## EXEMPTION

Application No. H74/2016

The Victorian Civil and Administrative Tribunal has considered an application pursuant to section 89 of the **Equal Opportunity Act 2010** (the Act) by A. T. Kearney Australia Pty Ltd (the applicant). The application for exemption is to enable the applicant to advertise for and select a female undergraduate university student to be awarded a scholarship of up to \$15,000 to support the recipient's studies, to undertake a paid internship at one of the applicant's Australian offices and be mentored by a senior female consultant (the exempt conduct).

Upon reading the material filed in support of this application, including the affidavit of Patricia George, the Tribunal is satisfied that it is appropriate to grant an exemption from sections 16, 44, 107 and 182 of the Act to enable the applicant to engage in the exempt conduct.

In granting this exemption the Tribunal noted:

- The applicant is a global management consulting firm with offices in more than 40 countries. Its Australian offices are located in Melbourne and Sydney. The applicant's recruitment objective is to ensure that it hires the best, diverse talent which supports the applicant's overall strategy.
- The average female intake has been around 20 to 30%, increasing to 33% in 2015 but dropping back to 38% in 2016. The applicant has taken a range of steps to try to increase female applications for positions, including by targeting specific disciplines which have a high number of female students, providing sponsorship to student organisations which focus on women or have a high percentage of women members and adjusting its shortlist criteria to give more female applicants the chance to be interviewed. Although there has been some improvement in the number of female applicants, it has not been sufficient. The applicant wishes to increase the number of female applicants for roles through different sources. The applicant believes that offering a female-only scholarship will be an effective way to market itself to female students and to support women to build successful careers.
- One scholarship would be available Australia-wide. The scholarship would be open to female students in their second or later year of an undergraduate degree course who are also Australian citizens or permanent residents of Australia or New Zealand. The scholarship is intended to assist with the costs of study and professional development. In January of the year following selection, the sum of \$15,000 will be provided to the recipient to help with the costs of their next year of study or other educational related activities.
- The recipient will also have the opportunity to undertake a 10 week summer internship with the applicant. The intern role is similar to the applicant's entry level consultant role and will be paid. At present, the applicant offers around seven internships Australia wide. The scholarship recipient will be matched with a senior female consultant to act as a mentor over the 12 month period. She will also have the opportunity to attend in-house training courses.
- The applicant considers that the establishment of the scholarship will not only provide an opportunity for the successful recipient but also bring the applicant and the roles it offers to the attention of female undergraduate students. While that will assist the applicant in meeting its diversity goals, it will also encourage greater participation in the management consulting industry. An exemption for the conduct has already been granted in New South Wales and advertising has commenced. As at the hearing date, some 80 applications had been received.
- At the direction of the Tribunal, the exemption application was advertised. No submissions for or against were received by the applicant or the Tribunal.
- While the exempt conduct has some of the features of a special measure as provided for under section 12 of the Act, I am not satisfied that the material before me sufficiently demonstrates the nature of the inequality of the target group and its cause. That means I am unable to be satisfied that the purpose of the conduct is directed at remedying the identified inequality. It is apparent from the applicant's own figures that there is a significant disparity in the numbers of young women and men being recruited and there is generally available statistical information about

female participation rates in business and senior roles in particular. What is not clear is why female undergraduate students have not applied for or been recruited into these entry level roles in the past.

- No exception or current exemption already applies to the exempt conduct and in the absence of an exemption the exempt conduct would amount to prohibited discrimination.
- When making decisions about exemptions, the Tribunal is required to give proper consideration to relevant human rights as set out in the **Charter of Human Rights and Responsibilities Act 2006** (Charter). Arguably, this exemption limits the right to equality and in particular the right to equal and effective protection against discrimination of men who would wish to apply for the scholarship and undertake a paid internship with mentoring support. I am satisfied that, in the circumstances discussed above, the limit imposed by this exemption is reasonable and justified under the Charter.

The Tribunal hereby grants an exemption from the operation of sections 16, 44, 107 and 182 of the Act to enable the applicant to engage in the exempt conduct.

This exemption is to remain in force from the day on which notice of the exemption is published in the Government Gazette until 3 August 2021.

**2016 SUSTAINABILITY FUND PRIORITY STATEMENT**

**A healthy environment provides the foundation for our social and economic well-being now and into the future.**

We need to work together to make sure our environment remains healthy and can support the prosperity of Victorian families now, and into the future. To do this we must minimise our impact on the environment by generating less waste and recovering valuable resources from the waste we do generate. We must prepare for and adapt to the impacts of climate change and reduce the amount of greenhouse gases we emit into our atmosphere.

We all have a role to play in keeping our environment healthy: government, business, communities and individuals. Every time we reduce, reuse or recycle we are generating less waste and reducing greenhouse gases associated with production and landfill.

**The Victorian landfill levies and the Sustainability Fund – what will we invest in?**

Victoria's landfill levy system has helped us lower our impact on the environment, influenced industry investment in resource recovery infrastructure and encouraged people to find alternative, more innovative ways to dispose of their waste than landfill. The money generated from landfill levies provides funds that support Victorian communities and businesses to reduce negative impacts of waste on the environment and respond to the future impacts of climate change through innovation and stimulating viable industries, creating jobs for Victorians.

The revenue generated from the Municipal and Industrial Landfill Levy is allocated by ministerial determination to fund some of our important government environmental agencies such as the Environment Protection Authority, Sustainability Victoria and Victoria's Waste and Resource Recovery Groups. The remaining funds provide revenue into the Sustainability Fund.

The Sustainability Fund is set up in legislation to ensure that Victoria is lowering our impact on the environment through reducing impacts from waste, limiting our greenhouse gas emissions, helping our communities and natural environments adapt to climate change and building a more sustainable future. In accordance with the legislation, the Sustainability Fund Priority Statement identifies the strategic priorities the government will direct investment towards.

**The strategic priorities for the Sustainability Fund are as follows, with preference given to initiatives that foster employment, new technology and innovation, resource efficiency or ongoing behaviour change.**

<b>Sustainability Fund's legislated purpose:</b>	
Fostering environmentally sustainable uses of resources and best practices in waste management to advance the social and economic development of Victoria	Fostering community action or innovation in relation to the reduction of greenhouse gas substance emissions [mitigation] or adaptation or adjustment to climate change in Victoria
<p><b>Strategic priorities:</b></p> <ul style="list-style-type: none"> <li>● making alternatives to landfill more viable and cost competitive through the stimulation, creation and expansion of viable markets for recycled and recovered materials;</li> <li>● facilitating a network of best practice waste and resource recovery infrastructure which minimises public health and environmental impacts and maximises resource recovery opportunities;</li> <li>● providing equity in access to, and reducing impacts of, waste and resource recovery services on communities;</li> <li>● improving waste education and waste management capability to reduce waste generation, recover resources, and prevent littering and illegal dumping; and</li> <li>● modernising the management of legacy contamination or pollution.</li> </ul> <p>Investment will be guided by Victorian government policies, including the Statewide Waste and Resource Recovery Infrastructure Plan, Regional Waste and Resource Recovery Implementation Plans and other relevant strategies.</p>	<p><b>Strategic priorities:</b></p> <ul style="list-style-type: none"> <li>● supporting individuals, communities and industry to transition to a low carbon economy;</li> <li>● supporting Victorians to adapt to the impacts of climate change, particularly those most vulnerable and least able to do so;</li> <li>● building Victorian communities' capacity, capability and skills in responding to climate change; and</li> <li>● assisting Victoria's ecosystems and native species to be more resilient to climate change and/or support mitigation outcomes.</li> </ul> <p>Investment will be guided by Victorian government policies, including climate change policies, the Victorian Climate Change Adaptation Plan, Energy Efficiency and Productivity Statement, Renewable Energy Action Plan, biodiversity plan and other relevant strategies.</p>

**NOTICE OF MAKING OF GUIDELINES**

I, Lily D’Ambrosio MP, Minister for Energy Environment and Climate Change, in accordance with section 70C(1A) of the **Environment Protection Act 1970** (the Act), hereby present the Sustainability Fund Guidelines consistent with section 70A(b) of the Act to be published in the Government Gazette.

**SUSTAINABILITY FUND  
GUIDELINES 2016**

**FOREWORD**

The Andrews Government understands that the environment underpins the wellbeing and liveability of all Victorians. Every time we reduce, reuse or recycle we are using less resources, generating less waste, reducing greenhouse gases associated with production and from landfill, and lowering our environmental impact.

Victoria’s landfill levies provide an important mechanism to reduce the amount of waste to landfill and to fund important initiatives to manage this waste more efficiently and reduce impacts on the environment. The revenue generated from these funds is then used to fund some of our important government environmental agencies before being transferred into the Sustainability Fund.

The Sustainability Fund is established to invest in initiatives that will support Victorian communities and businesses to address crucial environmental challenges in the legislated areas of sustainable resources use, waste management through innovation and stimulating viable industries, creating jobs for Victorians.

The Fund is a key driver of action on Climate Change, one of the most pressing issues that we face. Through target programs funded out of the Sustainability Fund, the government can reduce our greenhouse gas emissions, while preparing our communities, businesses and industry for the changes in the climate that have already been locked in.

Funds from the Sustainability Fund must be allocated in accordance with the **Environment Protection Act 1970**, the Sustainability Fund Priority Statement and these Guidelines.

Changes to the **Environment Protection Act 1970** which came into effect from 1 July 2015 have improved the clarity and transparency of fund management, and in turn strengthened the effectiveness of the fund and accountability for its management.

These Guidelines ensure that Victorians are able to understand how monies are allocated from the Sustainability Fund.

THE HON. DANIEL ANDREWS MP  
Premier

THE HON. LILY D’AMBROSIO MP  
Minister for Energy Environment and  
Climate Change

## 1. THE SUSTAINABILITY FUND

The Sustainability Fund (**Fund**) provides funding from Victorian landfill levies to programs and government initiatives which are required, under section 70F of the **Environment Protection Act 1970** (the **Act**), to foster:

- the environmentally sustainable use of our resources and best practices in waste management to advance the social and economic development of Victoria; or
- community action or innovation in relation to the reduction of greenhouse gas substance emissions or adaptation or adjustment to climate change in Victoria.

Under the Act, the allocation of funds requires the joint consent of the Premier and the Minister for Environment, Climate Change and Water (the Minister).

The Act also sets out the Principles of Environment Protection, which guide the objectives of sustainable development and resource use efficiency for Victoria.

## 2. FUND GOVERNANCE AND PRIORITIES

To maximise the effectiveness of the Fund and ensure that a strategic approach is taken to the application of monies, the Act requires the publication of a Priority Statement and Guidelines.

### Priority Statement

It is important that the Fund remains focused on key environmental priorities. The Priority Statement sets out how, in order of priority, the Minister and Premier intend to apply money from the Fund to meet the objectives specified in section 70F(3) of the Act. If the priorities of the Fund change, a new Priority Statement will be produced.

As required under section 70B of the Act:

- a draft Priority Statement will be publicly released for comment;
- the Premier and Minister will consider any comments from the public prior to approving the Priority Statement; and
- the Priority Statement will be published in the Government Gazette and on the Department of Environment, Land, Water and Planning (DELWP) website.

### Guidelines

This document provides guidance to the Premier and Minister as to how they will exercise their powers in relation to the application of monies from the Fund. Section 70C of the Act also requires that the guidelines be published in the Government Gazette and on the Department of Environment, Land, Water and Planning's website. A copy must also be laid before each House of Parliament, and may be disallowed in whole or part by either House of Parliament.

These Guidelines may be updated at any time in accordance with the above requirements.

### Sustainability Fund Committee

The Premier and the Minister will be supported by a Sustainability Fund Committee (**Committee**) which will:

- oversee fund management to support Fund transparency and accountability; and
- provide impartial, strategic advice regarding allocations from the fund.

Proposals for allocations from the Fund will be reviewed by the Committee to:

- ensure compliance with legislated objectives;
- assess merit relative against the Fund Priority Statement; and
- consider the proposed value for money.

The Secretary of the DELWP may nominate a Committee Chair from outside government. The remainder of the Committee will comprise governance and financial management

experts, and departmental executives responsible for delivering the government's priorities as articulated in the Priority Statement.

The Committee will receive advice from the Sustainability Fund Manager at DELWP on funding proposals including compliance with legislation, consistency with Priority Statement and considerations such as value for money.

### 3. **FUND EXPENDITURE**

Fund monies can be allocated either as:

- a grant to any of a wide range of recipients; or
- strategic initiatives which align with the purpose and priorities of the Fund and delivered through Government Departments and Statutory Agencies.

To further support transparency and accountability of the expenditure of Fund monies, DELWP will also publish the allocation of funds in its Annual Report. Once the Annual Report has been tabled in Parliament, a list of all Fund allocations to grants and strategic initiatives will be published on DELWP's website.

#### **Who can receive funding?**

Grant allocations from the Fund may be made to a wide range of incorporated or otherwise legally constituted entities. These include community groups, councils, government departments, statutory entities, non-government organisations and businesses. Funding is not available for individuals, nor can it be used to supplement the core administrative costs of an existing organisation.

#### **Contractual obligations**

Entities receiving allocations from the Fund are required to enter into appropriate funding arrangements that will detail all funding obligations, including the time frame over which funding will be available. Recipients of Fund monies will be subject to progress and financial reporting requirements throughout the funding arrangement, and on the outcomes and success of the initiative or project, relative to the objectives of the Fund and the agreed deliverables. Funding may be withdrawn if the project fails to deliver on agreed outcomes at specified review periods.

#### **Financial limit**

There is no predetermined limit with respect to the amount of financial support available from the Fund for individual projects funded as grants or strategic initiatives.

### 4. **FUNDING ALLOCATIONS**

In making decisions regarding the allocation of Fund monies, the Premier and the Minister will consider how the project meets the legislated objectives of the Fund as per section 70 of the Act, and the priorities as set out in the Priority Statement. The Premier and Minister will also consider any advice provided by the Sustainability Fund Committee.

Projects may be funded based on direct recommendation of the Committee. For any other proposals, the Premier and the Minister will seek advice from the Sustainability Fund Manager directly or via the Committee before allocating Fund monies to a project so that they are informed about compliance of the proposal with legislated obligations, its consistency with the priority statement and other considerations such as value for money.

#### **Criteria and conditions for funding**

The purpose of the Fund is to support projects, programs, services or technologies that will benefit Victoria environmentally, socially and economically. The project must therefore be implemented in Victoria.

#### **Funding considerations**

Sustainability Fund Committee advice to the Premier and Minister regarding funding proposals will in the first instance be based on:

- alignment of the objectives with the legal objectives under the Act;
- alignment of the expected outcomes of the proposal against the defined priorities of the Fund as included in the Priority Statement;
- the value for money and funding requirements of the project in light of the immediate and long term environmental benefits that will be achieved; and
- the availability of funding to the applicant from other funding sources.

**Types of projects that will NOT be considered for funding**

The following applications will not be eligible for grant funding:

- projects that seek retrospective funding for projects or programs that have already started or that have been completed;
