SURF COAST PLANNING SCHEME

Preparation of Amendment C97

The Surf Coast Shire Council has prepared Amendment C97 to the Surf Coast Planning Scheme.

The land affected by the Amendment comprises the:

- Anglesea Tourism Development Precincts – comprising land along the Great Ocean Road including the Diggers Parade Precinct (Precinct A1 from Noble Street to Minifie Avenue) and the Four Kings Precinct (Precinct A2 adjacent Tonge Street), Anglesea;
- Anglesea Main Shopping Precinct – comprising land at the town centre at Camp Road, Anglesea; and
- Torquay Tourism Development Precincts – comprising land along the Surf Coast Highway/Geelong Road, Torquay, at the Surf Coast Gateway (Precinct T1), Surf City (Precinct T2) and the corner Bristol Road and Surf Coast Highway (Precinct T4); and land along The Esplanade generally between Zeally Bay Road and Anderson Street at the Town Centre Foreshore (Precinct T3).

The Amendment proposes to implement the recommendations in the Council-adopted Anglesea Great Ocean Road Study 2013 by developing new zone controls (Special Use Zone Schedule 8 – SUZ8) for the Tourist Development Precincts around Diggers Parade and Four Kings. Additional land will be rezoned to allow tourism development in an expanded Diggers Parade Precinct. The amendment also proposes to remove overlays that only apply to the residential areas from the expanded Diggers Parade Precinct.

In addition, the Amendment proposes to make changes to the Special Use Zone Schedule 5 (SUZ5). Currently, the SUZ5 applies to Tourism Development Precincts at both Torquay and Anglesea and it is proposed to separate this zone schedule for the respective townships so that Torquay retains the SUZ5 and Anglesea a new SUZ8. Further changes are proposed to the SUZ5 in relation to permit requirements for different land uses, permit requirements for ‘Building and Works’ and additional application requirements/decision guidelines.

The Amendment also introduces Design and Development Overlay controls for the Anglesea Tourism Development Precincts at Diggers Parade and Four Kings and makes references to the Anglesea Great Ocean Road Study 2013 in the Planning Scheme.

You may inspect the Amendment, any documents that support the Amendment and the explanatory report about the Amendment, free of charge, at the following locations: during office hours, at the office of the planning authority, Surf Coast Shire Council, 1 Merrijig Drive, Torquay; or at the Department of Transport, Planning and Local Infrastructure website www.dtpli.vic.gov.au/publicinspection

Any person who may be affected by the Amendment may make a submission to the planning authority. Submissions must be made in writing giving the submitter’s name and contact address, clearly stating the grounds on which the Amendment is supported or opposed and indicating what changes (if any) the submitter wishes to make.

Name and contact details of submitters are required for Council to consider submissions and to notify such persons of the opportunity to attend Council meetings and any public hearing held to consider submissions. In accordance with the **Planning and Environment Act 1987**, Council must make available for inspection a copy of any submissions made.

The closing date for submissions is 25 May 2015. A submission must be sent to the Coordinator Strategic Planning, Surf Coast Shire, PO Box 350, Torquay, Victoria 3228.

EXEMPTION

Application No. H44/2015

The Victorian Civil and Administrative Tribunal has considered an application pursuant to section 89 of the **Equal Opportunity Act 2010** (the Act) by Metro Trains Melbourne (the applicant). The application for exemption is to enable the applicant to target advertising and recruitment material for authorised officers at women in order to attract more female applicants for those roles (the exempt conduct).

Upon reading the material filed in support of this application, including the affidavit of Peter Kellaway, the Tribunal is satisfied that it is appropriate to grant an exemption from section 182 of the Act to enable the applicant to engage in the exempt conduct.

In granting this exemption the Tribunal noted:

- The applicant wishes to focus its authorised officer recruitment and advertising strategy on women. The advertising and marketing material will be designed to attract an increased number of female applicants with an intention that there will be an increase in women holding authorised officer roles.

- The exemption is sought as part of the applicant's attempts to rectify the gender imbalance that currently exists in its workforce. The total percentage of female employees is currently 18% with only 16% of the authorised officer roles being filled by women. The applicant has been previously granted exemptions of the same kind to focus on train driver roles. Prior to the exemptions being granted, women comprised 15 to 18% of train drivers. Since the exemptions have been granted, women train drivers now comprise 35 to 45% of the total. The applicant says that, as part of its effort to increase the involvement of women in the workforce to 50%, targeting the authorised officer roles is critical.
- The applicant has not sought an exemption to allow it to only employ women or otherwise give preference to women in relation to a specific number of authorised officer or other roles. Rather it seeks an exemption to allow it to target women in its advertising and recruitment so as to increase the number of women in the broader pool of job applicants. There is no suggestion that men will be excluded from the advertising and recruitment material or be in any way limited as to their capacity to apply for authorised officer or other roles.
- No exception or current exemption already applies to the exempt conduct and in the absence of an exemption the exempt conduct would amount to prohibited discrimination.
- When making decisions about exemptions, the Tribunal is required to give proper consideration to relevant human rights as set out in the **Charter of Human Rights and Responsibilities Act 2006** (Charter). Arguably, this exemption limits the right to equality and in particular the right to equal and effective protection against discrimination of men who may wish to receive information about authorised officer roles. I am satisfied, in the circumstances discussed above, the limit imposed by this exemption is reasonable and justified under the Charter.

The Tribunal hereby grants an exemption from the operation of section 182 of the Act to enable the applicant to engage in the exempt conduct.

This exemption is to remain in force from the day on which notice of the exemption is published in the Government Gazette until 23 April 2020.

**Victorian Environmental Assessment
Council Act 2001**STATEWIDE ASSESSMENT OF
PUBLIC LAND

Pursuant to section 15 of the **Victorian Environmental Assessment Council Act 2001**, the Minister for Environment and Climate Change requests the Victorian Environmental Assessment Council to carry out an investigation into public land in Victoria.

It is more than 25 years since the Land Conservation Council's 'Statewide Assessment of Public Land Use' was published and it is timely to consider revisiting aspects of that assessment in order to provide updated information for public land management. National Parks are recognised internationally as the core element of nature conservation and protection. Victoria's protected area estate is significant but remains fragmented and incomplete.

The purpose of the investigation is to carry out a statewide assessment of public land in Victoria which considers the recommendations of the council and its predecessors and the appropriateness of the current system of public land use categories established as a result. The focus of the investigation is to provide information and recommendations to assist management effectiveness and is not intended to change the current levels of protection underpinning Victoria's public land system.

In particular, the council is requested to investigate and provide:

1. an assessment of the current system of public land use categories, including identification and evaluation of approaches adopted in other jurisdictions nationally and internationally, and consideration of options for changing or consolidating the existing categories to result in a system of categories that is simple and clear and that supports effective and efficient public land management;
2. an assessment of the current reservation status of public land, including areas where land use has changed since government accepted a recommendation; and
3. an inventory of the types of values on public land.

The council is requested to provide an interim report on the first term of reference that includes options for the consolidation of the existing public land categories by September 2015. To ensure there is an opportunity for public comment, the council is requested to publish information to assist in the making of submissions on this term of reference in the notice of investigation.

The council must prepare a discussion paper and a draft proposals paper.

The council must report on the completed investigation by February 2017.
