REVIEW OF ROAD MANAGEMENT PLAN 2017

In accordance with section 302 of the Road Management (General) Regulations 2005, the Rural City of Wangaratta gives notice of its intention to conduct a review of its Road Management Plan.

The purpose of the review is to assess current road management practices, including the inspection, maintenance and repair of all Council's roads as listed in its Register of Public Roads, with consideration of Council's resources and community expectations.

Notable changes to the RMP include changes to the road hierarchy with the addition of a fourth classification being Limited Access road. Another notable change is to the levels of service for maintenance management in relation to response times. In regards to path assets, the medium path classification has been removed from the hierarchy. Path assets are now classed as either 'high' or 'low'.

Notice of the Preparation of an Amendment
Amendment C258

The Melbourne City Council has prepared Amendment C258 to the Melbourne Planning Scheme.

The land affected by the Amendment is all land within the Melbourne municipal area affected by a Heritage Overlay and land within West Melbourne.

The Amendment proposes to replace the existing A to D heritage grading system with the Significant/Contributory/Non-contributory grading system and implements the recommendations of the 'Heritage Policies Review 2016' by:

- making changes to the local policies Clause 22.04 (Heritage Places within the Capital City Zone) and Clause 22.05 (Heritage Places Outside the Capital City Zone);
- amending the Schedule to Clause 81.01 (Incorporated Documents) to:
 - replace the existing incorporated document 'Heritage Places Inventory June 2016' which grades heritage places using the A to D heritage grading system with a new incorporated document 'Melbourne Planning Scheme, Heritage Places Inventory 2017', which grades all heritage places within a heritage overlay using the Significant/Contributory/Non-contributory grading system; and
 - introduce a new incorporated document 'Melbourne Planning Scheme Amendment C258: Heritage Precinct Statements of Significance 2017' which comprises the statements of significance currently included within Clause 22.04 (Heritage Places Within the Capital City Zone) and additional statements of significance for the six largest existing heritage precincts outside the Capital City Zone.

The Amendment also proposes to implement the recommendations of the 'West Melbourne Heritage Review 2016' by making the following changes:

- modify the Schedule to Clause 43.01 Heritage Overlay to introduce 20 new heritage places and revise the descriptions of five existing heritage places in West Melbourne;
- amend the Schedule to Clause 81.01 (Incorporated Documents) to introduce the new incorporated document 'West Melbourne Heritage Review 2016: Statements of Significance'. The heritage gradings assessed under the 'West Melbourne Heritage Review 2016' are included in the proposed 'Melbourne Planning Scheme, Heritage Places Inventory 2017'; and
- amend planning scheme maps 5HO, 7HO and 8HO to introduce 20 new Heritage Overlays and revise the boundaries of eight existing Heritage Overlays in West Melbourne.

Electricity Industry Act 2000

GENERAL RENEWABLE ENERGY FEED-IN TERMS AND CONDITIONS

These are the general renewable energy feed-in terms and conditions for ERM Power Retail Pty Ltd ABN 87 126 175 460 (referred to as 'we', 'our' or 'us') and are published in accordance with section 40G of the **Electricity Industry Act 2000** ('Act'). They apply to each person or entity that is one of our current electricity retail customers in Victoria (referred to as 'you' or 'your') that has a small renewable energy generation facility (as defined in the Act) ('facility') at a premises and meets the eligibility requirements for the scheme for purchase of small renewable generation electricity as set out in section 40G and associated sections of the Act (the 'Scheme'). These general renewable energy feed-in terms and conditions are effective 2 months from the date of this notice.

1. We will pay or credit you for all excess electricity generated by a small renewable energy generation facility (as defined in the Act) at your premises ('the facility') and exported from your premises to the electricity grid with the same frequency as we bill you for electricity supplied to your premises. Our obligation to pay or credit starts once the facility has been properly installed and metered in accordance with all relevant regulatory requirements and with the consent of the electricity distributor. Our obligation to pay or credit ends when you are no longer our retail electricity customer, when you fail to meet the eligibility requirements in clause 6, or when the Scheme ends (whichever is earlier). If for any reason we do not receive a credit from the electricity distributor for the exported electricity, our obligation to pay or credit you does not apply.
2. You must pay all costs associated with installing the facility, including any connection costs and the cost of installing and maintaining any necessary additional metering.
3. You do not need to transfer any renewable energy certificates to us.
4. We will pay or credit you at no less than the rate per kilowatt hour determined by the Essential Services commission or as is otherwise required under the **Electricity Act 2000** (Vic.) (the 'Feed-in Tariff Rate') for excess electricity exported to the electricity grid. We may vary the Feed-in Tariff Rate by notice to you, provided that the Feed-in Tariff Rate must not at any time be less than any minimum rate determined by the Essential Services Commission. The notice will be given as soon as practicable and in any event no later than the next billing and payment cycle.
5. If requested by you, we must make a request to the relevant distributor to connect your small renewable energy generation facility to the distributor's distribution system as soon as practicable (and no later than one business day) after receiving from you all documentation required under the **Electricity Safety Act 1998** and all documentation reasonably required by us or the relevant distributor.
6. You are eligible for the Scheme only if you are a qualifying customer with a qualifying solar energy generating facility at your premises. 'Qualifying customer' and 'qualifying solar energy generating facility' have the meanings given in the Act. You must notify us if you are no longer eligible for the Scheme due to a change in circumstances in relation to your facility or your premises.
7. We must base our payment or credit on an exact reading of your NEM-compliant meter that records the supply of electricity from your premises to the distribution system. We must use our best endeavours to ensure that the meter is read at least once in every 12 month period. However, we will not be in breach of this clause if we are unable to read a meter in any relevant period as a result of you breaching clause 14 or some other event outside our

control. A NEM-compliant meter is a meter that is compliant with the Australian Energy Market Operator ('AEMO') Metrology Procedure as published on the AEMO website from time to time.

8. If we are not able to reasonably or reliably base a feed-in tariff payment or credit on a reading of the meter, we will not make a payment or credit unless the relevant distributor estimates the generation in accordance with applicable regulatory instruments.
9. We will review a feed-in payment or credit to you at your request, to be conducted on the basis specified in clause 29 of the Energy Retail Code or the relevant clause in any amended version of the Energy Retail Code.
10. If we seek to bill you to make up overpaying or over-crediting you for electricity supplied by you, we will proceed on the basis specified in clause 30 of the Energy Retail Code or the relevant clause in any amended version of the Energy Retail Code.
11. If we have underpaid or under-credited you for electricity supplied by you, we will credit the amount on your next bill.
12. If an event occurs which is outside the reasonable control of either of us (i.e. a force majeure event) and either of us breaches these terms and conditions due to this event only, the breach is to be dealt with on the basis specified in clause 17 of our Market Contract Terms and Conditions or the relevant clause in any amended version of those terms and conditions.
13. For the purpose of reading the meter that records the supply of electricity from your premises to the distribution system and for connection, disconnection, reconnection and repair, you must allow either, us, the responsible person or a representative of us or the responsible person safe, convenient and unhindered access to your premises and to the meter that records the supply of electricity from your premises to the distribution system. We, the responsible person or the representative (as relevant) will carry or wear official identification and, on request, must show that identification to you.
14. You must inform us as soon as possible of any relevant change to your contact details.
15. On request, we must provide you with reasonable information on any feed-in tariffs we may offer you. This information must be given within 10 business days of your request, and if you request it, in writing.
16. We will retain your historical feed-in payment or crediting data for at least two years. The termination of these terms and conditions does not release us from this obligation.
17. We will process your request for historical data relating to these terms and conditions in the same manner as a request for historical data relating to a supply of electricity to you under clause 28 of the Energy Retail Code or the relevant clause in any amended version of the Energy Retail Code.
18. A complaint by you in relation to these terms and conditions will be handled by us in accordance with clause 16 of our Market Contract Terms and Conditions or the relevant clause in any amended version of those terms and conditions.
19. These terms and conditions continue until the first to occur of any of the following:
 - a. you terminate the contract (which you may do at any time);
 - b. you no longer occupy your premises;
 - c. if we and you enter a new feed-in contract in respect of your premises, the expiry of any cooling-off period in respect of the new feed-in contract; or
 - d. if you terminate these terms and conditions because you want to enter a feed-in contract with another retailer, the date when the other retailer becomes responsible for the feed-in contract; or
 - e. if our contract with you for the supply of electricity to your premises is terminated with regard to the premises having been disconnected, the date when you no longer have a right under the Energy Retail Code to be reconnected;

-
- f. if you are no longer eligible for the Scheme (whether due to a change in circumstances in relation to your facility or your premises or because of a change in the Scheme) or the Scheme is repealed, the date that you cease to be eligible for the Scheme or the date of repeal of the Scheme.
20. Termination of these terms and conditions does not end your electricity retail contract with us.
21. If these terms and conditions end or are terminated and you have not entered into a new feed-in contract with us or another retailer, you must ensure that no small renewable energy generation is exported to the distribution system from your facility or your premises. We may take appropriate action (including arranging for the disconnection of the meter) to ensure that no small renewable energy generation electricity is exported from your facility.
22. You are responsible for your facility and its use. We are not responsible for any act, omission, default or negligence of any third party including the distributor. You agree that we will not be liable for any loss damage or injury that may be caused by your facility or its use.
23. You must install adequate protection devices to protect your facility from faults (including without limitation, power surges) on the distribution system.
24. A notice, consent, document or other communication given by us under these terms and conditions will be given in a manner specified in clause 3F of the Energy Retail Code or the relevant clause in any amended version of the Energy Retail Code.
25. To the extent permitted under the Act, we may vary these terms and conditions by the gazettal of replacement terms and conditions under the Act or by notice from us to you where we reasonably believe the variation is needed in connection with a change to the Scheme or the Act. Otherwise, the terms and conditions of this agreement may only be varied by agreement between you and us.
26. We may only assign these terms and conditions with your consent, unless the assignment forms part of the transfer to the same third party of all or substantially all of our retail business.
