EXEMPTION

Application No. H130/2016

The Victorian Civil and Administrative Tribunal has considered an application pursuant to section 89 of the **Equal Opportunity Act 2010** (the Act) by City Memorial Bowls Club (the applicant). The application for exemption is to enable the applicant to organise and operate a men-only lawn bowls tournament, known as the Des Notley Memorial Classic Pairs, and advertise those matters (the exempt conduct).

Upon reading the material filed in support of this application, including the affidavit of Wayne Maxwell Hall, the Tribunal is satisfied that it is appropriate to grant an exemption from sections 44, 71, 107 and 182 of the Act to enable the applicant to engage in the exempt conduct.

In granting this exemption the Tribunal noted:

- A copy of the application was sent by the Tribunal to the Victorian Equal Opportunity and Human Rights Commission (the Commission). The Commission did not seek leave to intervene in the proceeding.
- The Des Notley Memorial Classic Pairs (the Classic) has been held annually since 1988. Mr Notley was a member of the applicant club and manager of the Nestles factory at Warrnambool. He established the Classic as

a prestigious event for men in the Western District. Over the last three years, 62 teams have competed in the event bringing 124 individual players to the applicant club and Warrnambool. The clubs come from across Victoria and as far away as New South Wales and South Australia. The number of competitors brings financial benefits to the town, particularly for accommodation providers and restaurants and eating houses. The Classic was originally sponsored by Mr Notley's employer but is now sponsored by other local businesses.

- There is a comparable tournament for women at a neighbouring club on the same weekend. The arrangements at the applicant club for bowls allow for a number of mixed events including Saturday pennant and mixed social bowls. The applicant has received no complaints about the Classic being a men-only tournament.
- I am not satisfied that one of the exceptions contained in the Act applies to the conduct and there is no current exemption which applies to the exempt conduct. In the absence of an exemption, the exempt conduct would amount to prohibited discrimination.
- When making decisions about exemptions, the Tribunal is required to give proper consideration to relevant human rights as set out in the **Charter of Human Rights and Responsibilities Act 2006** (Charter). Arguably, this exemption limits the right to equality and in particular the right to equal and effective protection against discrimination of women who would wish to play in the Classic. I am satisfied that, in the circumstances discussed above, the limit imposed by this exemption is reasonable and justified under the Charter.

The Tribunal hereby grants an exemption from the operation of sections 44, 71, 107 and 182 of the Act to enable the applicant to engage in the exempt conduct.

This exemption is to remain in force from the day on which notice of the exemption is published in the Government Gazette until 24 August 2021.

Port Management Act 1995
COMPETITIVELY NEUTRAL PRICING PRINCIPLES ORDER
Order in Council

The Governor in Council under section 49ZC of the **Port Management Act 1995** makes the following Order:

1. COMMENCEMENT AND APPLICATION

1.1.1 This Order takes effect on the date it is published in the Government Gazette (**Commencement Date**).

2. COMPETITIVELY NEUTRAL PRICING PRINCIPLES: GENERAL

2.1.1 Relevant Service Tariffs must be set such that a State Sponsored Port Operator does not charge less than the Competitively Neutral Price for a Relevant Service.

2.1.2 The Competitively Neutral Price for a Relevant Service means the price referred to in section 49V of the Act determined in accordance with this Order, being the lower of:

- (a) the price for a Relevant Service that, together with the price for each other Relevant Service, provide a State Sponsored Port Operator with a reasonable opportunity to recover the efficient costs of providing the Relevant Service, including any State Cost Contribution and any Private Cost Contribution determined by application of an accrual building block methodology described in clause 2.1.3; and
- (b) the price at which the Port of Melbourne Operator provides a service that is economically substitutable for a Relevant Service, having regard to any material differences between the quality or scope of the Relevant Service and the quality or scope of the economically substitutable service.

2.1.3 A State Sponsored Port Operator must:

- (a) apply an Accrual Building Block Methodology of the type described in clause 3.1.1 to determine prices for Relevant Services that comply with clause 2.1.2(a) (**Aggregate Revenue Requirement**); and
- (b) subject to clause 2.1.4, set prices for individual Relevant Service Bundles:
 - (i) that are likely to enable the State Sponsored Port Operator to recover revenue that:
 - (A) does not exceed an upper bound representing the stand alone cost of providing any Relevant Service Bundle; and
 - (B) does not fall below a lower bound representing the avoidable cost of not providing any Relevant Service Bundle;
 - (ii) subject to clause 2.1.3(b)(i), are otherwise set having regard to:
 - (A) the efficient costs caused by Port Users of the Relevant Service;
 - (B) transaction costs; and
 - (C) the extent to which Port Users are able or likely to respond to price signals.

2.1.4 A State Sponsored Port Operator must apply a methodology of the kind described in clause 5.1.1 if relying on clause 2.1.2(b) to determine a Competitively Neutral Price for a Relevant Service.

2.1.5 A State Sponsored Port Operator may set different Relevant Service Tariffs for different users of the same or similar Relevant Service, provided that such differences are consistent with the objectives set out in section 48 of the Act and clauses 2.1.2 to 2.1.4.

3. COMPETITIVELY NEUTRAL PRICING PRINCIPLES: COST BASE FOR SETTING RELEVANT SERVICE TARIFFS

3.1 General – Accrual Building Block Methodology

3.1.1 A State Sponsored Port Operator must determine an Aggregate Revenue Requirement by applying an Accrual Building Block Methodology comprising:

- (a) an allowance to recover a return on assets used to provide Relevant Services (**Capital Base**), commensurate with that which would be required by a benchmark efficient entity providing services with a similar degree of risk as that which applies to the State Sponsored Port Operator in respect of the provision of the Relevant Services (see clauses 3.2 and 3.3);
- (b) an allowance to recover the return of its Capital Base (see clause 3.4); and
- (c) an allowance to recover its forecast efficient operating expenses commensurate with that which would be incurred by a prudent service provider; less
- (d) an indexation allowance (see clause 3.6).

3.2 Capital Base

3.2.1 Subject to clause 3.2.2, the Capital Base applied for the purposes of clause 3.1.1(a) and clause 3.1.1(b) must be defined, at any particular time, on a roll forward basis, by:

- (a) taking the value at the commencement of any Financial Year;
- (b) adding an indexation allowance for that Financial Year in accordance with clause 3.6;
- (c) adding efficient capital expenditure when incurred, or to be incurred during that Financial Year, by the State Sponsored Port Operator, acting prudently, in the provision of the Relevant Services (in each instance, deemed to be incurred as at the mid point of that Financial Year and adjusted by an indexation allowance in accordance with clause 3.6 for that Financial Year); and
- (d) deducting an allowance for the return of capital.

3.2.2 The initial Capital Base is to be determined by applying the principles specified in clause 3.5.

3.2.3 The value of any assets transferred from a Public Sector Entity to a Private Sector Entity that form part of a Private Cost Contribution for a State Sponsored Port must be included in the Capital Base at a value calculated using the depreciated optimised replacement cost approach.

3.2.4 The Capital Base must not include any value attributable to rail, road or other landside infrastructure at a place that is outside a State Sponsored Port operated by that operator.

3.3 Return on Capital

3.3.1 Subject to clause 3.3.2, in determining a rate of return on capital for the purposes of clause 3.1.1(a) the State Sponsored Port Operator must use one or a combination of well accepted approaches that distinguish the cost of equity and debt, and so derive a weighted average cost of capital.

3.3.2 The rate of return to be calculated for the purposes of clause 3.1.1(a) must be determined on a pre tax, nominal basis.

3.4 Return of Capital

3.4.1 For the purposes of clause 3.1.1(b), depreciation must be determined so that each asset or group of assets used to provide the Relevant Services is depreciated using:

- (a) a straight-line methodology over a period that is no shorter than the reasonable economic life of the relevant asset; or

- (b) such other methodology set out in any guidelines issued by the Commission or otherwise determined by the Commission.

3.5 Initial Capital Asset Valuation Principles

- 3.5.1 The initial Capital Base of a State Sponsored Port Operator must be calculated using the depreciated optimised replacement cost approach.
- 3.5.2 For the avoidance of doubt, clause 3.5.1 applies in respect of any assets in the nature of shipping channels.

3.6 Indexation Allowance

- 3.6.1 For each relevant Financial Year, the indexation allowance referred to in clause 3.1.1(d) is an amount equal to the sum of:
 - (a) for the purposes of clause 3.2.1(b), the percentage change, or forecast percentage change, in the CPI for the relevant Financial Year, multiplied by the value of the capital base at the commencement of the relevant Financial Year; and
 - (b) for the purposes of clause 3.2.1(c), one half of the percentage change, or forecast percentage change, in the CPI for the relevant Financial Year, multiplied by the efficient capital expenditure when incurred, or to be incurred during that Financial Year.

4. COMPETITIVELY NEUTRAL PRICING PRINCIPLES: COST ALLOCATION PRINCIPLES

4.1 Cost Allocation Principles Objectives

- 4.1.1 The objective of the cost allocation principles is to provide a transparent and consistent methodology for allocating and monitoring costs for the purpose of setting Relevant Service Tariffs.

4.2 Principles for allocating costs between Relevant Services and other services

- 4.2.1 Costs of the State Sponsored Port Operator must be allocated between Relevant Services and all other services provided by the State Sponsored Port Operator in a manner consistent with the following cost allocation principles:
 - (a) costs that are directly attributable to the provision of the Relevant Service must be attributed to that Relevant Service; and
 - (b) costs that are not directly attributable to the provision of the Relevant Service but which are incurred in the course of providing both one or more Relevant Services and other services must be allocated to the Relevant Service on the basis of its expected share of total revenue from all services provided by the State Sponsored Port Operator.

5. COMPETITIVELY NEUTRAL PRICING PRINCIPLES: DETERMINING ECONOMICALLY SUBSTITUTABLE PRICE

5.1 Identification and description of economically substitutable service

- 5.1.1 If the State Sponsored Port Operator intends to rely on clause 2.1.2(b) to set the price for a Relevant Service it must, prior to relying on that clause, prepare and keep a record(s) which identifies and describes:
 - (a) the service provided by the Port of Melbourne Operator that it considers to be economically substitutable for the Relevant Service;
 - (b) the reason(s) why that service is economically substitutable for the Relevant Service, having regard to material differences (if any) between the quality or scope of the Relevant Service and the quality or scope of the economically substitutable service;

- (c) the price at which the economically substitutable service is provided by the Port of Melbourne Operator, adjusted (if relevant) for any material differences between the quality or scope of the Relevant Service and the quality or scope of the economically substitutable service;
- (d) any other information required in any guideline issued by the Commission or otherwise determined by the Commission.

5.2 Competitively Neutral Price to be published

5.2.1 A State Sponsored Port Operator must in its Reference Tariff Schedule:

- (a) identify those Relevant Services in respect of which a Relevant Service Tariff has been determined by relying on clause 2.1.2(b) in any relevant period;
- (b) publish:
 - (i) the original Relevant Service Tariff calculated for that Relevant Service for the relevant period; and
 - (ii) the revised Relevant Service Tariff calculated by relying on clause 2.1.2(b) for the relevant period;

6.1.6 The State Sponsored Port Operator must not require a Port User to acquire services that are not Relevant Services in order for that Port User to be supplied with Relevant Services.

6.2 Contracts for Relevant Services

6.2.1 The State Sponsored Port Operator may enter into a contract with a Port User for the supply of Relevant Services on terms and conditions that differ from those specified in the Reference Tariff Schedule.

6.2.2 For the avoidance of doubt, despite the entry into a contract with a Port User as contemplated by clause 6.2.1:

- (a) the services provided under the contract remain Relevant Services; and
- (b) revenue from the Relevant Services provided under all such contracts must be included in the State Sponsored Port Operator's calculation of its Aggregate Revenue Requirement under clause 3.1.1.

6.3 Changes to Relevant Service Tariffs during the Financial Year

6.3.1 Subject to clause 6.3.2, during a Financial Year, if the State Sponsored Port Operator seeks to amend its Reference Tariff Schedule in order to charge for a new or additional service as part of a Relevant Service, or for any other reason, it must:

- (a) notify Port Users and the Commission of its intention to do so by providing its proposed amendments to the Reference Tariff Schedule sixty (60) days prior to its earliest date of effect; and
- (b) provide Port Users and the Commission with thirty (30) days notice of the final version of the amended Reference Tariff Schedule.

6.3.3 For the avoidance of doubt, if the State Sponsored Port Operator amends its Reference Tariff Schedule in accordance with clause 6.3.1, from the date the amendments come into effect:

- (a) the new Reference Tariff Schedule will replace the previous Reference Tariff Schedule; and
- (b) the obligations in clauses 6.1.3 to 6.1.6 will apply in respect of the new Reference Tariff Schedule.

- (a) no later than 31 May in each Financial Year; and
- (b) where Relevant Service Tariffs are to be varied during a Financial Year or a new Relevant Service Tariff is to be introduced, at the same time as it notifies Port Users and the Commission under clause 6.3.1(b).
