**Electricity Industry Act 2000**

POWERSHOP AUSTRALIA PTY LTD ABN 41 154 914 075

Standing Tariffs applicable under section 35 and section 39 of the **Electricity Industry Act 2000**. The following electricity rates apply to Deemed Contract customers and Standing Offer customers from 1 July 2017 until such time as the rates are varied.

Applicability of rates:

Rates subject to confirmation of distribution zone, meter type and configuration, and details of supply address. Guidance regarding applicability is set out below.

Single Rate tariffs:

These tariffs consist of a Daily Supply Charge, and then a per kWh energy rate which is the same at all times of the day, 24 hours a day. These tariffs do not have any 'Off Peak' rates but Controlled Load Rates may apply. This tariff is the basic network tariff for general usage for most cases.

Controlled Load rates:

Rates for time switch controlled hot water services, space heaters and other dedicated loads, generally controlled between 11 pm and 7 am.

Time of Use tariffs:

These tariffs consist of a Daily Supply Charge, and different per kWh energy rates for Peak times and Off Peak times. Peak times are generally between 7 am and 11 pm (Monday to Friday for 5 Day TOU tariffs and all week for 7 Day TOU tariffs), and all other times are off peak.

Flexible tariffs:

These tariffs include a 'Shoulder' per kWh energy rate in addition to Peak and Off Peak rates. For these tariffs, Peak times are generally between 3 pm and 9 pm Monday to Friday, Off Peak times are generally between 10 pm and 7 am all week, and all other times are shoulder times.

Demand based tariffs:

If a demand based distribution tariff is applicable, pricing will include a Demand Charge measured (c/kW/day) in addition to the Daily Supply c/day and c/kWh charges, to reflect applicable distributor charges.

Rates are as set out in the following pages.
