EXEMPTION

Application No A101/2010

The Victorian Civil and Administrative Tribunal (the Tribunal) has considered an application, pursuant to section 83 of the **Equal Opportunity Act 1995** (the Act), by Rumbalara Aboriginal Co-Operative Ltd (the applicant). The application for exemption is to enable the applicant to advertise for and employ an Aboriginal or Torres Strait Islander person as an Indigenous Outreach Worker.

Upon reading the material submitted in support of the application, including the affidavit of Felicia Dean, the Tribunal is satisfied that it is appropriate to grant an exemption from sections 13, 100 and 195 of the Act to enable the applicant to advertise for and employ an Aboriginal or Torres Strait Islander person to fill the position of Indigenous Outreach Worker.

In granting this exemption the Tribunal noted:

- The applicant is an Aboriginal community controlled organisation which was established in 1981. It is a leading Aboriginal organisation in Australia and is the biggest co-operative outside of Metropolitan Melbourne.
- The applicant's philosophy is based upon self-determination, self-management and governance. It is governed by seven Aboriginal Board members and the Chief Executive Officer. The latter role has always been filled by an Aboriginal person.
- The Council of Australian Governments has allocated funding for 160 new Indigenous Outreach Workers and one of those positions is to be created within the applicant organisation. The purpose of the role is to improve the health outcomes for the community where the applicant operates through the Worker arranging, coordinating and delivering primary health care services across the range of the health services offered

by the applicant. The funding requires that the person appointed to the position be an Aboriginal or Torres Strait Islander person.

The Tribunal hereby grants an exemption to the applicant from the operation of sections 13, 100 and 195 of the Act to enable the applicant to advertise for and employ an Aboriginal or Torres Strait Islander person as an Indigenous Outreach Worker.

This exemption is to remain in force from the day on which notice of the exemption is published in the Government Gazette until 26 May 2013.

- (3) If Your supply of Premium Feed-In Electricity is not of a private or domestic nature, You must provide Red Energy with a valid Australian Business Number relevant to Your supply of Premium Feed-In Electricity to Red Energy.
- (4) You will indemnify Red Energy for any loss, cost, damage, expense or claim suffered by Red Energy as a result of Red Energy failing to withhold any amount in respect of tax from any payment or credit to be made to You under Your Premium Feed-In Contract.

The envelope or package must be hand delivered or posted to reach the address mentioned above by 4 pm (AEST) on 18 November 2010.

Late, incomplete, facsimile or email applications will not be accepted.

An application must be made for an individual designated area.

Applications will be treated as strictly commercial in confidence.

The Minister reserves the right to reject an application and may refuse to grant an exploration permit.

All applicants will be notified in writing of the Minister's decision.

THE CHIEF FACTORS THAT WILL BE CONSIDERED IN ASSESSING APPLICATIONS

Applications, including competing applications for the same area, will be assessed on the following criteria:

1. The degree to which the applicant's technical assessment of the area supports their proposed work program. For example:
 - the assessment of the geology should be based on existing data
 - the applicant should provide an assessment of petroleum prospectively and potential based on existing data and how this underpins the proposed work program
 - the applicant should identify the types of activities that will be required in the area to characterise potential petroleum system and to identify potential petroleum leads or traps.
2. The merits of work program:
 - 2.1 The work program quantum.
 - the proposed activity and expenditure in each year of the term of the permit
 - the number and timing of exploratory wells, provided there is an adequate supporting program of geological and geophysical work; the proposed objective for these exploration wells; the depth (stratigraphic and metreage) and testing/sampling program for exploration wells
 - amount, type and timing of seismic surveying
 - amount and type of other surveying, data acquisition, sampling, monitoring, reprocessing
 - proposed analysis and studies/modelling relating to petroleum system potential and potential petroleum prospectively.

- 2.2 The credibility of the work program. For example:
- the structure of the work program must be credible, coherent and supportable. Early elements of the work program should be sufficient to enable the later elements to proceed
 - the extent to which the work program is justified by the technical assessment
 - the extent to which the work program progresses assessment of the petroleum potential of the area to discover petroleum (oil and gas).
3. The likelihood of the work program being carried out. For example:
- what financial resources are available to the applicant?
 - is there a joint venture?
 - describe how the work program is to be financed?
 - what are the risks to the proposed financing and how are these proposed to be mitigated?
 - has the applicant undertaken a petroleum exploration program in which a work program was successfully financed to meet work program time commitments?
 - has the applicant undertaken a petroleum exploration program in which a work program was unable to be financed to meet work program time commitments?
4. Are the relevant technical qualifications, experience and skills of the applicant and the applicant's employees adequate to undertake an assessment of the petroleum potential of the area? For example:
- what geological and geophysical advice is available to the applicant?
 - what reservoir and fluid flow modelling is available to the applicant?
 - does the applicant have any experience or access to experience of petroleum exploration and production?

NATIVE TITLE

Applicants should note that:

1. Application areas VIC/G-10(1) to VIC/G-10(4):
 - contain Crown land; and
 - are subject to a registered native title claim by the Gunai/Kurnai people (Federal Court file number VID6007/98).
2. Application areas VIC/O-10(1) and VIC/O-10(2):
 - contain Crown land; and
 - VIC/O-10(1) is subject to the registered Gunditjmara People native title holders (Federal Court number VID6004/1998 and VID655/2006).

Therefore the future act provisions under Part 2, Division 3 of the **Native Title Act 1993** (NTA) must be addressed before a petroleum exploration permit is granted over this area.

Applicants should consider the consequences the NTA may have on their exploration rights and any future production rights. Information on Native Title can be found at <http://new.dpi.vic.gov.au/earth-resources/about-erd/legislation/native-title>

- **Petroleum (Submerged Lands) Act 1982** (Vic.)
- **Conservation, Forests and Lands Act 1987** (Vic.)

- **Flora and Fauna Guarantee Act 1988** (Vic.)
- **Aboriginal Heritage Act 2006** (Vic.)
- **Heritage Act 1995** (Vic.)

- **Pollution of Waters by Oil and Noxious Substances Act 1986** (Vic.)
- **Water Act 1989** (Vic.)
- **Environment Protection and Biodiversity Conservation Act 1999** (Cth)

Fisheries: The 2010 acreage release areas are in close proximity to valuable recreational and commercial fisheries. The successful companies should initiate contact with Fisheries Victoria, VRFish, Seafood Industry of Victoria and local fishing bodies prior to conducting any exploration activities.

Heritage: Successful companies should check the Heritage Register and Heritage Inventory for a list of shipwrecks and other significant remains or features prior to conducting exploration activities, as a permit and/or consent is required for activities that may affect places or items listed. Any new sites or wrecks encountered during exploration must be reported to Heritage Victoria.

The successful company should also consult the Victorian Aboriginal Heritage Register to determine the location of known Aboriginal heritage places. A Cultural Heritage Management Plan may be required prior to requesting consent to commence an exploration work plan.

AVAILABILITY OF DATA

Copies of the basic exploration data pertaining to the advertised areas can be ordered from GeoScience Victoria (GSV) by contacting Terry Smith +61 3 9658 4544 or email terry.smith@dpi.vic.gov.au. GSV is located at the ANZ Bank Building, Level 9/55 Collins Street, Melbourne, Victoria 3000.

NATIVE TITLE

Applicants should note that the application area 2010-1(v) contains Crown land. Therefore the future act provisions under Part 2, Division 3 of the **Native Title Act 1993** (NTA) must be addressed before a petroleum exploration permit is granted over this area.

Applicants should consider the consequences the NTA may have on their exploration rights and any future production rights. Information on Native Title can be found at <http://new.dpi.vic.gov.au/earth-resources/about-erd/legislation/native-title>

SPECIAL NOTES

If a petroleum exploration permit is granted, applicants should be aware that before conducting any exploration activities they must make themselves familiar with (and refer to) the following legislation:

- **Offshore Petroleum and Greenhouse Gas Storage Act 2006**
- **Environment Protection and Biodiversity Conservation Act 1999** (Cth)
- **Aboriginal and Torres Strait Islander Heritage Protection Act 1984** (Cth)
- **Australian Maritime Safety Authority Act 1990** (Cth)
- **Environment Protection (Sea Dumping) Act 1981** (Cth)
- **Navigation Act 1912** (Cth)
- **Quarantine Act 1908** (Cth)
- **Historic Shipwrecks Act 1976** (Cth)
- **Protection of the Sea (Prevention of Pollution from Ships) Act 1983** (Cth)
- **Protection of the Sea (Harmful Anti-fouling Systems) Act 2006** (Cth)

Environmental considerations: The area released in State waters, 2010-1(v), partially overlaps the Arches Marine Sanctuary. Parks Victoria and the Department of Sustainability and Environment must be consulted about the proposed exploration activities in the course of preparing an Environment Plan. In addition, marine activities will be subject to international agreements and conventions where Australia is a party to those agreements and conventions.

Fisheries: The 2010 acreage release areas are in close proximity to valuable recreational and commercial fisheries. The successful companies should initiate contact with Fisheries Victoria, VRFish, Seafood Industry of Victoria and local fishing bodies prior to conducting any exploration activities.

Directions: The Schedule of Specific Requirements is a set of standing directions issued under section 101 of the **Petroleum (Submerged Lands) Act 1982**. Please note that some clauses have been revoked. However, to ensure complete coverage and compliance, companies should contact DPI to confirm precisely which clauses continue to apply. A copy of the Schedule can be obtained from the contact person for operational matters.

Heritage: Successful companies should check the Heritage Register and Heritage Inventory for a list of shipwrecks and other significant remains or features prior to conducting exploration activities, as a permit and/or consent is required for activities that may affect places or items listed. Any new sites or wrecks encountered during exploration must be reported to Heritage Victoria.

The successful company should also consult the Victorian Aboriginal Heritage Register to determine the location of known Aboriginal heritage places. A Cultural Heritage Management Plan may be required prior to requesting consent to commence an exploration work plan.
