# Only available to residential customers already taking supply under a Climate Saver tariff with parent network tariff P13R. Not available to customers in the Docklands.

# The conditions applicable to P13R also apply to this tariff.

# Only available to residential customers with a dedicated circuit connected to a primary reverse-cycle air-conditioning (RCAC) load that is either:

# a split system with a minimum output capacity of 4.0kW on the heating cycle and a minimum 3 star rating according to the Australian Energy labelling program; OR

# a ducted system or inverter technology system, regardless of star rating or whether it is a split system.

# Provided primary RCAC meets requirements, any additional hard-wired RCAC or hard-wired electric heater may be connected to the dedicated circuit.

Tariff closed to premises not already taking supply under this tariff and new connections.
