Water Act 1989

BY-LAW NO. 2 WATER RESTRICTIONS FOR DROUGHT RESPONSE

Lower Murray Water (LMW) is to introduce a revised By-Law No. 2, Water Restrictions for Drought Response, for all urban and rural garden water supply systems across the LMW region from 1 July 2006, as required and outlined in Action 5.8 of the government's White Paper for Water.

Water shortages across the state led to the development of By-Law No. 2 Restrictions for Drought Response and the intent of the By-Law is to ensure greater uniformity by introducing a four stage uniform restriction schedule across the State of Victoria.

By-Law No. 2 Restrictions for Drought Response will replace By-Law No. 2 Permanent Conservation and Demand Management Restrictions.

Key elements of By-Law No. 2 Water Restrictions for Drought Response:

- Replacing the five stage restriction schedule with a state wide uniform four stage restriction schedule.
- Increase in the number of restriction categories from fourteen to twenty-four.
- Improvement and an increase in the number of definitions.
- A listing of "Trigger Points" for all four restriction stages.
- The provision of a key word index for ease of restriction schedule access.

Copies of By-Law No. 2 Water Restrictions for Drought Response are publicly available via the LMW web site, www.lmw.vic.gov.au and in

hard copy over the counter from any LMW office.

General enquiries related to By-Law No. 2 Water Restrictions for Drought Response should be directed to Mr Keith Thomson on (03) 5051 3420.

PERMANENT WATER SAVING PLAN

Lower Murray Water (LMW) is to introduce permanent water saving rules for all urban and rural garden water supply systems across the LMW region from 1 July 2006, as required and outlined in Action 5.4 of the government's White Paper for Water and pursuant to the **Water Act 1989** Section 170A to G.

Water shortages across the state led to the development of a Permanent Water Saving Plan and it is important that these new water saving rules, which will be imposed by all Water Authorities, are easily understood and readily adopted by our customers.

Key elements of the Permanent Water Saving Plan include:

- Changes in the time-of-use for both automatic and manual watering systems. These include private/public gardens and lawns, and public sports and recreational grounds.
- Fountains may only be used if they recirculate water.
- A hand-held hose must not be used at any time to clean a vehicle unless it is fitted with a trigger nozzle.
- Hard surfaces must not be cleaned with water from a hose unless cleaning is required as a result of an accident, fire, emergency or a health hazard has developed.
- No restrictions apply to watering of plants at wholesale, retail and municipal garden nurseries.

- Hoses used in the construction industry must be fitted with a trigger nozzle.

Copies of the Permanent Water Saving Plan are publicly available via the LMW web site, www.lmw.vic.gov.au and in hard copy over the counter from any LMW office.

General enquiries related to the Permanent Water Saving Plan should be directed to Mr Keith Thomson on (03) 5051 3420.
