EXEMPTION

Application No. H246/2015

The Victorian Civil and Administrative Tribunal has considered an application pursuant to section 89 of the **Equal Opportunity Act 2010** (the Act) by Mansfield Bowling Club (the applicant). The application for exemption is to enable the applicant to organise and operate a men only one day lawn bowls tournament and advertise that matter (the exempt conduct).

Upon reading the material filed in support of this application, including the affidavit of Graham Smith, the Tribunal is satisfied that it is appropriate to grant an exemption from sections 44, 71, 107 and 182 of the Act to enable the applicant to engage in the exempt conduct.

In granting this exemption the Tribunal noted:

- A copy of the application was sent by the Tribunal to the Victorian Equal Opportunity and Human Rights Commission (the Commission). The Commission did not seek leave to intervene in the proceeding.
- The one day men only tournament is held on the Saturday of the Labour Day long weekend. It has been running for around 26 years. The men play pairs and triples on the Saturday and on the Sunday there are

mixed fours. The purpose of the tournament is to increase the number of men playing bowls and to increase the profitability of the tournament. The tournament attracts players from the surrounding region and is an important source of income for local businesses.

- The arrangements at the applicant club for bowls allow for a number of mixed events including mixed pennant twice a week. This is a women only pennant competition on Tuesdays and men's events on Sundays. There is an annual women only open fours competition each year. From mid-April this year a mixed social bowls will operate. The applicant has received no complaints about the men only day of the Labour Day long weekend tournament.
- I am not satisfied that one of the exceptions contained in the Act applies to the conduct and there is no current exemption which applies to the exempt conduct. In the absence of an exemption, the exempt conduct would amount to prohibited discrimination.
- When making decisions about exemptions, the Tribunal is required to give proper consideration to relevant human rights as set out in the **Charter of Human Rights and Responsibilities Act 2006** (Charter). Arguably, this exemption limits the right to equality and in particular the right to equal and effective protection against discrimination of women who would wish to play in the first day of the long weekend tournament. I am satisfied that, in the circumstances discussed above, the limit imposed by this exemption is reasonable and justified under the Charter.

The Tribunal hereby grants an exemption from the operation of sections 44, 71, 107 and 182 of the Act to enable the applicant to engage in the exempt conduct.

This exemption is to remain in force from the day on which notice of the exemption is published in the Government Gazette until 24 February 2021.

DETERMINATION OF FIREWOOD COLLECTION AREAS

I, Graham Phelps, Regional Director Loddon Mallee, Department of Environmental, Land, Water and Planning, make the following determination under section 57U of the **Forests Act 1958**.

Definitions

In this determination and with reference to the numbered item in the table in the determination:

- (a) closing date, being the date of revocation of the determination of the firewood collection area, means the date specified in column 6 of the item;
- (b) opening date, being the date on which the determination of the firewood collection area comes into operation, means the date specified in column 5 of the item.

Determination

Each area of State forest shown hatched on a plan lodged in the Central Plan Office of the Department of Environment, Land, Water and Planning, the number of which is shown in column 1 of the item in the table in this determination, is a firewood collection area for the purposes of section 57U of the **Forests Act 1958**, effective from the opening date for that area until the closing date for that area (inclusive).

Being satisfied that it is necessary to do so for management of the supply of fallen or felled trees for domestic use as firewood in the region of the State comprising the shires of Campaspe, Gannawarra, Loddon and Swan Hill Rural City Council, I specify that only the following classes of persons (or their nominees) may cut and take away fallen or felled trees in the firewood collection area:

- (a) residents of the Shire of Campaspe;
- (b) residents of the Shire of Gannawarra;
- (c) residents of the Shire of Loddon;
- (d) residents of the Swan Hill Rural City Council;
- (e) residents of Victoria who are holders of a current Pensioner Concession Card or current Health Care Card issued by the Australian Government Department of Human Services or a current Repatriation Health Card – For All Conditions (Gold Card) issued by the Australian Government Department of Veteran Affairs.

Acting Clerk of the Executive Council

Dangerous Goods Act 1985

(Section 55)

**ORDER CONCERNING THE REMOVAL OF ASBESTOS FROM PREMISES
DAMAGED IN THE 2015 VICTORIAN BUSHFIRES****Preamble**

- A. The removal of asbestos at workplaces is regulated by the Occupational Health and Safety Regulations 2007 (the OHS Regulations). The OHS Regulations describe the circumstances in which asbestos may be removed by an employer or self-employed person who holds a Class A or Class B asbestos removal licence under the OHS Regulations, and the circumstances in which an unlicensed employer or self-employed person may conduct a limited amount of asbestos removal work.
- B. The provisions of the OHS Regulations that regulate the removal of asbestos, including asbestos-containing material, expressly apply to asbestos that is fixed to or installed in a building, structure, ship or plant. They do not apply to the removal of asbestos that is not so fixed or installed.
- C. An Order Prohibiting the Removal of Certain Asbestos at Workplaces (the 2007 Asbestos Order) was published in the Government Gazette on 28 June 2007 (see General Gazette G 26, 28 June 2007). It came into effect on 1 July 2007. The 2007 Asbestos Order, subject to conditions and restrictions, prohibits the removal of asbestos that is not fixed or installed.
- D. In December 2015, areas in Victoria including Wye River, Separation Creek, Scotsburn and Barnawartha, experienced bushfires which destroyed over a hundred premises. Many of those premises were constructed, at least in part, with asbestos-containing materials such as asbestos cement sheeting.
- E. Only Class A asbestos removal licence holders are permitted to undertake the clean-up of hazardous friable asbestos.
- F. To assist with the clean-up and rebuilding of those towns and premises damaged or destroyed by the 2015 Victorian bushfires it is in the interest of public safety to make an Order that enables the expeditious removal of any asbestos from such premises while maintaining appropriate standards of safety. This clean-up work needs to occur quickly to prevent exposure to asbestos-containing material which may pose a risk to local residents and/or members of the public.

- G. As there is only a limited number of Class A asbestos removal licence holders in Victoria, this Order permits Class B asbestos removal licence holders to assist in the clean-up, provided they adhere to strict safety standards.

Order

Being of the opinion that it is expedient for the public safety to do so, the Governor, with the advice of the Executive Council, under section 55 of the **Dangerous Goods Act 1985**, makes the following Order –

1. The removal of asbestos from any premises that have been damaged or destroyed in the 2015 Victorian bushfires, whether or not that asbestos is fixed to or installed in a building, structure, ship or plant at those premises ('asbestos removal'), and that is a workplace, is prohibited.
2. Subject to clause 3, the prohibition under clause 1 does not apply in relation to asbestos removal from a workplace by –
 - (a) an employer or self-employed person who is the holder of a Class A asbestos removal licence or by an employee of a licence holder; and
 - (b) an employer or self-employed person who is the holder of a Class B asbestos removal licence or by an employee of a licence-holder.
3. An asbestos licence holder described in clause 2 must ensure that the following conditions are complied with –
 - (a) before any asbestos removal occurs, the asbestos licence holder –
 - (i) reviews the asbestos register (if any) for the premises; and
 - (ii) prepares an asbestos control plan to a standard equivalent to that set out in regulation 4.3.69 of the OHS Regulations that is available and accessible at the removal site in accordance with regulation 4.3.70 of the OHS Regulations;
 - (iii) uses signs and barricades in accordance with regulation 4.3.74 of the OHS Regulations;
 - (iv) trains and instructs the employees who will be carrying out the asbestos removal on job specific safe work methods and procedures; and
 - (v) provides the employees who will be carrying out the removal of asbestos with appropriate personal protective clothing and equipment, such as Australian Standard approved respiratory protection and disposable coveralls, and instructs those persons on the proper use of that clothing and equipment;
 - (b) any asbestos removal proposed under this Order is notified to the Authority at least 24 hours before the asbestos removal commences;
 - (c) decontamination facilities are provided in accordance with regulation 4.3.75 of the OHS Regulations;
 - (d) the asbestos removal (including the collection and disposal of asbestos waste) is carried out in accordance with regulation 4.3.71 of the OHS Regulations;
 - (e) water run-off of asbestos-contaminated water is prevented so far as is reasonably practicable;
 - (f) asbestos waste is contained in accordance with regulation 4.3.76 and disposed of in accordance with regulation 4.3.77 of the OHS Regulations, or as otherwise permitted by the Environment Protection Authority;
 - (g) laundering of personal protective clothing is provided in accordance with regulation 4.3.78 of the OHS Regulations;
 - (h) on completion of the asbestos removal, must arrange for –
 - (i) asbestos paraoccupational air monitoring to be conducted to verify that the airborne asbestos fibre level is less than 0.01 f/ml; and

- (ii) a visual inspection to be carried out by an independent person to ensure that there is no visible asbestos residue remaining; and
 - (iii) a clearance certificate that complies with regulation 4.3.96(3) of the OHS Regulations to be issued by an independent person.
4. In the event of an inconsistency between this Order and the 2007 Asbestos Order, or between this Order and the OHS Regulations, this Order prevails to the extent of that inconsistency.
5. This Order comes into operation on the date it is published in the Government Gazette and expires 6 months after that date.
6. In this Order –
 - ‘**asbestos**’ has the same meaning as in the OHS Regulations;
 - ‘**asbestos licence holder**’ has the same meaning as in the OHS Regulations;
 - ‘**asbestos removal supervisor**’ has the same meaning as in the OHS Regulations;
