, it must also provide HPV with a copy of any contracts of the hospital or health service relating to such goods or services.

9.4. For the purposes of paragraph 9.2 “clinical or operational grounds” refers to the reasons why the purchase or use of a particular good or service by a health service or hospital (other than in accordance with the tender schedule to this policy) is necessary to ensure—

9.4.1. that patients of the health service or hospital receive clinically appropriate treatment or care; or

9.4.2. the effective administration of the hospital or health service.

In establishing clinical or operational grounds it is not sufficient to rely upon the fact that a particular good or service has been used at the health service or hospital in the past or is preferred by employees of, or contractors to, the health service or hospital. The health service or hospital must be able to give objectively verifiable reasons as to why the use of that particular good or service is required in the future or why a contract should be entered into which does not align with the tender program.

For example, a specialist service provided at the health service or hospital may necessitate the use of a unique product that is not available under the relevant tender or a hospital may for operational reasons need to enter into or renew a contract prior to the commencement of an HPV tender and the term of that contract may not be negotiable.

- 9.5. HPV shall endeavor to meet the perceived restrictions as defined in the notice of request to withdraw prior to sanctioning the withdrawal.
- 9.6. Hospitals and health services shall maintain absolute confidentiality of the draft tender specifications, and may not discuss the contents with any third party without the express written consent of HPV.

HPV grants exemption based on impact on local or small businesses

- 9.7. At any time within the tender development period the chief executive officer of HPV, or the person for the time being acting in that position, may exempt a health service or hospital, or class of health service or hospital, from the tender (either in whole or to the extent specified) if he or she is satisfied that this is appropriate taking into account the effect of the tender and proposed contract with regard to:
  - 9.7.1. the viability of small or medium sized businesses; or
  - 9.7.2. local employment growth or retention.

Post contract negotiations

10. HPV reserves the right to conduct post contract negotiations with a supplier (or a range of suppliers) if HPV believes, based on verifiable evidence from hospitals and health services or research HPV has conducted on its own account, that the prevailing market conditions are conducive to additional value for money outcomes than offered by the current contractual arrangements. HPV will endeavor to ensure that its contracts are based on the principle that supply at all times is based on best value in the market for all HPV stakeholders.

HPV terms, conditions of tender, and contract documentation reflect this position.

Exemption from contract entered into by HPV with suppliers

11. After a supplier has been selected by HPV for particular goods or services, the chief executive officer of HPV, or the person for the time being acting in that position, may exempt in writing a health service or hospital from the requirement to pay for or purchase those particular goods or services in accordance with the contract entered into by HPV in relation to those goods or services if he or she is satisfied that—
  - 11.1. there are clinical, or operational grounds or other special circumstances which justify exempting the hospital or health service from compliance with this purchasing policy at this stage of the purchasing process; and
  - 11.2. there are no other relevant considerations (such as those relating to probity and effective purchasing practice) which would make the granting of such an exemption inappropriate.

In making this decision HPV will have regard to the matters specified in section 133 of the Act.

This purchasing policy shall not apply to the hospital or health service in relation to goods or services which are so exempt.

Compliance reports

12. Hospitals and health services are required to report their compliance with this policy by means of an annual statement of compliance in a form to be advised by HPV.

Interested parties may make comment in writing to HPV until 4pm Monday 27 June 2005 addressed to: Mr Adamm Ferrier, Secretary to HPV, PO Box 2301, Wattletree Road Post Office, Malvern East, Vic. 3144, or via email [a.ferrier@hvp.org.au](mailto:a.ferrier@hvp.org.au).

**ORDERS IN COUNCIL****Prevention of Cruelty to Animals Act 1986****MAKING OF THE CODE OF PRACTICE FOR THE WELFARE OF ANIMALS  
ON PRIVATE GAME RESERVES LICENSED TO HUNT GAME BIRDS**

The Governor in Council, on the recommendation of the Minister for Agriculture, under section 7(1) of the **Prevention of Cruelty to Animals Act 1986** makes the Code of Practice for the Welfare of Animals on Private Game Reserves licensed to hunt game birds.

This Order takes effect on the date of its publication in the Government Gazette.

Dated 14 December 2004

Responsible Minister:

BOB CAMERON

Minister for Agriculture

DIANE CASEY

Clerk of the Executive Council

**CODE OF PRACTICE FOR THE WELFARE OF ANIMALS ON  
PRIVATE GAME RESERVES LICENSED TO HUNT GAME BIRDS****PREFACE**

The **Prevention of Cruelty to Animals Act 1986**, administered by the Department of Primary Industries, has the purpose of protecting animals, encouraging the considerate treatment of animals and to improve the level of community awareness about the prevention of cruelty to animals. It establishes fundamental obligations relating to the care of animals in general terms. Details of obligations are found in codes of practice that are made under the provisions of the Act. These set out minimum standards and recommendations relating to important aspects of the care of animals. They are developed following a process of consultation with stakeholders and the community.

They reflect the views and values held by Victorians with respect to the care of animals. It is recommended that all those who care for animals become familiar with the relevant codes.

Codes are issued after review by the Animal Welfare Advisory Committee. This committee comprises persons who have knowledge and expertise in particular areas such as animal welfare, veterinary science, animal uses in research, agriculture, the commercial use of animals and the standards and conduct of ethical use of animals.

The **Wildlife Act 1975**, administered by the Department of Sustainability and Environment, licenses the rearing of introduced species of game birds for release for hunting purposes. The purpose of this code is to provide a measure of consideration for the welfare of the birds during their rearing and release, and for the dogs used in the hunting activity. A condition of licence will be compliance with the recommendations contained in the code.

This Code of Practice for the Welfare of Animals on Game Reserves licensed to hunt game birds was issued by a notice published in the Government Gazette on 9 June 2005 under Section 7 of the **Prevention of Cruelty to Animals Act 1986**.

**A] OBJECTIVES**

1. This Code aims to prevent cruelty and encourage the considerate treatment of introduced game birds that are reared for release to be hunted on a Private Game Reserve that is licensed to do so.
2. Hunting without care and consideration for ecosystems may interrupt the natural balance between animals and their environment. To enhance the environment and its wildlife, this code supports the participation of hunters in conservation and environmental programs, and to be members of approved (hunting) organisations.
3. This code supports membership by hunters of approved organisations which encourage responsible hunting and wildlife management, monitor the standards of hunting by their members and liaise with regulatory agencies responsible for animal welfare.
4. Birds to be hunted should at all times be free and unrestricted. Man-made devices should not deliberately be used to restrict birds that are being hunted, to an area.

**B] INTRODUCTION**

5. This code defines the type of animals that may be used to assist gamekeepers and hunters, and the acceptable method in which these animals may be used.
6. This code does not approve of hunting where one animal is permitted to inflict injury that would cause another animal to suffer, if it remained alive.
7. Hunting includes the use of any legal firearm capable of humanely killing the bird to be hunted.
8. It is the responsibility of gamekeepers and hunters to be aware of and observe all regulations and legislation that relates to hunting and the use of firearms.

**C] DEFINITIONS**

9. **'Approved organisation'** is a hunting organisation approved under the Code of Practice for the Welfare of Animals in Hunting by the Bureau of Animal Welfare, which promotes ethical hunting, and compliance of members with this Code by:
  - developing hunter education and proficiency testing programs and encouraging members to participate in these programs;
  - using practice ranges so that members may use simulated targets to develop proficiency. New members (or novices) should practise before using firearms or bows in hunting;
  - appointing sufficient numbers of experienced members as field officers so that the hunting activities of members can be adequately assessed; and
  - providing an annual report of the hunting activities of members (and the registration of hounds, if applicable) to the Bureau of Animal Welfare.
10. **'Bureau of Animal Welfare'** means the Director, Bureau of Animal Welfare, Department of Primary Industries, 475 Mickleham Road, Attwood 3049.
11. **'Field officer'** means a person appointed by the approved organisation who:
  - regularly attends hunts;
  - reports breaches of the code to the approved organisation;
  - provides details for the annual report to the Bureau of Animal Welfare; and
12. **'Firearm'** has the same meaning as under the **Firearms Act 1996**.
13. **'Game bird'** for the purpose of this code means any live introduced species of bird defined as game in schedule 6 Part A of the Wildlife Regulations 2002 or subsequent legislation. Where birds other than birds protected by the **Wildlife Act 1975** are reared and released for hunting the hunters must comply with the **Prevention of Cruelty to Animals Act 1986**, the provisions of this code and the provisions of any relevant code of practice for rearing of the particular species.

14. **'Gamekeeper'** is the person licensed under the Wildlife Regulations or acting as the agent for the licensed person.
15. **'Gundogs'** are dogs as defined under the **Wildlife Act 1975** and the associated regulations as 'gundogs' and conforming to the breed standards of the Australian National Kennel Council.
16. **'Hunting'** is the pursuit, trailing, stalking, searching for or driving out of an animal where the deliberate intention is to kill the animals being hunted.
17. **'Legislation relating to hunting'** includes:
  - **Conservation, Forests and Lands Act 1987** and associated regulations.
  - **Firearms Act 1996** and associated regulations.
  - **Prevention of Cruelty to Animals Act 1986** and associated regulations.
  - **Wildlife Act 1975** and associated regulations.

#### D] HUSBANDRY

The aim of game bird rearing is to provide fit, healthy animals, well adapted for release into the Private Game Reserve. Birds must not be released until fully feathered, and capable of achieving full flight capability.

##### **Minimum Standard**

The owner of a private game reserve must have a current Commercial Wildlife (Wildlife Producer) Licence Type 1 issued under the **Wildlife Act 1975** before releasing game birds for hunting

Those responsible for the incubation and rearing of game birds must be caring, considerate, conscientious, knowledgeable and skilled. They must be well prepared and take professional advice from veterinarians and qualified game consultants wherever necessary.

##### **Recommended best practice**

17. Young birds in brooders should be inspected a least twice every 24 hours. Thorough attention should be paid at least daily for bird health, parasites, injury, problem behaviours, feed and water availability, ventilation, lighting, safety of confinement measures and protection from predators.
18. **Beak trimming**

##### **Minimum Standard**

Beak trimming must only be performed by an experienced and competent operator or under the direct supervision of an experienced and competent operator.

##### **Recommended best practice**

Management should use appropriate selection of birds and the provision of conditions that reduce the tendency for cannibalism to occur.

To prevent cannibalism up to one-third of the upper beak may be removed within 72 hours of hatching.

**EJ NUTRITION****Minimum Standard**

Birds must have readily accessible fresh water and an appropriate diet to maintain growth, health and vigour.

They must have an environment appropriate to their species and age including areas of shelter and comfortable resting and have visual contact with other members of their own species.

Every precaution must be taken to avoid pain, injury or distress. Prevention of disease, injury and vice, and their rapid treatment should they occur.

Birds, apart from newly hatched birds, must not be placed in circumstances where they are deprived of water for more than 24 hours.

**Recommended best practice**

19. Adequate feed should be supplied in the feeding systems of sheds and ranges taking into account the level of nutrients available in these areas.
20. All feeding and watering systems should be checked daily for efficient operation and to ensure all birds have access to feed and water.
21. Water sources should be evaluated for salinity and microbiological contamination periodically to assess suitability for birds.
22. Up to 5–7 days of age, food and shallow water should be provided continuously to newly hatched chicks such that that can walk over or through it. Water containers should be flat and filled such that birds will not drown. Use of pebbles in shallow water dishes can assist birds in difficulty.

**Guidelines**

23. Commercial turkey rations may be used. Birds must receive a diet containing adequate nutrients to meet their requirements for good health and vitality. Confined birds must be fed daily.
24. Newly hatched birds require water within 60 hours under normal conditions; less time in hot weather. They may take more than 24 hours before requiring water.
25. Suggested minimum feed quality parameters –
  - From 0–6 weeks starter rations (Crude Protein 28%)
  - From 7–12 weeks (Crude Protein 22%)
  - From 12 weeks on (Crude Protein 18–20 %).

**FJ SHELTER AND FACILITIES**

Adequate welfare involves consideration of flock size, the housing system, the feeding and watering system, the breed and strain of bird, temperature, ventilation, lighting and other husbandry factors. The observance of any particular stocking density on its own cannot ensure the welfare of birds.

**Recommended best practice****29. Space Allowances:**

Recommendations for commercial rearing of these species are in appendices 1, 2 & 3.

**30. Range Yards:****Recommended best practice**

Birds should be moved into range yards as soon as chicks no longer require extra heating. Usually at 6 weeks of age but can be at 12 weeks of age depending on seasonal conditions, weather and feather development.

Large yards are best and there should be sufficient space for the birds to fly. Yards should have protection for the birds such as brush and perches but these must be placed in such a way as to allow for flight without injuring birds.

The yards should have a soft roof e.g. grapevine netting, so as to avoid damage to any birds in flight.

Sandy loams are the best soil type. Heavy soils could hold water and contribute to disease problems. Yards should be well drained.

The lower walls should be boarded to a height of 50–60 cm to protect birds from wind when necessary. Rodents must be routinely baited and predators fenced out by a wire fence of 50mm mesh buried 450mm deep or with a 600mm apron on the ground. Electric fencing may be used to supplement a standard wire fence.

Several types of cover crops can be sown as ground cover and the pens should be rotated to get maximum crop production with minimum traffic damage. Spring annuals such as wheat barley and oats, and summer annuals such as sunflower and sorghum can be used.

Shaded areas and protection from the elements should be provided if ground cover is inadequate.

<i>Recommended flight pen sizes and maximum bird density</i>			
<i>Species</i>	<i>Width (m)</i>	<i>Length (m)</i>	<i>Maximum bird density (sq. m/bird)</i>
<i>Pheasant</i>	10	30	1.35
<i>Partridge</i>	5	10	0.93
<i>Quail</i>	5	10	0.37

## G] HEALTH AND WELFARE

### **Minimum Standard**

Those responsible for the husbandry and custody of the birds must have experience and knowledge of the species involved. They must be aware of signs of ill health or distress in birds and have in place arrangements to obtain expert advice to assist with the development of appropriate treatment or corrections in management

### **Recommended best practice**

31. Dead, injured, trapped or ill birds should be detected and removed promptly. Prompt disposal, treatment or humane destruction should be arranged.

## H] TRANSPORTATION

### **Minimum Standard**

Where cages are stacked for transport space must be provided between consecutive tiers both horizontally and vertically to ensure adequate air movement between cages.

### **Recommended best practice**

32. Containers should be sufficiently robust for the species they contain and should be securely closed during transport to ensure no injury or escape is possible.
33. Additional care and procedures should be taken when birds are transported on very hot days particularly on days of high humidity. Avoid transportation on the hottest part of the day and particularly during periods of high humidity.

34. Birds should not be transported to the release point more than two hours prior to liberation.  
 35. Recommended transport cage dimensions

<i>Species</i>	<i>Height (mm)</i>	<i>Length (mm)</i>	<i>Width (mm)</i>
<i>Quail (per 4 birds)</i>	150	240	135
<i>Partridge (25 birds)</i>	300	700	500
<i>Pheasant (10 birds)</i>	300	700	500

#### I] RELEASE MANAGEMENT

36. **Liberation:**

##### **Minimum Standard**

A minimum hunting area of 100 ha must be provided.

The number of birds released must not be more than the environment and re-capture pens can sustain.

Birds must be released into cover in this area out of view of the hunters.

Birds must be fully developed physically, be capable of full flight, have full feather cover and must be mature.

##### **Recommended best practice**

Release sites should be selected that provide adequate brush cover for protection from predators and the elements. Bare unprotected areas should not be used. Birds must be free roaming.

The direction and location of the release should not be disclosed to hunters.

#### J] HOLDING AND RECAPTURE

##### **Minimum Standard**

All reasonable attempts must be made to recapture birds after hunting is completed.

Proper provision must be made to recover all released birds that have not been shot during the course of the hunt in the holding and recapture pens.

##### **Recommended best practice**

37. **Holding and re-capture pens** and habitat should always be appropriate and sufficient for the needs of the bird species, and sited away from public roads and areas. Pens should be designed and positioned in such a way as to encourage animals to seek refuge, food and water, and should be sufficient in number for the area being hunted. As for the range yards, the soil type, ground cover protection and predator controls are critical. These pens should have feeders and drinkers, which are regularly checked and refreshed. There should be at least one secure entrance that will permit birds to enter the pen but not exit.

#### K] CONDUCT OF HUNTING

##### **Minimum Standard**

Shotguns used must not have a gauge greater than 12 gauge.

A handler may work no more than one gun dog at any one time.

Only gundogs may be used on Private Game Reserves.

**Recommended best practice**

38. The hunt should be cancelled if adverse or severe weather conditions cause birds to be unable fly normally.
39. Firearms should be used that will kill humanely. Guidelines published by ammunition manufacturers should be considered when selecting ammunition suitable for the various bird species to be hunted. Rules for the safe use of firearms should be observed.
40. A game bird should only be shot at on a Private Game Reserve when:
  - It is safe to do so
  - The bird can be clearly identified
  - The bird is within effective range of the firearm and its ammunition
  - A humane kill is probable
41. To produce a quick and painless death a hunter should shoot to have the bird in the centre of the pattern at the point of impact.
42. Proper provision should be made to recover all shot birds. Every bird that is shot should be immediately recovered and examined to ensure that it is dead. If a bird is wounded and escapes, all reasonable attempts should be made to locate it so it can be dispatched quickly and humanely. A trained dog may be used to locate and recover a wounded bird as quickly as practicable.
43. Gundogs should be trained to obey commands, not to chase, and to hunt and retrieve only under the direction of the handler.
44. Dogs that are disobedient or do not hunt in the prescribed manner or commit chasing or catching of birds that are not wounded, and those that kill birds at retrieval, should be removed from the hunt.
45. When not participating in the hunt, dogs should be constrained by use of a lead, tether or crate.
46. Dogs used to assist hunters should be healthy and in good physical condition. They should not be used where there is an unacceptable risk of heat exhaustion or serious accident. If dogs are injured, they should receive prompt first aid, and professional treatment if required.
47. All diligent care should be taken by owners and handlers for the safety of dogs involved in a hunt. Hunts must be supervised by experienced staff of the private game reserve.

**APPENDIX 1****QUAIL****A9.1 Housing**

In wire-floor systems, a 7 mm square mesh is necessary to provide secure footing and prevent leg injuries, particularly during the first 10 days of life. This may be assisted at this early age by using corrugated cardboard or coarse paper over the floor surface.

In the cage systems, a 7 mm square mesh is necessary to prevent chicks escaping through side walls.

**A9.2 Space Allowances**

Maximum recommended stocking densities for quail according to housing type under good management conditions

**Age**

---

0–2 weeks:	180 birds/m <sup>2</sup> deep litter 200 birds/m <sup>2</sup> wire floored brooder
2–6 weeks:	120 birds/m <sup>2</sup> deep litter 130 birds/m <sup>2</sup> wire floored grower cage
Breeders	70 birds/m <sup>2</sup> deep litter 80 birds/m <sup>2</sup> wire floored cage

---

**APPENDIX 2****PARTRIDGE****Space Allowances**

Cages with floors should provide a minimum of 0.3 m<sup>2</sup> per bird

Grassed aviaries should provide 2.5m<sup>2</sup> per bird and should enable rotational use of aviaries to provide ground cover for the birds to hide.

Partridges will adapt to cages. A cage suitable for a mated pair measures 300mm wide by 600mm deep and 380mm high. The 12.5mm square welded wire floor should slope 12.5 degrees from back to front to allow eggs to be collected. This is a slope of about 1 in 7. Cages may be positioned back to back with a water trough servicing a pair of pens. Feeders should run full length along the front.

**APPENDIX 3****PHEASANTS**

Wire grids may be fitted to drinkers to prevent drowning. Birds are shifted to rearing pens at seven weeks of age and then their beaks may be trimmed. They can be stocked at 35 birds per metre square. After one to two weeks of settling down they may be moved to yards, which reduces picking and promotes feathering.

**Indoor**

Feeding and watering facilities should be distributed to provide equal and ready access to all birds. After 8 weeks of age stocking density should not exceed 2.6 bird/m<sup>2</sup>. Cannibalism is likely to occur at higher densities.

**Feed and Water Space Allowances**

Sufficient feed and facilities should be available so all birds receive adequate nutrition for even growth and lack of obvious competition. In providing adequate feed and water space requirements for birds, it is recognised there is a range of feeder and waterer types in use. Manufacturers' recommendations should be referred to and not exceeded in this respect. In some cases more space per bird should be allowed.

Guidelines for acceptable feed and water space in housing systems are provided below.

<b>Breeders</b> <b>Feeder Space</b> Max 80 birds/pan feeder <b>Waterer Space</b> Max 110 birds/bell drinker
<b>Rearing and Breeders</b> <b>Feeder Space</b> Max 100 birds/pan feeder <b>Waterer Space</b> Max 120 birds/bell drinker
