## EXEMPTION

Application No. H149/2014

The Victorian Civil and Administrative Tribunal has considered an application pursuant to section 89 of the **Equal Opportunity Act 2010** (the Act) by Thales Australia Limited and ADI Munitions Pty Ltd (the Applicant Companies) for an exemption from sections 16, 18, 21, 105, 107 and 182 of the Act. The application is for renewal of an exemption granted on 27 November 2007 under section 83 of the then applicable **Equal Opportunity Act 1995**.

Upon reading the material filed in support of this application and for the Reasons for Decision published 19 November 2014, the Tribunal is satisfied that it is appropriate to grant an exemption from the operation of sections 16, 18, 21, 105, 107 and 182 of the Act for the period 16 December 2014 to 15 December 2019.

1. The exemption is granted in respect of the operation of sections 16, 18, 21, 105, 107 and 182 of the Act insofar as those sections relate to the 'race' (as that attribute is defined in section 4 of the Act) of employees, job applicants and contract workers of the Applicant Companies.
2. The class of activities for which the exemption is granted is discrimination against employees, job applicants and contract workers, where such discrimination is reasonable and necessary for the Applicant Companies to continue to perform and undertake certain defence projects (controlled projects) in compliance with the laws of the United States of America, in particular the International Traffic in Arms Regulations and the Export Administration Regulations (together US export laws). The exemption granted would permit the Applicant Companies to:
  - (a) In controlled projects only, require employees, job applicants and contract workers of the Applicant Companies to provide details of their nationality and place of birth to enable the Applicant Companies to determine whether those people are permitted by US export laws to work on controlled projects and/or to access technology, materials or information that are subject to restriction under the US export laws (controlled material);
  - (b) Identify, via a list with limited distribution to only those officers and employees with a need to know, those employees and contract workers that are permitted to access controlled material or work on controlled projects based on US export laws restrictions;
  - (c) Identify by means of security levels on employee's or contract worker's access passes, which must be worn by all employees and contract workers of the Applicant Companies to access each site, the level of access permitted to that employee or contract worker to controlled material or controlled projects based on US export laws restrictions;
  - (d) Restrict access of employees and contract workers to controlled material or controlled projects based on US export laws restrictions;
  - (e) Reject applications from job applicants to join the Applicant Companies' workforce in positions requiring access to controlled material or relating to controlled projects based on US export laws restrictions;
  - (f) Transfer employees and contract workers from controlled projects regulated by the US export laws to non-controlled projects on the basis that the US export laws do not permit them access to controlled material or to work on those controlled projects;
  - (g) Require employees and contract workers involved in controlled projects, to notify the Applicant Companies of any change to their nationality;
  - (h) Provide to companies that transfer controlled material to the Applicant Companies, details of the nationality and place of birth of those employees and contract workers in the Applicant Companies' workforce who will have access to the controlled material;

- (i) Provide to companies who use controlled material regulated by US export laws at their facilities, details of the nationality and place of birth of those in the Applicant Companies' workforce who will attend those facilities; and
  - (j) Enter into agreements with the Applicant Companies' employees, contract workers, contractors, agents and consultants pursuant to which those third parties undertake to comply with the matters referred to in (a) to (i) above.
3. This exemption is subject to the condition that the Applicant Companies must provide to the Victorian Equal Opportunity and Human Rights Commission a written report for every six month period from the date of this exemption order. Each report must detail:
- (a) All strategies in place to ensure compliance with anti-discrimination legislation, including all training programs, internal audits and complaints within each reporting period;
  - (b) The number of job applicants rejected for US export laws purposes, but subsequently appointed to other roles within each reporting period;
  - (c) The number of employees retrenched or redeployed due to US export laws requirements and any steps taken to minimise retrenchment or redeployment, and any steps taken generally to mitigate the impact of the Applicant Companies' responsibility under US export laws on the deployment of its workforce within each reporting period; and
  - (d) The number of vacancies advertised within each reporting period, including the number of such vacancies where candidates were required to satisfy US export law related requirements.
