Chief Executive Officer

NOTICE OF INTENTION TO DISCONTINUE ROAD
NOTICE OF INTENTION TO SELL LAND

The Northern Grampians Shire Council ('the Council') resolved at its ordinary Council meeting held on 3 March 2014 to give notice of its intention to discontinue the road Pascoe Lane, Stawell (as shown by hatching on the plan below), in accordance with section 206 and schedule 10, clause 3 of the **Local Government Act 1989**.

The Council formed the opinion that the road is no longer required as a road for public use and resolved to also give notice of its intention to sell the land from the road by private treaty to an adjoining property owner in accordance with section 189 of the **Local Government Act 1989**.

A person has a right to make a submission to the Council under section 223 of the Act on the proposals and must do so in writing. Submissions are to be received by no later than 17 April 2014 and sent to: The Chief Executive Officer, Northern Grampians Shire Council, PO Box 580, Stawell, Victoria 3380.

Any submissions received must be considered by the Council and any person making a submission is entitled to state in the submission that he or she wishes to appear in person, or to be represented by a person specified in the submission, at a meeting to be heard in support of the submission.

Please note that copies of submissions (including submitters' names and addresses) will be made available at the Council meeting at which the proposal will be considered. The submission will form part of the minutes of the meeting which are made available on the Council's website and Council is also required to make submissions available for public inspection for a period of twelve months.

HUME PLANNING SCHEME

Notice of Preparation of Amendment

Amendment C188

The Hume City Council has prepared Amendment C188 to the Hume Planning Scheme.

The land affected by the Amendment is 200–230 James Mirams Drive, Roxburgh Park.

The Amendment proposes to facilitate the development of a larger supermarket and associated shops within the designated Greenvale Lakes Neighbourhood Activity Centre by increasing the floorspace ‘cap’ from the present 2,750 m² to 5,000 m². This would permit the development of a supermarket-based centre consistent with the vision for a range of dispersed centres set out in the Hume Retail Strategy of 2009.

You may inspect the Amendment, any documents that support the Amendment and the explanatory report about the Amendment, free of charge, at the following locations: during office hours, at the office of the planning authority, Hume City Council, Broadmeadows Office, 1079 Pascoe Vale Road, Broadmeadows 3047; and at the Department of Transport, Planning and Local Infrastructure website, www.dpcd.vic.gov.au/planning/publicinspection

Any person who may be affected by the Amendment may make a submission to the planning authority. Submissions must be made in writing giving the submitter’s name and contact address, clearly stating the grounds on which the Amendment is supported or opposed and indicating what changes (if any) the submitter wishes to make.

Name and contact details of submitters are required for Council to consider submissions and to notify such persons of the opportunity to attend Council meetings and any public hearing held to consider submissions. In accordance with the **Planning and Environment Act 1987**, Council must make available for inspection a copy of any submissions made.

The closing date for submissions is 24 April 2014. A submission must be sent to the Strategic Planning Department, Hume City Council, PO Box 119, Dallas, Victoria 3047. Email strategicplanning@hume.vic.gov.au

EXEMPTION

Application No. H28/2014

The Victorian Civil and Administrative Tribunal has considered an application pursuant to section 89 of the **Equal Opportunity Act 2010** (the Act) by Bowls Sunraysia Division Inc. (the applicant). The application for exemption is to enable the applicant to organise and operate a women-only lawn bowls tournament, the Dot Jenkinson Ladies Pairs, and advertise those matters (the exempt conduct).

Upon reading the material filed in support of this application, including the affidavits of Hazel Susan Nichols, the Tribunal is satisfied that it is appropriate to grant an exemption from sections 44, 71, 107 and 182 of the Act to enable the applicant to engage in the exempt conduct.

In granting this exemption the Tribunal noted:

- A copy of the application was sent by the Tribunal to the Victorian Equal Opportunity and Human Rights Commission (the Commission). The Commission did not seek leave to intervene in the proceeding.
- The Dot Jenkinson Ladies Pairs (the tournament) is a prestigious event for women in Victoria and South Australia and commemorates the achievements of champion bowler Dot Jenkinson, an ‘icon’ amongst women bowlers. As a women-only event, it encourages participation of women throughout Victoria and other states of Australia. Over the past 16 years the event has developed to attract record entries. The trophy is much sought after and, as yet, has never been won more than once.
- Similar men-only and mixed gender tournaments are held in Sunraysia and Victoria.
- The event offers a significant financial benefit to the local economy and plays a large part in promoting the Sunraysia region.
- Exemptions in similar terms have been granted in December 2002 (A410/2002), July 2005 (A201/2005), September 2008 (A221/2008) and November 2010 (A326/2010). The last granted exemption expired on 24 November 2013. I am not satisfied that one of the exceptions contained in the Act applies to the conduct and there is no current exemption which applies to the exempt conduct. In the absence of an exemption, the exempt conduct would amount to prohibited discrimination.
- When making decisions about exemptions, the Tribunal is required to give proper consideration to relevant human rights as set out in the **Charter of Human Rights and Responsibilities Act 2006** (Charter). Arguably, this exemption limits the right to equality and in particular the right to equal and effective protection against discrimination of men who would wish to play in the tournament. I am satisfied that, in the circumstances discussed above, the limit imposed by this exemption is reasonable and justified under the Charter.

The Tribunal hereby grants an exemption from the operation of sections 44, 71, 107 and 182 of the Act to enable the applicant to engage in the exempt conduct.

This exemption is to remain in force from the day on which notice of the exemption is published in the Government Gazette until 19 March 2019.

EXEMPTION

Application No. H49/2014

The Victorian Civil and Administrative Tribunal has considered an application pursuant to section 89 of the **Equal Opportunity Act 2010** (the Act) by Karingal Bowling Club (the applicant). The application for exemption is to enable the applicant to organise and operate a men-only lawn bowls tournament, the Karingal Memorial Classic, and advertise those matters (the exempt conduct).

Upon reading the material filed in support of this application, including the affidavits of Trevor Leslie Jordan, the Tribunal is satisfied that it is appropriate to grant an exemption from sections 44, 71, 107 and 182 of the Act to enable the applicant to engage in the exempt conduct.

In granting this exemption the Tribunal noted:

- A copy of the application was sent by the Tribunal to the Victorian Equal Opportunity and Human Rights Commission (the Commission). The Commission did not seek leave to intervene in the proceeding.
- The Karingal Memorial Classic is a men's-only invitation event which has operated for the past six years (the tournament). The tournament was originally called the Max Simpson Karingal Classic, in honour of a distinguished past member of the applicant. The name changed in 2011 and is held in honour of all past distinguished male members of the applicant. Invitations are sent to the top-level players within the Karingal district, region and state-level teams. As a consequence, the tournament is strong and competitive and attracts many spectators. The tournament is a showcase for bowls and for the applicant club. The tournament will next be held on 27 April 2014.
- The applicant holds an equivalent women-only tournament day. The arrangements at the applicant club for bowls allow for open, men-only and women-only pennant competitions, social bowls and special events. The applicant provides opportunities for men and women to have the opportunity to play bowls in the type of event of their choice, whether to play open, single gender events or social bowls.
- I am not satisfied that one of the exceptions contained in the Act applies to the conduct and there is no current exemption which applies to the exempt conduct. In the absence of an exemption, the exempt conduct would amount to prohibited discrimination.
- When making decisions about exemptions, the Tribunal is required to give proper consideration to relevant human rights as set out in the **Charter of Human Rights and Responsibilities Act 2006** (Charter). Arguably, this exemption limits the right to equality and in particular the right to equal and effective protection against discrimination of women who would wish to play in the tournament. I am satisfied that, in the circumstances discussed above, the limit imposed by this exemption is reasonable and justified under the Charter.

The Tribunal hereby grants an exemption from the operation of sections 44, 71, 107 and 182 of the Act to enable the applicant to engage in the exempt conduct.

This exemption is to remain in force from the day on which notice of the exemption is published in the Government Gazette until 19 March 2019.

Fire Services Levy Monitor Act 2012
GUIDELINES ISSUED UNDER SECTIONS 6(2)(d) AND 27 OF THE
FIRE SERVICES LEVY MONITOR ACT 2012

Resolution of insurers' over-collection of fire services levy in 2012–13

Introduction

The Fire Services Levy Monitor (FSLM) publishes these guidelines, after extensive industry consultation, as a comprehensive statement of the fused circumstances in which issues associated with the over-collection of fire services levy (FSL) on insurance premiums for property insurance in Victoria may be resolved. The guidelines provide a structured and linear approach providing sufficient flexibility to facilitate a resolution of such issues.

These guidelines do not provide a series of unrelated options that insurers may pursue, at their discretion, in the resolution of over-collection issues. Insurers are advised that a failure to adopt the approach in these guidelines may result in the Monitor pursuing other means available under the **Fire Services Levy Monitor Act 2012** (the Act) to resolve over-collection issues.

What is 'FSL over-collection'?

1. Prior to 1 July 2013, Victoria's two firefighting services were funded largely through contributions from insurance companies and certain insurance intermediaries. The 2012–13 financial year was the last year in which these contributions were funded by insurers imposing a charge, commonly known as the FSL, on premiums for property insurance in Victoria.
2. Insurance companies estimated their respective contribution liability for the 2012–13 financial year and then set FSL rates to recover their estimated liability from their policyholders. Under the statutory methodology for determining the contribution of each insurance company, the exact amount of contribution required was not known until after the end of the financial year. The uncertainty in estimating each insurer's contribution resulted in the FSL amount collected from policyholders in aggregate either exceeding, or falling short of, the exact contribution required for 2012–13.
3. An over-collection of FSL is considered to occur where the amount declared to the FSLM by an insurance company or intermediary as FSL collected in relation to a fire service during the year to 30 June 2013, exceeds the final amount of contribution for the 2012–13 financial year¹ as determined by the fire service and advised to the FSLM.

Principles for resolving over-collection

4. The FSLM considers that FSL recovered by insurers from policyholders which is in excess of their statutory obligation to contribute to a fire service for 2012–13 is policyholders' money. The FSLM acknowledges that estimation of insurers' contributions made variation from the final contribution amount likely, though the adoption by some companies of tapering FSL rates during 2012–13 clearly contributed to over-collection. In any event, the FSLM considers that retention of monies collected from policyholders for the stated purpose of funding an insurer's contribution to a fire service where some of the amount collected was in fact not contributed to the fire service is inappropriate (and may be unlawful).
5. Over-collection of FSL by insurance companies raises issues of potential non-compliance with the **Fire Services Levy Monitor Act 2012** (the Act) and the Australian Consumer Law. Over-collection of FSL was addressed in the Monitor's May 2013 guidelines on price exploitation, although the compliance issue is a broader one than price exploitation alone.
6. Where it is practicable to do so, the FSLM considers that insurance companies should return the over-collected FSL relating to the 2012–13 financial year to those policyholders who paid FSL.

¹ Including final adjustment amounts in accordance with section 45(b)(ii) of the **Metropolitan Fire Brigades Act 1958** and section 81 of the **Country Fire Authority Act 1958**.

Determining the amount of over-collection

7. The collection of FSL and statutory contributions to the fire services may be considered as whole, rather than treating collections and contributions for the two fire services as separate entities. Thus, an under collection of FSL for one fire service may be offset against an over-collection of FSL for the other fire service.
8. Entities required to contribute separately under the fire services' legislation in 2012–13 are regarded, on a prima facie basis, as separate businesses in 2012–13. Specific claims by contributing entities that they were not separate business and which seek to offset under- and over-collections across entities will be considered on the facts of each case. In addition to the principal factor of reporting separately to the fire services, other factors relevant to making an assessment of separateness include: whether the entities reported separately in 2012–13 to other regulatory authorities, such as the Australian Prudential Regulation Authority and the Australian Securities and Investments Commission; common setting of FSL rates during 2012–13; and any sharing of billing systems and/or common staffing of other customer-facing business operations.
9. The FSLM considers that commercial policyholders should not be excluded from refunds of over collected FSL. The statutory obligation to contribute to a fire service is a single liability per insurance entity. The legislation does not create one liability in respect of commercial policyholders and another in respect of residential policyholders.
10. An adjustment may be made to the amount of FSL collected as at 30 June 2013 and set out in the FSL declaration to the FSLM on account of:
 - any refund of FSL to policyholders on 2012–13 policies cancelled after 30 June 2013 which was refunded to policyholders prior to 1 March 2014; or
 - the amount of FSL not recovered due to the cancellation of 2012–13 instalment-paid policies after 1 July 2013 and prior to 1 March 2014.
11. In either situation, independent verification of the amount sought as an adjustment (that is, the amount that has either been refunded or not received as instalments revenue) will be required by the FSLM as part of an undertaking entered into by the insurer under section 92 of the Act to resolve over-collection issues.
12. Where either or both of the adjustments set out in paragraph 10 are made, the amount of FSL collected as at 30 June 2013 must take into account (be augmented by) any FSL on a pre-1 July 2013 incepted policy that was received by an insurer after 30 June 2013 and prior to 1 March 2014 due to delayed processing of the 2012–13 commencing policy.

13. The amount of over-collection is the outcome of the following calculation:

<p>Total \$ amount declared to the FSLM² as FSL collected during 2012–13 in relation to both fire services</p> <p><u>Minus [refer paragraph 10]:</u></p> <ul style="list-style-type: none"> • refunds of FSL to policyholders on 2012–13 policies cancelled between 1 July 2013 and 1 March 2014; and/or • amount of FSL not recovered due to the cancellation of 2012–13 instalment-paid policies between 1 July 2013 and 1 March 2014 <p><u>Plus [refer paragraph 12]:</u></p> <p>any FSL on 2012–13 policies that was received between 1 July 2013 and 1 March 2014</p>	-	<p>final total \$ amount of contribution for 2012–13 determined by both fire services³</p>	=	<p>Amount of FSL Over- (or Under-) collected for 2012–13</p>
---	---	---	---	--

14. No adjustment should be made to the amount of FSL over-collected in 2012–13 because of any amount of under-collected (or over-collected) FSL in the financial years before 2012–13. Offsetting one or more year’s under-collection against an over-collection in 2012–13 is contrary to past practice whereby each financial year’s under- or over-collection of FSL was effectively ‘squared off’ after the end of the year. This was achieved through the fire service(s) either: (a) refunding any excess FSL collection paid provisionally by the insurer; or (b) billing the insurer to make up any shortfall from amounts paid. Thus, there is no under- or over-collection situation in one year to ‘carry over’ into subsequent years.

Implementing the resolution of over-collection

(A) Refunds

15. Refunds of the amount of over-collected FSL should be directed only to those policyholders who paid FSL during 2012–13: policyholders who were not charged FSL because a zero per cent FSL was applied to their policies should not receive a refund.
16. Refund amounts should be proportionate to the amounts of FSL paid by policyholders: for example, a policyholder holder who paid twice the amount of FSL compared to another policyholder should receive twice the amount of refund compared to the latter policyholder.
17. There are two scenarios for calculating potential refunds to individual policyholders, each requiring a different general formula: where insurers have over-collected FSL for only one fire service (‘Scenario A’); and where insurers have over-collected FSL for both fire services (‘Scenario B’).
18. **Scenario A: Refund calculation for insurers who have over-collected FSL for only one fire service.** Only policyholders who live in the fire service region for which the insurer has over-collected FSL should receive a refund.

<p>FSL paid by policyholder in 2012–13</p> <hr style="border: 0.5px solid black;"/> <p>Total FSL collected in 2012–13 for the fire service that the insurer over-collected for</p>	X	<p>Amount of FSL over-collected by the entity [as determined under the formula at paragraph 13]</p>
--	---	---

² Where insurers failed to provide a declaration to the FSLM, the FSL amount declared by the insurer to the fire services is used.

³ Including final adjustment amounts as per section 45(b)(ii) of the **Metropolitan Fire Brigades Act 1958** and section 81 of the **Country Fire Authority Act 1958**.

19. **Scenario B: Refund calculation for insurers who have over-collected FSL for both fire services.** These refunds are weighted for the amount of FSL over-collected for each fire service, so that the FSL refunded is proportionate to the over-collection for each fire service. There is a separate formula for policyholders in each fire services region.

(i) Refund calculation for Metropolitan Fire Brigades (MFB) region policies:

$$\left(\frac{\text{FSL paid by MFB policyholder in 2012–13}}{\text{Total FSL collected in 2012–13 for MFB}} \right) \times \text{Amount of FSL over-collected by the entity [as determined under the formula at paragraph 13]} \times \left(\frac{\text{FSL over-collected in 2012–13 for the MFB}}{\text{Combined FSL over-collection in 2012–13}^4} \right)$$

(ii) Refund calculation for Country Fire Authority (CFA) region policies:

$$\left(\frac{\text{FSL paid by CFA policyholder in 2012–13}}{\text{Total FSL collected in 2012–13 for CFA}} \right) \times \text{Amount of FSL over-collected by the entity [as determined under the formula at paragraph 13]} \times \left(\frac{\text{FSL over-collected in 2012–13 for the CFA}}{\text{Combined FSL over-collection in 2012–13}^5} \right)$$

20. Goods and Services Tax (GST) and stamp duty on FSL collected by insurers may be distinguished from the over-collected FSL because they were not retained by insurers. However, policyholders paid GST and stamp duty on all FSL. Accordingly, where refunds of over-collected FSL are made directly to policyholders it is appropriate for the insurer to also refund amounts equivalent to GST and stamp duty on the refunded FSL.
21. Advice from the Australian Taxation Office (ATO) and the Victorian State Revenue Office (SRO) indicates that where refunds of over-collected FSL include the return of GST and stamp duty and are made directly to individual policyholders, consequential adjustments are available for insurers' GST and stamp duty liability. This would mean that insurers would obtain a neutral retained base premium revenue outcome from the refunding and GST/stamp duty adjustment processes. Any monies paid out by insurers as either GST or stamp duty to accompany FSL refunds would, in effect, be returned to them through the adjustment processes.

(B) Alternative disbursement of over-collected FSL

22. Where the over-collected FSL amount potentially refundable to an individual policyholder is not likely to be material to the individual policyholder, an insurance company may either refund the amount; or the amounts in such individual cases may be aggregated and an alternative disbursement of the total funds made, subject to the agreement of the FSLM. A reasonable test for materiality of refund may be \$20 or more per policyholder. However, where an insurer seeks to apply a higher threshold in respect of commercial policyholders due to the cost of administering refunds, the merits of that will need to be agreed with the FSLM and will be considered on a case-by-case basis.
23. Where there exist demonstrable administrative difficulties for an insurance company in determining the amount and/or the proper recipient policyholders of refunded over-collected FSL (for example, in relation to intermediated business), the FSL over-collected may be aggregated and an alternative disbursement of the over-collected funds agreed with the FSLM. An insurance company should agree with the FSLM whether to effect a refund to policyholders or disburse the amount in aggregate to an organisation.

⁴ This represents the sum of the insurer's over-collection for the MFB and the CFA combined, prior to any other offsetting adjustments.

⁵ This represents the sum of the insurer's over-collection for the MFB and the CFA combined, prior to any other offsetting adjustments.

24. Disbursements of over-collected FSL should be made to organisations considered by the FSLM to represent the interests of Victoria consumers of insurance (the recipient organisation also being agreed with the FSLM). The FSLM will determine the amounts to be paid to particular organisations. In addition to their purpose, recipient organisations must meet the following requirements:
- be subject to, and meet, the governance and financial reporting requirements of Australian corporations law or Victorian law where the organisation is an incorporated association; and
 - publish an annual report that sets out the governance arrangements, activities and accounts of the organisation.
25. The following are determined to be the appropriate organisations to receive payments from insurers as disbursement of over-collected FSL:
- Consumer Action Law Centre, Level 7, 459 Little Collins Street, Melbourne, Victoria 3000;
 - Good Shepherd Microfinance Limited, 192–198 High Street, Northcote, Victoria 3070;
 - Footscray Community Legal Centre Inc., Level 1, 72 Buckley Street, Footscray, Victoria 3011;
 - Brotherhood of St Laurence, 67 Brunswick Street, Fitzroy, Victoria 3065; and
 - The Uniting Church in Australia Property Trust (Victoria)⁶ (trading as Kildonan Uniting Care, 1 Gold Street, Collingwood, Victoria 3066).
26. In addition, the FSLM will consider whether it is appropriate for payments arising from arrangements for the resolution of FSL over-collection to be directed to the Victorian Consumer Law Fund created under Victoria's **Australian Consumer Law and Fair Trading Act 2012** (Vic.).
27. In contrast to the position with refunds paid to individual policyholders, it is understood that insurers cannot obtain adjustments for GST or stamp duty refund payments made to organisations that were not policyholders. Accordingly, where it is agreed that such disbursement be made, the Monitor will require that they cover only the amount of over-collected FSL. Payments to these organisations should not include amounts equivalent to GST and stamp duty on the FSL. Advice from the ATO and the SRO indicates that where over-collected FSL is disbursed in this circumstance, no consequential adjustments to insurers' GST and stamp duty liability are available.
- (C) Formal undertaking or other verification**
28. In order to ensure appropriate transparency and accountability for the disbursement of monies collected from policyholders, there needs to be a formalisation of the agreed disbursement arrangement. This is particularly the case where either of the following applies: (a) adjustments on account of post-30 June 2013 transactions as noted in paragraph 10; or (b) a distribution of refunds (including return of relevant GST and stamp duty amounts) to policyholders. The common issues in these are that some form of verification is necessary to ensure the integrity of the resolution and that implementation will not be immediate.
29. Formalisation of a disbursement arrangement will be recorded in an undertaking, from an insurer to the FSLM under section 92 of the Act. Undertakings may be made in relation to any of the functions of the Monitor. The Monitor advises all companies that any resolution of an over-collection issue between the Monitor and an insurer does not in any way diminish or extinguish any rights and remedies available to any other person arising from the conduct identified in such an undertaking.

⁶ This is a body corporate created under section 12 of **The Uniting Church in Australia Act 1977** (Vic.).

30. Where no adjustments referred to in paragraph 10 are involved and practical difficulties with refunds indicate a resolution by payment to one or more of the organisations listed in paragraph 25, an undertaking may not be necessary. The limited and immediate verification requirement in this circumstance may allow for a more informal administrative resolution approach to be adopted. This form of resolution will be considered for approval by the Monitor on a case-by-case basis, taking into account all of the circumstances of the proposed resolution.

For the avoidance of doubt, a reference in this Notice to the specification of a toll zone by reference to Burnley Street refers to that point on the Link road where Burnley Street would cross the Link road if Burnley Street continued in a straight southerly direction from its southernmost extremity. For the avoidance of doubt, a reference in this Notice to 'eastbound' means in a general easterly direction from the eastern end of the West Gate Freeway towards Glenferrie Road.

Notwithstanding anything to the contrary in Table One, under section 71(1)(b) of the Act and in accordance with the Agreement, the maximum tolls payable in respect of the use of a vehicle on a toll zone on the Link road where that vehicle is a Car, a LCV, a HCV or a Motor Cycle for a Trip are as listed in Table Two:

Trip Cap	Toll			
	Car	LCV	HCV	Motor Cycle
1. Where the passage of the vehicle on the last toll zone comprising the Trip before exiting the Full Link road occurs between 6 am and 8 pm on the same day.	\$7.97	\$10.63	\$10.63	\$3.99
2. Where the passage of the vehicle on the last toll zone comprising the Trip before exiting the Full Link road occurs between 8 pm on the one day and 6 am on the next.	\$7.97	\$7.97	\$7.97	\$3.99

Under section 71(1)(b) of the Act, and in accordance with the Agreement, the tolls listed in Table Three are payable in respect of the use of vehicles on toll zones on the Link road where those vehicles are Taxis:

Taxis	Toll
Each Half Link Taxi Trip	\$5.10
Each Full Link Taxi Trip	\$7.30

For the avoidance of doubt, this Notice does not set Charge Tolls, Maximum Charge Tolls or Taxi Tolls for the purposes of Schedule 3 (the Toll Calculation Schedule) of the Agreement, or Schedule 4 (the Toll Calculation Schedule) of the Integration and Facilitation Agreement.

For the avoidance of doubt, this Notice also:

- (i) revokes or repeals; or, in the alternative
- (ii) amends –

the NOTICE UNDER SECTION 71(1) dated 12 December 2013 and published in the Victoria Government Gazette No. G 51 (pages 3099 to 3103), dated 19 December 2013 ('the Last Notice').

This notice takes effect on 1 April 2014 and for the avoidance of doubt, the Last Notice ceases to have effect when this Notice takes effect, and the revocation, repeal, amendment or ceasing to have effect of the Last Notice shall not:

- (a) revive anything not in force or existing at the time at which the revocation, repeal, amendment or ceasing to have effect becomes operative;
- (b) affect the previous operation of the Last Notice or anything duly done or suffered under the Last Notice;

- (c) affect any right, privilege, obligation or liability acquired, accrued or incurred under the Last Notice;
- (d) affect any penalty, forfeiture or punishment incurred in respect of any offence committed relating (directly or indirectly) to or in respect of the Last Notice; or
- (e) affect any investigation, legal proceeding or remedy in respect of any such right, privilege, obligation, liability, penalty, forfeiture or punishment as is mentioned in paragraphs (c) and (d) –

and any such investigation, legal proceeding or remedy may be instituted, continued or enforced, and any such penalty, forfeiture or punishment may be imposed, as if the Last Notice had not been revoked or repealed or amended or had not expired, lapsed or otherwise ceased to have effect.

For the avoidance of doubt, the revocation, repeal, amendment or ceasing to have effect of the Last Notice does not in any way affect the direct amendments made in or by the Last Notice to, or the operation or effect of those amendments to, any NOTICE UNDER SECTION 71(1) published in the Victoria Government Gazette prior to the publication of the Last Notice.

For the avoidance of doubt, this Notice does not set Charge Tolls or Day Tolls for the purpose of Schedule 3 (the Toll Calculation Schedule) of the Agreement or Schedule 4 (the Toll Calculation Schedule) of the Integration and Facilitation Agreement.

For the avoidance of doubt, this Notice also:

- (i) revokes or repeals; or, in the alternative
- (ii) amends –

the NOTICE UNDER SECTION 71(1) dated 12 December 2013 and published in the Victoria Government Gazette No. G 51 (pages 3106 to 3108), dated 19 December 2013 ('the Last Notice').

This Notice takes effect on 1 April 2014, and for the avoidance of doubt, the Last Notice ceases to have effect when this Notice takes effect, and the revocation, repeal, amendment or ceasing to have effect of the Last Notice shall not:

- (a) revive anything not in force or existing at the time at which the revocation, repeal, amendment or ceasing to have effect becomes operative;
- (b) affect the previous operation of the Last Notice or anything duly done or suffered under the Last Notice;
- (c) affect any right, privilege, obligation or liability acquired, accrued or incurred under the Last Notice;
- (d) affect any penalty, forfeiture or punishment incurred in respect of any offence committed relating (directly or indirectly) to or in respect of the Last Notice; or
- (e) affect any investigation, legal proceeding or remedy in respect of any such right, privilege, obligation, liability, penalty, forfeiture or punishment as is mentioned in paragraphs (c) and (d) –

and any such investigation, legal proceeding or remedy may be instituted, continued or enforced, and any such penalty, forfeiture or punishment may be imposed, as if the Last Notice had not been revoked or repealed or amended or had not expired, lapsed or otherwise ceased to have effect.

For the avoidance of doubt, the revocation, repeal, amendment or ceasing to have effect of the Last Notice does not in any way affect the direct amendments made in or by the Last Notice to, or the operation or effect of those amendments to, any NOTICE UNDER SECTION 71(1) published in the Victoria Government Gazette prior to the publication of the Last Notice.

Melbourne City Link Act 1995

NOTICE UNDER SECTION 71(1)

Under section 71(1)(b) of the **Melbourne City Link Act 1995** ('the Act'), City Link Extension Pty Limited ABN 40 082 058 615 (the relevant corporation in relation to the Extension road) hereby fixes tolls which are payable in respect of the use of vehicles on the toll zone on the Extension road where those vehicles are the subject of a CityLink Pass for that use.

For the purposes of this Notice, the following definitions apply:

Bus is a Motor Vehicle having more than 12 seating positions (including that of the driver);

Car is a Motor Vehicle, other than a Motor Cycle, a Light Commercial Vehicle, a Heavy Commercial Vehicle or a Taxi even if such a Motor Vehicle is towing a trailer or caravan;

CityLink is CityLink Melbourne Limited ABN 65 070 810 678, the relevant corporation for the purposes of section 73C of the Act;

CityLink Pass is a 24 Hour Pass or a Weekend Pass;

Full Link road is the road included within both the Link road and the Extension road;

Heavy Commercial Vehicle or **HCV** is a Motor Vehicle, other than a Taxi, which is:

- (a) a rigid Truck with three or more axles;
- (b) an articulated Truck;
- (c) a Bus; or
- (d) a two-axle rigid Truck having a gross vehicle mass which exceeds 4.5 tonnes;

Light Commercial Vehicle or **LCV** is a Motor Vehicle, other than a Taxi, which is a two-axle rigid Truck having a gross vehicle mass which exceeds 1.5 tonnes, but does not exceed 4.5 tonnes;

Motor Cycle is a two-wheeled Motor Vehicle (and includes such a Motor Vehicle even if it has a trailer, fore car or side car attached) other than a Taxi;

Motor Vehicle is a vehicle which is used or intended to be used on a highway or in a public place and which has its own motive power (other than human or animal power) but does not include:

- (a) a vehicle intended to be used on a railway or tramway; or
- (b) a motorised wheel chair capable of a speed of not more than 10 kilometres per hour which is used solely for the conveyance of an injured or disabled person;

Taxi is, at any particular time, a Motor Vehicle in relation to which a commercial passenger vehicle licence (issued under the **Transport Act 1983**) then subsists, being a licence allowing for the operation of the Motor Vehicle as a Taxi-Cab (within the meaning of the **Transport Act 1983**);

the Extension Agreement has the same meaning as in the Act;

the Integration and Facilitation Agreement has the same meaning as in the Act;

Trip is the passage of a vehicle on one or more toll zones:

- (a) uninterrupted by exit and subsequent re-entry; or
- (b) if so interrupted, consists only of travel directly between:
 - (i) that part of the Link road between Bulla Road and the West Gate Freeway; and
 - (ii) that part of the Link road between Sturt Street and Glenferrie Road;

Truck is a Motor Vehicle other than a Bus which has a cab-chassis construction and a gross vehicle mass which exceeds 1.5 tonnes;

24 Hour Pass is an agreement with CityLink to register a vehicle (other than a Taxi) under Part 4 of the Act for use of any or all toll zones comprising the Full Link road for a fixed 24-hour period commencing at the time of the first Trip by the vehicle on a specified day;

vehicle has the same meaning as in the Act; and

Weekend Pass is an agreement with CityLink to register a Car, Light Commercial Vehicle or Motor Cycle under Part 4 of the Act for use of any or all toll zones comprising the Full Link road for a fixed period commencing at 12.00 pm on the Friday immediately before a specified Saturday and ending at midnight on the Sunday immediately following that specified Saturday. The fact that CityLink also registers that Car, Light Commercial Vehicle or Motor Cycle for an additional period at no extra charge does not prevent the agreement from being a Weekend Pass.

Under section 71(1)(b) of the Act and in accordance with the Extension Agreement, the tolls listed in Table One are payable in respect of the use of vehicles on the toll zone on the Extension road where the vehicle is the subject of a 24 Hour Pass for that use.

Table One				
24 Hour Pass	Toll			
	Car	LCV	HCV	Motor Cycle
	\$15.25	\$24.45	\$29.05	\$7.60

Under section 71(1)(b) of the Act and in accordance with the Extension Agreement, the tolls listed in Table Two are payable in respect of the use of vehicles on the toll zone on the Extension road where the vehicle is the subject of a Weekend Pass for that use.

Table Two			
Weekend Pass	Toll		
	Car	LCV	Motor Cycle
	\$15.25	\$24.45	\$7.60

For the avoidance of doubt, this Notice does not set Charge Tolls or Day Tolls for the purpose of Schedule 1 (the Toll Calculation Schedule) of the Extension Agreement or Schedule 4 (the Toll Calculation Schedule) of the Integration and Facilitation Agreement.

For the avoidance of doubt, this Notice also:

- (i) revokes or repeals; or, in the alternative
- (ii) amends –

the NOTICE UNDER SECTION 71(1) dated 12 December 2013 and published in the Victoria Government Gazette No. G 51 (pages 3109 to 3111), dated 19 December 2013 ('the Last Notice').

This Notice takes effect on 1 April 2014, and for the avoidance of doubt, the Last Notice ceases to have effect when this Notice takes effect, and the revocation, repeal, amendment or ceasing to have effect of the Last Notice shall not:

- (a) revive anything not in force or existing at the time at which the revocation, repeal, amendment or ceasing to have effect becomes operative;
- (b) affect the previous operation of the Last Notice or anything duly done or suffered under the Last Notice;
- (c) affect any right, privilege, obligation or liability acquired, accrued or incurred under the Last Notice;
- (d) affect any penalty, forfeiture or punishment incurred in respect of any offence committed relating (directly or indirectly) to or in respect of the Last Notice; or
- (e) affect any investigation, legal proceeding or remedy in respect of any such right, privilege, obligation, liability, penalty, forfeiture or punishment as is mentioned in paragraphs (c) and (d) –

and any such investigation, legal proceeding or remedy may be instituted, continued or enforced, and any such penalty, forfeiture or punishment may be imposed, as if the Last Notice had not been revoked or repealed or amended or had not expired, lapsed or otherwise ceased to have effect.

For the avoidance of doubt, the revocation, repeal, amendment or ceasing to have effect of the Last Notice does not in any way affect the direct amendments made in or by the Last Notice to, or the operation or effect of those amendments to, any NOTICE UNDER SECTION 71(1) published in the Victoria Government Gazette prior to the publication of the Last Notice.

Victorian Environmental Assessment Council Act 2001

TERMS OF REFERENCE – INVESTIGATION INTO HISTORIC PLACES

This notice is made pursuant to section 15 of the **Victorian Environmental Assessment Council Act 2001**.

The Minister for Environment and Climate Change hereby requests the Victorian Environmental Assessment Council (the Council) to carry out a statewide investigation into historic places¹ on public land in Victoria.

The purpose of the Historic Places Investigation is to:

- (a) review current information and information sources on historic places on public land, including the representation of historical themes;
- (b) examine and provide an assessment of current information, management arrangements for historic places in Victoria and any issues and opportunities related to their future protection, use and sustainability; and
- (c) make recommendations for opportunities to improve management arrangements to conserve, protect and enhance the historic, community and educational values of these places, including the potential for sustainable use and adaptive re-use of historic assets.

In undertaking the investigation, the Council is requested to consider how best to manage and conserve the wide diversity of historic places on public land in the context of available resources, pressures on heritage places and emerging trends in heritage conservation. In particular, the investigation should focus on options for managing historic places that are currently difficult to manage.

In addition to the considerations in section 18 of the **Victorian Environmental Assessment Council Act 2001**, the Council must take into account the following matters:

- (i) relevant State Government legislation, policies and strategies, Ministerial statements and reports by the Victorian Auditor-General;
- (ii) agency databases for historic places assets;
- (iii) relevant regional programs, strategies and plans; and
- (iv) relevant agreements under the **Traditional Owner Settlement Act 2010** and the **Conservation, Forests and Lands Act 1987**.

A draft proposals paper and a final report are to be prepared, allowing two public submission periods. A separate discussion paper is not to be prepared.

The Council must report on the completed investigation by 31 March 2016.

¹ For the purposes of this investigation, the term ‘historic places’ includes historic sites, buildings and associated objects. It does not include places associated with Aboriginal cultural heritage prior to contact with non-Aboriginal people (these are addressed by the **Aboriginal Heritage Act 2006**). It may include places relating to the post-contact period such as Aboriginal mission buildings.

Victorian Environmental Assessment Council Act 2001**VICTORIAN GOVERNMENT RESPONSE TO THE
YELLINGBO INVESTIGATION FINAL REPORT BY THE
VICTORIAN ENVIRONMENTAL ASSESSMENT COUNCIL**

The Yellingbo Investigation Final Report by the Victorian Environmental Assessment Council was publicly released on 7 August 2013. In accordance with the **Victorian Environmental Assessment Council Act 2001**, (S25(1)) this response addresses each of the recommendations made in the report.

GENERAL RECOMMENDATIONS**Recommendation 1 – Implementation resources**

Government allocates adequate financial and staff resources for implementation of these recommendations and ensures that the objectives of the report and recommendations are achieved.

The Government supports this recommendation.

The Government will ensure that departments and agencies are appropriately resourced to implement supported recommendations as required under the **Victorian Environmental Assessment Council Act 2001**.

Recommendation 2 – Resources for ongoing land management

Government allocates additional resources to address current and future public land management needs in the investigation area, with priority given to biodiversity conservation, pest plant and animal control, fire management planning and fire preparedness, and on-ground staff presence particularly with a view to improving current levels of compliance with regulations.

The Government supports this recommendation in principle.

The Government will consider requests for additional resourcing for biodiversity conservation, pest plant and animal control and fire management and preparedness where required to implement the objectives of the supported recommendations. Land managers will be responsible for identifying priority areas where funding is needed to support implementation. Resources required to implement supported recommendations, that exceed current funding arrangements, will be subject to normal budgetary processes.

The Government's response to R5 will also assist and reduce the costs of compliance by enabling a uniform set of regulations to apply to the entire Yellingbo Conservation Area.

Recommendation 3 – Interim management and minor boundary adjustments

Upon government acceptance of the recommendations in this report that:

- (a) relevant land be managed in accordance with accepted recommendations**
- (b) subsequent implementation of the recommendations allow flexibility for minor boundary adjustments.**

The Government supports this recommendation.

The Government will ensure that land in the investigation area will be managed in accordance with all supported recommendations. Minor boundary adjustments may be made during implementation to provide for sensible and effective management of the public land in the investigation area.

The Department of Environment and Primary Industries will be responsible for assisting land managers to identify the changes in land they manage.

Recommendation 4 – Boundary identification

Upon government acceptance of the recommendations in this report that priority be given to the identification of public land boundaries by graphical/digital means, especially for reserves along streams, with on-site survey if required to resolve specific management issues.

The Government supports this recommendation in principle.

The Government will prioritise the identification of public land boundaries where they are needed to implement accepted recommendations. Priority will be given to proposed changes in land tenure that require legislative amendments for implementation. The use of graphical/digital means where possible is preferred, however, the Government acknowledges that on ground surveying will likely be required to resolve specific issues.

The Department of Environment and Primary Industries will be responsible for the implementation of this recommendation.

STATE EMBLEMS CONSERVATION AREA

Recommendation 5 – State Emblems Conservation Area

That a State Emblems Conservation Area be designated to include the 2940 hectare area shown on figure 3.1 and in table 3.1, and that this area:

- (a) **provide for integrated management of the component land for the overall protection or enhancement of biodiversity and ecological values**
- (b) **be managed in accordance with directions set out in box 3.1 which form a part of this recommendation, and**
- (c) **be managed under section 19B and 19F of the National Parks Act 1975 and added to a new Schedule Four A ‘Conservation Landscapes’ created for the protection of fragmented public land within specified landscapes and for the integrated management of the designated land for nature conservation (also see note 1)**

and that:

- (d) **the individual public land units listed in table 3.1 be reserved according to the recommendations A, C and E applying specifically or generally to the relevant designated public land use category**
- (e) **the National Parks Act 1975 be amended if required to allow for:**
 - (i) **management agreements with public authorities to manage specified land included on Schedule Four A (recommendation R5(d), above), and**
 - (ii) **conservation agreements with adjacent landholders, for land on Schedule Four A (recommendation R5(d), above) within 100 metres of both a permanent waterway and the private land boundary**
- (f) **such agreements be made as appropriate for land specified in recommendations A2, C1 to C8 and E1, and**
- (g) **the relevant public land managers continue to have direct management responsibility for the respective public land units, including where that relates to broader scale planning responsibilities such as fire management and planning.**

Note:

1. Provisions of the **National Parks Act 1975** and the regulations under the Act are to apply.

The Government supports this recommendation in principle.

The Government supports VEAC’s recommendation to better integrate the management of the public land shown on figure 3.1 of the Final Report in order to improve the protection of its biodiversity and ecological values. The Government will therefore establish an area to be called the Yellingbo Conservation Area under the **National Parks Act 1975**. The appropriate legislative detail will be determined during implementation and may vary from that specified in R5(c).

Parks Victoria, the current land manager of the majority of the area will manage the proposed Yellingbo Conservation Area, other than areas managed by public authorities or subject to conservation agreements established in accordance with R5 (e(ii)).

The Government will seek to amend the **National Parks Act 1975** to provide for the management of areas within the proposed Yellingbo Conservation Area by public authorities. Zoos Victoria will therefore be able to continue to manage the area of the existing Coranderrk Nature

Conservation Reserve within the proposed Yellingbo Conservation Area. This will enable their continued important work on the conservation of threatened species.

The Government also supports amending the **National Parks Act 1975** to provide for the management of Crown frontages within the proposed Yellingbo Conservation Area by adjacent land owners as recommended in R5 (e(ii)). Conservation agreements may apply to other frontages within the proposed Yellingbo Conservation Area where appropriate, in addition to those suggested in R5 (f). The agreements will be consistent with and reflect the broader scale planning responsibilities of the relevant public land managers for matters such as fire management and planning. Partnering with adjacent land owners through the establishment of conservation agreements along Crown frontages will help enhance the biodiversity and ecological values of these areas and is consistent with the Government's *Environmental Partnerships* and the *Victorian Waterway Management Strategy*.

The Government also supports the removal of Haining Park from the existing Schedule Three of the **National Parks Act 1975** and its inclusion within the proposed Yellingbo Conservation Area. The Final Report identifies that there may be further scope for improving educational and conservation opportunities at Haining Farm. As such, Parks Victoria will be responsible for undertaking an assessment of the current uses and future opportunities for this area.

The Department of Environment and Primary Industries will be responsible for the establishment of the Yellingbo Conservation Area.

STATE EMBLEMS CONSERVATION AREA COORDINATING COMMITTEE

Recommendation 6 – State Emblems Conservation Area Coordinating Committee

That:

- (a) **State Emblems Conservation Area Coordinating Committee be established to oversee and coordinate land management for nature conservation and biodiversity programs in the State Emblems Conservation Area, set strategic directions and policies, provide guidance for land management, and increase the profile of the biodiversity and ecological values of the area and their protection;**

and that

- (b) **the coordinating committee be established under section 12 of the Conservation, Forests and Lands Act 1987**
- (c) **the Coordinating Committee be made up of a representative from each of Parks Victoria, Melbourne Water, Yarra Ranges Council, Cardinia Shire Council, Department of Environment and Primary Industries, Zoos Victoria, Port Phillip and Westernport Catchment Management Authority, Trust for Nature, and four community representatives: three nominated by Yarra Ranges Council and one nominated by Cardinia Shire Council**
- (d) **a convener, who is not from one of the member organisations, be appointed to act as independent chairperson, and**
- (e) **the role of the committee outlined in box 3.2, which forms part of this recommendation, be the basis for the formal functions of the committee.**

The Government supports this recommendation.

The Government acknowledges the need for improved coordination of the management of the Yellingbo Conservation Area in order to conserve its significant biodiversity and ecological values. Establishing strategic priorities and clear directions for the area will assist land managers, local government and the community to work in partnership to achieve better environmental outcomes in the area.

Improved collaboration between the various agencies and the community will be done through the establishment of the Yellingbo Conservation Area Coordinating Committee, under section 12 of the **Conservation, Forests and Lands Act 1987**.

The coordinating committee will seek to improve coordination and collaboration between land managers and other agencies involved in the management of the Yellingbo Conservation Area.

The coordinating committee will also play a key role in issues that arise at a regional level (e.g. planning for bush fire control, tourism, and pest plants and animals). The coordinating committee will be a point of contact for engagement and liaison with stakeholders on matters relating to land management.

An independent convener will be appointed by the Minister to coordinate the actions of the coordinating committee and provide advice on its operation and performance as requested.

To ensure community representation is maintained in the proposed coordinating committee, Government supports the proposal for local government to nominate representatives from their communities as outlined in R6(c). Parks Victoria will work with Yarra Ranges and Cardinia Shire councils to outline the requirements and process for community representation on the coordinating committee.

The Department of Environment and Primary Industries is responsible for the implementation of this recommendation, with support from Parks Victoria, departments and agencies on the coordinating committee.

NATURE CONSERVATION RESERVES

Recommendation A – General recommendations for nature conservation reserves

That the nature conservation reserves numbered A1 to A3, as shown on map A:

- (a) be used to:**
 - (i) conserve and protect species, communities or habitats of indigenous flora and fauna**
 - (ii) provide for educational and scientific study, where consistent with (i) above**
 - (iii) provide for recreation by small numbers of people, at the discretion of the land manager and where consistent with (i) above**
 - (iv) identify and protect cultural heritage values, where consistent with (i) above,**
- (b) generally permit the following activities, where compatible with (a):**
 - (i) bushwalking, nature observation, heritage appreciation, picnicking**
 - (ii) for Crown land, exploration and mining for minerals and searching for and extraction of stone resources subject to the consent of the Crown land Minister under the relevant legislation (see note 2),**
- (c) exclude the following activities:**
 - (i) grazing of domestic stock (see note 3)**
 - (ii) harvesting of forest products**
 - (iii) hunting and use of firearms (see note 4)**
 - (iv) solid fuel fires at any time of year (see note 5)**
 - (v) dog walking (see note 6)**
 - (vi) horse riding,**
- (d) be permanently reserved for conservation purposes under the Crown Land (Reserves) Act 1978 and included in a new schedule Four A ‘Conservation landscapes’ of the National Parks Act 1975 as part of the State Emblems Conservation Area in accordance with recommendation R5(d).**

Notes:

1. The above management objectives and land use recommendations are those that generally apply for the land use category. Exceptions to these may apply to specific reserves in special circumstances.
2. Exploration and mining provisions arise from nature conservation reserves being ‘restricted Crown land’ under the **Mineral Resources (Sustainable Development) Act 1990**.

3. Grazing may be contracted for ecological or management purposes such as targeted weed control but current licences in the recommended nature conservation reserves as shown on map A should cease as soon as possible, and grazing (if any) removed from these areas.
4. Hunting and the use of firearms may be authorised by the land manager as part of a pest animal control program.
5. Fire may be utilised as a land management tool, including for public safety, where compatible with ecological values. Existing picnic and barbecue facilities may be retained at Avard Park, at the discretion of the land manager and in accordance with management planning.
6. On-lead dog walking is permitted to continue only along Menzies Creek in recommended A3 Sassafras Creek Nature Conservation Reserve, and in accordance with management planning for that reserve.

The Government supports this recommendation in principle.

Government supports VEAC's recommendation to improve the management consistency across the three nature conservation reserves in the investigation area by including them in the proposed Yellingbo Conservation Area. Consolidation under the **National Parks Act 1975** will enable uniform regulations to apply and the area to be managed in a consistent manner. The appropriate legislative detail will be determined during implementation and may vary from that specified in RA(d).

Government supports that the area remains Restricted Crown Land for the purposes of the **Mineral Resources (Sustainable Development) Act 1990** and subject to the provisions of the **National Parks Act 1975** regarding works by public authorities.

To improve the biodiversity values of the riparian land and the health of the waterways, Government will aim for grazing, other than for ecological or other management purposes, to be phased out in accordance with RA ((c)(i)), with the small number of current licences in the nature conservation reserves ending on 30 September 2014. Licence holders will be encouraged to enter into conservation agreements under the **National Parks Act 1975**, as proposed in R5, to continue to manage the biodiversity and ecological values of their frontages. Where licence holders enter into such agreements, grants for fencing, off stream watering, weed control and revegetation may be available where priorities align with Melbourne Water's Stream Frontage Management Program. Reduced water licence fees may also apply where licence holders fence their frontages as part of a conservation agreement. The progressive phase out, will protect the highest value conservation areas as a first priority.

To balance the social values of the area with protecting the highest value conservation areas, a phase out timetable for dog walking and horse riding will be developed, with consideration given to allowing on-lead dog walking and horse riding on formed tracks in areas that do not demonstrate high conservation value.

The Department of Environment and Primary Industries with advice from the coordinating committee on the phase out timetable for dog walking and horse riding arrangements will be responsible for the implementation of this recommendation.

Recommendation A1 – State Emblems Nature Conservation Reserve

That:

- (a) **the area of 1662 hectares shown on map A as the State Emblems Nature Conservation Reserve be used in accordance with the general recommendations for nature conservation reserves**
- and**
- (b) **this area be managed in accordance with recommendations R5 and R6 and directions set by the State Emblems Conservation Area Coordinating Committee.**

Notes:

1. To facilitate community education and awareness of nature conservation issues, and to provide for landscape revegetation or restoration, the nursery and education centre at Yellingbo Nature Conservation Reserve may continue to operate within the reserve, at the discretion of the land manager.
2. The fire management plan for the area of the current Yellingbo Nature Conservation Reserve should be finalised as soon as possible.

The Government supports this recommendation.

Parks Victoria and other relevant land managers will manage this area in accordance with the general recommendations for Nature Conservation Reserves as well as the directions and priorities established by the Yellingbo Conservation Area Coordinating Committee.

In addition to the existing fire management plan under preparation, the Department of Environment and Primary Industries is currently developing a Strategic Bushfire Management Plan for the East Central Bushfire Risk Landscape in collaboration with managers of public and private land, community and interested stakeholders. The strategic planning is being undertaken at a 'bushfire risk landscape' scale which enables the development of strategies that respond to how bushfires behave. The strategic planning process has identified Yellingbo Nature Conservation Reserve as an important environmental asset in this landscape, and will therefore be considered in the development of bushfire management strategies for the landscape.

The Department of Environment and Primary Industries and Parks Victoria will be responsible for the implementation of this recommendation with assistance from agencies involved in fire management and planning. The fire management plan will be completed as soon as possible.

Recommendation A2 – Coranderrk Nature Conservation Reserve

That:

- (a) **the area of 144 hectares shown on map A as the Coranderrk Nature Conservation Reserve be used in accordance with the general recommendations for nature conservation reserves, except that**
 - (b) **public access and recreation including bushwalking, nature observation, heritage appreciation and picnicking may continue to be limited at the discretion of the land manager;**
- and**
- (c) **this area be managed in accordance with recommendations R5 and R6 and directions set by the State Emblems Conservation Area Coordinating Committee.**

Note:

1. Zoos Victoria should continue to manage this nature conservation reserve.

The Government supports this recommendation.

The Government continues to support Zoos Victoria's management of the existing Coranderrk Nature Conservation Reserve within the proposed Yellingbo Conservation Area. The area is an important asset for Zoos Victoria's important conservation recovery program for the helmeted honeyeater and is located adjacent to Healesville Sanctuary. A predator exclusion fence around both Coranderrk Nature Conservation Reserve and Healesville Sanctuary has recently been installed to improve threatened species recovery programs undertaken on-site. This action may require a restriction to public access at certain times at the discretion of Zoos Victoria.

Zoos Victoria will be responsible for the implementation of this recommendation.

Recommendation A3 – Sassafras Creek Nature Conservation Reserve

That:

- (a) **the area of 243 hectares shown on map A as the Sassafras Creek Nature Conservation Reserve be used in accordance with the general recommendations for nature conservation reserves; and**
- (b) **this area be managed in accordance with recommendations R5 and R6 and directions set by the State Emblems Conservation Area Coordinating Committee.**

Notes:

1. On-lead dog walking is permitted to continue along Menzies Creek, and in accordance with management planning.
2. Existing barbecue facilities may be retained at Avarad Picnic Ground at the land manager's discretion.

The Government supports this recommendation.

The Sassafras Creek Nature Conservation Reserve will be managed as part of the Yellingbo

Conservation Area by the current land manager, Parks Victoria in accordance with the above recommendation. Arrangements for areas currently managed by committees of management will be determined during implementation.

Parks Victoria will be responsible for the implementation of this recommendation.

TRUST FOR NATURE PROTECTED AREAS

Recommendation B – General recommendations for Trust for Nature protected areas

That the Trust for Nature protected areas as shown on map A, according to their specific values:

- (a) be used to:**
 - (i) conserve and protect species, communities or habitats of indigenous flora and fauna**
 - (ii) provide for educational and scientific study, where consistent with (i) above**
 - (iii) provide for recreation by small numbers of people at the discretion of the land manager, where consistent with (i) above**
 - (iv) identify and protect cultural heritage values, where consistent with (i) above;**
- (b) continue to be managed by Trust for Nature in accordance with the Victorian Conservation Trust Act 1972, and:**
 - (i) should these areas no longer be required by Trust For Nature, that the areas be transferred to the Crown or other government agency; and**
 - (ii) be permanently reserved for conservation purposes under the Crown Land (Reserves) Act 1978 or protected through another appropriate mechanism such as a conservation covenant.**

The Government supports this recommendation.

The Government continues to support the excellent work undertaken by Trust for Nature in managing the significant biodiversity and ecological values of their protected areas. Should these areas no longer be needed by Trust for Nature, Government will consider the appropriate management arrangements at that time.

Trust for Nature will be responsible for the implementation of this recommendation.

NATURAL FEATURES RESERVES

Recommendation C – General recommendations for natural features reserves

That the natural features reserves, as shown on map A, according to their specific characteristics:

- (a) be used to:**
 - (i) protect natural features and values**
 - (ii) protect and restore areas with remnant vegetation or habitat value and conserve indigenous flora and fauna**
 - (iii) protect water quality where appropriate**
 - (iv) protect historic and Aboriginal cultural heritage features, values and sites**
 - (v) provide opportunities for education and recreation, at levels consistent with (i) to (iv) above**
 - (vi) maintain scenic features and the character and quality of the local landscapes**
 - (vii) preserve features of geological or geomorphological interest;**
- (b) generally permit the following activities:**
 - (i) exploration for minerals and mining, subject to decisions on particular cases**
 - (ii) prospecting and apiculture;**

- (c) **exclude the following activities:**
- (i) **timber harvesting**
 - (ii) **domestic stock grazing in bushland and streamside reserves and in stream frontages under riparian management or conservation licences or agreements (see notes 1 to 4);**
- and**
- (d) **include adjoining unused road reserves where appropriate ecological or recreational values and minimal impacts on other uses are identified**
 - (e) **be permanently reserved under the Crown Land (Reserves) Act 1978 if not already appropriately reserved; or be managed in accordance with the above, if public authority owned land; and that**
 - (f) **any licences permitting grazing that are subject to transfer through sale of nearby private land should not be renewed.**

Notes:

1. All water frontage grazing licences are recommended to be phased out by the end of 2018 on streamside reserves (see recommendations C1-C8).
2. Grazing may be contracted for ecological or management purposes such as targeted weed control.
3. Unless previously agreed otherwise under the Melbourne Water Stream Frontage Management Program, all future changes to licences including those recommended here (such as conversion to a landholder conservation agreement) should align with the public-private land boundaries.
4. The removal of licensed grazing does not necessarily compel the removal of stock watering; off-stream watering can be provided for, where appropriate.
5. Emerald Bushland Reserve (Hogan Park) no longer has a BMX track as referred to in the relevant LCC Melbourne District 2 Review recommendations.

The Government supports this recommendation.

Government supports VEAC's recommendation for the management of Natural Features Reserves in the investigation area. Natural Features Reserves provide many opportunities for recreation (such as walking, cycling and on-leash dog walking), education, as well as the protection of remnant vegetation and habitat. Government supports that the area remains Restricted Crown Land for the purposes of the **Mineral Resources (Sustainable Development) Act 1990**. The appropriate legislative detail will be determined during implementation and may vary from that specified in RC (e).

Grazing, other than for ecological or other management purposes, will be progressively phased out in accordance with RC ((c)(ii)) with all water frontage licences being phased out by 30 September 2018. Licence holders will be encouraged to enter into conservation agreements to continue to manage the important biodiversity and ecological values of their frontages. Where licence holders enter into such agreements, grants for fencing, off-stream watering, weed control and revegetation may be available where priorities align with Melbourne Water's Stream Frontage Management Program. Reduced water licence fees may apply where licence holders fence their frontages as part of a conservation agreement.

The Department of Environment and Primary Industries and Parks Victoria will be responsible for the implementation of this recommendation.

Recommendation C1-8 – Streamside reserves

That:

- (a) **the area of 695 hectares shown on map A as streamside reserves and labelled C1 to C8 be used in accordance with the general recommendations for natural features reserves**
- and**
- (b) **be permanently reserved under the Crown Land (Reserves) Act 1978 and included in a new Schedule Four A 'Conservation landscapes' of the National Parks Act 1975 as part of the State Emblems Conservation Area in accordance with recommendation R5(d)**

- (c) be managed in accordance with recommendations R5 and R6 and directions set by the State Emblems Conservation Area Coordinating Committee

and that

- (d) domestic stock grazing be excluded along the Yarra River upstream of the existing Warramate Hills Nature Conservation Reserve (recommendation C1) and the lower Hoddles and Wet Lead Creeks (recommendation C2) from two years of the date of government acceptance of these recommendations through either conversion to landholder conservation agreement in accordance with recommendation R5(e)(ii) with grazing excluded or surrender of licences, with agreement boundaries to follow cadastral boundaries
- (e) domestic stock grazing be excluded along the streamside reserves C3-C8 by the end of 2018 through either conversion to landholder conservation agreement in accordance with recommendation R5(e)(ii) with grazing excluded or surrender of licences, with agreement boundaries to follow cadastral boundaries (see note).

Note:

1. The term of any licences permitting grazing should be converted to annual until phased out in 2018.

The Government supports this recommendation in principle.

The Government supports VEAC's recommendation for the management of streamside reserves labelled C1 to C8 on map A of the Final Report. These reserves will be included in the proposed Yellingbo Conservation Area to be established under the **National Parks Act 1975**. The appropriate legislative detail will be determined during implementation and may vary from that specified in RC1-8(b).

To improve the biodiversity values of the riparian land and the health of the waterways, Government will aim grazing to phase out grazing of areas C1 and C2 by 30 September 2016, and all water frontage licences in the remaining areas (C3 to C8) will be phased out by 30 September 2018. Landholders will be encouraged to take out conservation agreements under the proposed amendment to the **National Parks Act 1975** to continue to contribute to the management of the important biodiversity and ecological values of these streamside reserves. The progressive phase out will protect the highest value conservation areas as a first priority.

The Department of Environment and Primary Industries and Parks Victoria will be responsible for the implementation of this recommendation.

Recommendation C9 – Wright Forest Bushland Reserve

That:

- (a) The area of 126 hectares shown on map A as Wright Forest Bushland Reserve be used in accordance with the general recommendations for natural features reserves;
- and
- (b) be permanently reserved under the Crown Land (Reserves) Act 1978 and included in a new Schedule Four A 'Conservation landscapes' of the National Parks Act 1975 as part of the State Emblems Conservation Area in accordance with recommendation R5(d)
- (c) be managed in accordance with recommendations R5 and R6 and directions set by the State Emblems Conservation Area Coordinating Committee.

Note:

1. On-lead dog walking is allowed to continue as permitted by the land manager.

The Government supports this recommendation.

The Government supports VEAC's recommendation for the management of Wright Forest Bushland Reserve which provides a wide range of recreational opportunities which are valued and enjoyed by the local community. Wright Forest Bushland Reserve also has a number of important ecological values which will be protected by inclusion within the proposed Yellingbo Conservation Area under the **National Parks Act 1975**. The appropriate legislative detail will be determined during implementation and may vary from that specified in RC9(b).

The area will be managed in accordance with supported recommendations and the priorities and directions set by the coordinating committee.

The Department of Environment and Primary Industries and Parks Victoria will be responsible for the implementation of this recommendation.

SERVICES AND UTILITIES AREAS

Recommendation D – General recommendations for services and utilities areas

That:

- (a) reserves and easements for public services and utilities such as transport, electricity and gas, communications, cemeteries, water and sewerage as shown on map A be used for those purposes;

and that

- (b) new services, or utility sites and easements or lines, not be sited in or across nature conservation reserves
- (c) railways, roadsides and other service and utility sites be managed to protect natural values including remnant native vegetation and habitat, and Aboriginal cultural heritage values, as far as practical
- (d) road reserves identified as supporting native vegetation of high conservation significance (including for connectivity) be managed to protect, improve and where practical enhance their biodiversity values; and
- (e) should public land used for service or utility purposes no longer be required, it be assessed for its natural, recreational and cultural heritage values, and capability for other public uses.

Notes:

1. Not all roads and unused road reserves may be distinguishable on map A.
2. There are numerous government roads across the investigation area that contain remnant native vegetation. These should be managed to protect this vegetation, as required under relevant legislation, and where it does not interfere with the primary objective of the road for transport.

The Government supports this recommendation.

The Yarra Ranges and Cardinia shire councils will continue to be responsible for the management of roadsides and road reserves in accordance with the above recommendation and with consideration of broader fire management planning for the area.

COMMUNITY USE AREAS

Recommendation E – Recommendations for community use areas

That the community use areas, as shown on map A, according to their specific characteristics:

- (a) be used as recreation areas and trails, parklands and gardens or for education and other community purposes; and
- (b) provide for a broad range of recreational and leisure activities including organised sport, walking, cycling and picnicking
- (c) provide for education and public enjoyment in schools, public halls, kindergartens, libraries, museums and other similar areas
- (d) provide for appropriate facilities
- (e) maintain or restore features of cultural significance, natural surroundings and the local character and quality of the landscape where relevant, and where compatible with the above
- (f) exclude harvesting of forest products, hunting and stone extraction,
- and**
- (g) if Crown land which is not already appropriately reserved, be reserved under the Crown Land (Reserves) Act 1978, or

(h) if public authority land, be managed in accordance with the above.

Notes:

1. Where appropriate, a committee of management may be appointed or continue to manage community use areas in accordance with the general recommendation E.
2. Some areas contain significant environmental values which should be protected.
3. Monbulk Scout Hall is recommended to be expanded onto a small section of approximately 0.1 hectares of the adjoining Nathania Springs Creek Bushland Reserve. Public land use shown on map A reflects the small excision for community use area – buildings in public use.

The Government supports this recommendation.

The Government supports VEAC's recommendation to excise part of the Nathania Springs Creek Bushland Reserve, currently managed by Parks Victoria, to enable the expansion of the Monbulk Scout Hall.

The Department of Environment and Primary Industries will be responsible for the implementation of this recommendation.

Recommendation E1 – Haining Education Area

That:

- (a) **the area of 69 hectares shown on map A as Haining Park be used in accordance with the general recommendations for community use areas**
- (b) **the current use of the area be changed to provide for other forms of land management and educational opportunities with a greater emphasis on sustainability, including improved protection of riparian areas and restoration of habitat for the helmeted honeyeater and lowland Leadbeater's possum,**

and that

- (c) **this area be removed from Schedule Three of the National Parks Act 1975 and be permanently reserved under the Crown Land (Reserves) Act 1978 for the purposes of public education about environmental sustainability and habitat restoration; and**
- (d) **this area be included in the recommended new schedule Four A of the National Parks Act 1975 as part of the State Emblems Conservation Area and be managed in accordance with recommendations R5 and R6.**

Note:

1. Council notes that part of this area (Lot 1907 Don Road) is a small residential block. This site can be disposed of if no public use is identified.

The Government supports this recommendation.

Government welcomes VEAC's identification of future opportunities for the use of Haining Park, consistent with the intention of environmental education and conservation for which it was gifted to the **Victorian Conservation Trust in 1974**. Parks Victoria, with advice from the Yellingbo Conservation Area Coordinating Committee, will investigate future opportunities for the site such as the restoration of floodplain habitat for the helmeted honeyeater and the lowland Leadbeater's possum as well as opportunities for improved environmental education.

In the interim, Haining Park will be removed from Schedule Three of the **National Parks Act 1975** and the Haining Farm area included within the proposed Yellingbo Conservation Area under the **National Parks Act 1975**. The appropriate legislative detail will be determined during implementation and may vary from that specified in RE1(c).

Lot 1907, Don Road will be excluded from the Yellingbo Conservation Area and will be assessed by the Department of Environment and Primary Industries for its public land value. Should no public land value be identified, the land will be disposed of.

The Department of Environment and Primary Industries and Parks Victoria are responsible for the implementation of this recommendation.

OTHER AREAS**Recommendation F – Recommendations for regional park, state forest, historic and cultural features reserves**

That the areas shown as regional park, state forest, historic and cultural features reserves on map A, continue to be used and managed in accordance with the relevant government-accepted LCC Melbourne District 2 Review final recommendations for the respective public land use categories.

The Government supports this recommendation.

Land managers will continue to manage these areas in accordance with the previously accepted recommendations of the Land Conservation Council's Melbourne District 2 Review.

UNCATEGORISED PUBLIC LAND**Recommendation G – General recommendations for uncategorised public land**

Public land other than that recommended for specific uses in this report, or subject to previous accepted specific land use recommendations:

- (a) be uncategorised public land
- (b) existing legal use and tenure continue for the time being
- (c) Crown land be assessed and either:
 - (i) retained and assigned to a Department of Environment and Primary Industries land manager if it has public land values, or
 - (ii) disposed of if assessed as having no public land values and as being surplus to current and future community needs;
- (d) surplus public authority land be:
 - (i) assessed for its potential to meet alternative public uses
 - (ii) retained as public land where certain public land values are identified; or
 - (iii) disposed of if assessed as having no public land values and as being surplus to current and future community needs.

The Government supports this recommendation.

Existing land managers will continue to manage the land in accordance with its legal status and tenure.
