

Victoria Government Gazette

No. S 236 Friday 30 June 2017
By Authority of Victorian Government Printer

Livestock Disease Control Act 1994

APPROVAL OF FORM OF A DECLARATION

I, Richard Bolt, Secretary to the Department of Economic Development, Jobs, Transport and Resources, give notice that, for the purposes of section 8A(2)(b) and (c) of the **Livestock Disease Control Act 1994** –

- (a) the approved form of a declaration is a form that is in or is to the like effect of a form appearing in the Schedule below; and
- (b) the required information is the information required in the forms referred to in paragraph (a) above.

Dated 30 June 2017

RICHARD BOLT
Secretary

SPECIAL

SCHEDULE

NATIONAL VENDOR DECLARATION (CATTLE) AND WAYBILL

Part A To be completed by the owner or person who is responsible for the husbandry of the cattle. This form cannot be used where eligibility for the EU market is required.

Owner of cattle, Property/place where the journey commenced, Address (Full trading name), (Address), (Town/Suburb), (State)

Table with columns: Number, Description (Breed, Sex, E.g. Hereford Cross Steers), Brands or Earmarks (if present or required), Total

Consigned to, (Address), (Name of person or business), (Town/Suburb), (Location address), (State)

Destination (if different) of cattle, NUS devices used on these cattle, Number of ear tags, Number of rumen devices, Details of other statutory documents relating to this movement e.g. health statement

DOCUMENT TYPE, 1. Have any of the cattle in this consignment ever in their lives been treated with a hormonal growth promotant (HGP)?, 2. Have the cattle in this consignment ever in their lives been fed feed containing animal fats?, 3. Has the owner stated above owned these cattle since their birth?, 4. In the past 60 days, have any of these cattle been fed by-product stockfeeds?, 5. In the past 6 months have any of these animals been on a property listed on the ERP database or placed under any restrictions because of chemical residues?

6. Are any of the cattle in this consignment still within a Withholding Period (WHP) or Export Slaughter Interval (ESI) as set by APVMA or SAFEMET, following treatment with any veterinary drug or chemical?, 7. In the past 60 days, have any of the cattle in this consignment consumed any material that was still within a withholding period when harvested, collected or first grazed?, 8. In the past 42 days, were any of these cattle: a) grazed in a spray risk area, or b) fed fodders cut from a spray drift risk area? (See Explanatory Notes for definition of spray drift risk area.)

9. Additional information: see requirements in Explanatory Notes for completing this document.

Declaration, FULL NAME, FULL ADDRESS, ADDRESS CORRECT, LPA logo, declare that, I am the owner or the person responsible for the husbandry of the cattle and that all the information in part A of this document is true and correct.

Tel no., Fax no., Part B To be completed by the person in charge of the cattle while they are being moved. Completion of this part is optional in SA and VIC. Movement commenced: DAY / MONTH / YEAR (am/pm), Vehicle registration number(s):

1. FULL NAME, am the person in charge of the cattle during the movement and declare all the information in Part B is true and correct. Signature, Date, Tel no. Part C Agents declaration for cattle sold at auction. (Completion of Part C is optional.)

Agents completing Part C should retain the original or a scanned copy of the original declaration or a summary for a minimum of two (2) years, or three (3) years in WA and supply a copy or summary to any buyer on request. Vendor code / No.'s, Agent's code, Stock agent company, Buyer's name, Destination PIC, No. of cattle purchased, Saleyard arrival time (am/pm), Agent's signature, Date

EXPLANATORY NOTES – NATIONAL VENDOR DECLARATION (CATTLE) AND WAYBILL

The Livestock Production Assurance (LPA) National Vendor Declaration (NVD) underpins Australia's meat and livestock food safety reputation.

When you sign Part A of an LPA NVD, you are sharing information on livestock history and declaring compliance with all LPA requirements (www.mia.com.au/lpa).

As a LPA accredited producer you must provide an LPA NVD for any movement of stock – to processors, to saleyards or between properties – if they have different Property Identification Codes (PICs). You must also request a correctly completed LPA NVD or post sale summary when buying cattle.

When transporting livestock, a waybill is required by law in all States except Victoria. Part B of this document satisfies these State requirements, except in the Northern Territory (NT). The NT only accepts the NT waybill as its mandatory movement document.

Your responsibility

All answers must be accurate. Any false, misleading or unverified statements may result in prosecution or civil action. Before signing you must be absolutely satisfied that you understand and have correctly completed all parts of the LPA NVD.

- **Top (white) sheet:** Purchaser copy.
- **Middle (green) sheet:** Carrier copy. MUST be filed for auditing purposes.
- **Bottom (pink) sheet:** Vendor copy. MUST be filed for auditing purposes.

*If you rely on the document to verify future claims about purchased stock, then the stock should be identifiable against their accompanying document.

The following notes assist in accurately completing the LPA NVD:

PART A

Part A must be completed by the owner of the cattle or person responsible for their husbandry.

Address and Property Identification Code (PIC) / place where the journey commenced

Make sure the pre-printed PIC on this LPA NVD is the PIC that the cattle are being moved from. If the stock are being moved from a different property (e.g. adjustment), you must obtain an LPA NVD from the owner of that property.

If the cattle are loaded from a different property for the purpose of access to yards or loading facilities, do not record the PIC of the property on which the cattle were loaded.

Description of Cattle

For consignments that require more lines to describe the stock, complete the Attachment to the LPA NVD. The total number of cattle being sold must be included on the original LPA NVD.

Consigned to
Include the name and full physical address of the person and/or company the cattle are being consigned to.

Destination

If different to the 'consigned to' address, include the full physical address of the destination of the cattle.

National Livestock Identification System (NLIS) devices
Where cattle carry NLIS approved breeder or post-breeder records, the number of animals and device types must be recorded. For more information on NLIS visit <http://nlis.dpi.nsw.gov.au/nlis>

Details of other statutory documents

Examples include cattle health statements, permits, additional description sheets, the Attachment to the LPA NVD Form. All additional documentation must be labelled with the corresponding LPA NVD serial number and attached to each copy of the LPA NVD.

Q1. Hormonal growth promotant (HGP) status

If you DON'T KNOW, you must tick YES

Only tick NO if: (a) they were bred on your property and you know they have never been treated with HGPs or; (b) you have evidence showing that these cattle have never in their lives been treated with HGPs. Acceptable evidence includes an agent's post-sale summary, or a signed statement or LPA NVD from the previous owner.

If you want non-HGP and HGP treated cattle to be managed separately by the receiver, use separate LPA NVDs.

Q2. Animal fats

If you DON'T KNOW, you must tick YES

Only tick NO if: (a) they were bred on your property and you know they have never been fed feed containing animal fats (b) you have evidence showing that these cattle have never consumed feed containing animal fats.

Acceptable evidence includes an agent's post-sale summary or a signed statement or LPA NVD from the previous owner that declares:

- the animals as 'Saudi eligible', or
- the animals have not consumed feed containing animal fats.

Q3. Ownership

If you DON'T KNOW, you must tick NO

When sending in stock in one lot that are both vendor-bred and non vendor-bred, you must:

- tick NO and answer the subsequent question on how long they have been owned for, or
- use separate LPA NVDs for vendor-bred stock and the non vendor-bred stock.

Q4. By-product stockfeed

If you DON'T KNOW, you must tick YES

Includes any plant material not produced primarily for livestock consumption, such as waste fruit, vegetables and fibre crops including peel, pulp, pressings, stem and leaf material. It does not include grain and grain by-products, cotton seed, oilseed meals, tallow or molasses.

Q5. Extended Residue Program (ERP) status

If you DON'T KNOW, you must tick YES

Properties with known risks of persistent chemical residues such as DDT may have a '1' status applied to that property by a state or territory authority. If you are unsure of the ERP status of your property, contact your state residue coordinator www.mia.com.au/lpa

Answer YES to this question if, in the past 6 months:

- The cattle have been on a property that currently has a '1' status. Properties with a C (clear), R, M or TS classification, do not have an ERP status for the purposes of this question.

OR

- The cattle have been placed under restrictions, such as quarantine or detention, by a due to chemical residues that exceeded the maximum residue limit (MRL) for any chemical or the maximum level (ML) for contaminants such as lead or cadmium.

Attach any relevant report or state authority letter of clearance to all copies of the LPA NVD.

Q6. Veterinary drugs and chemicals

If you DON'T KNOW, you must tick YES

Veterinary drugs include chemicals administered orally, by injection or to the skin such as antibiotics, vaccines, worm and externally applied insecticides but exclude vitamin and mineral treatments.

Export Slaughter Intervals (ESIs) are the period following treatment when cattle are unsuitable for export processing. Withholding Periods (WHPs) are the period following treatment when cattle are unsuitable for processing for consumption in Australia.

ESIs and WHPs for commonly used vet chemicals registered for use in cattle are listed in the table on the opposite cover. It is important to check that WHP and ESI information is current. Up to date WHP and ESI information is available at www.dpi.nsw.gov.au/ESI

Q7. Agricultural chemicals

If you DON'T KNOW, you must tick YES

Unacceptable residues in livestock may be present in livestock after consuming conventional stockfeeds, such as pasture, crop, stubble, grain or a prepared stockfeed, previously treated with agricultural chemicals.

If the cattle have consumed purchased feeds within 60 days prior to sale the vendor must answer YES unless they hold commodity (CVD) or by-product (BYD) vendor declarations which confirm that all required WHPs have been met. If you

are unsure, or there was no WHP on the label, you must answer YES and provide details.

Q8. Spray Drift

If you DON'T KNOW, you must tick YES

A spray drift risk area can exist for up to 10 weeks after any application and can include all grazing land, fodder and forage crops that at the time of application were within 750 metres downwind of a site treated by aerial application and 200m downwind of a site treated by ground rig. Refer to the product label for any downwind mandatory no-spray zone information. Label information is available at <https://portal.apvma.gov.au/zuberts>

Q9. Additional information

List any required attached documents, and attach copies of the documents to the original LPA NVD and all copies of the LPA NVD. Examples include the Attachment to the LPA NVD form, cattle health statements, by-product stockfeed list, residue reports and clearances, treatment details.

Declaration

Signing this declaration has legal significance. Regulatory authorities may take legal action, and purchasers may seek damages, if any information in Part A is incorrect. You must be absolutely satisfied you understand all elements of the document and these explanatory notes.

Restricted Animal Material includes any tissue, blood or other material taken from an animal and any meals derived from animals. Examples include meat and bone meals, blood meal, fish meal, and feather meal. It does not include tallow, gelatine or milk products. www.mia.com.au/lpa

PART B

Part B must be completed by the carrier (or driver where applicable) in the states that require waybills.

This waybill is valid for one journey only, e.g. from vendor's property to saleyard. A separate waybill must be completed for any subsequent journey, e.g. from saleyard to buyer's property.

When more than one truck is carrying the cattle all vehicle registration numbers are to be recorded.

If there is insufficient space to record all the vehicle registration numbers the Attachment to LPA NVD form should be used and attached to all copies of the LPA NVD. Some state regulatory authorities will require a copy of the LPA NVD/waybill to travel with each individual vehicle. If any information is incorrect regulatory authorities may take legal action.

The Attachment to the NVD form template can be downloaded from www.mia.com.au/lpa

For information about the on-farm requirements of LPA accreditation visit: <http://www.mia.com.au/lpa>

EUROPEAN UNION VENDOR DECLARATION (CATTLE) AND WAYBILL

E0413

Export Control Act 1992 (Cwth); ACT Stock Act 1991; NSW Rural Lands Protection Act 1998; Queensland Stock Act 1945; WA Stock (Identification and Movement) Act 1970.

This form must be used for all cattle consigned from one EU accredited facility to another EU accredited facility. When cattle are sent from an EU accredited facility to a destination that is not EU accredited the National Vendor Declaration (cattle) and waybill should be used.

Part A To be completed by the accredited manager responsible for the husbandry of the cattle.

Owner of cattle

Property/place where the journey commenced
(ADDRESS) (TOWN/SUBURB) (STREET) (STATE)

Property Identification Code (PIC) of this property
This MUST be the PIC of the property that the stock is being moved from

Description of cattle		Brands or Earmarks (if present or required)
Number	Description (BREED, SEX, E.G. HERFORD CROSS STEERS)	
Total		

Consigned to
Use the Attachment Forms for consignments that require more lines to describe the stock. (See Explanatory Notes)

Destination (if different) of cattle
(ADDRESS) (TOWN/SUBURB) (LOCATION ADDRESS) (STATE)

NLS devices used on these cattle Number of ear tags Number of rumen devices
Details of other statutory documents relating to this movement e.g. health statement

1 Have the cattle in this consignment ever in their lives been fed feed containing animal fats?
Yes No (See Explanatory Notes)

2 Were all of the cattle born and raised on the vendor's property?
Yes No If No, how long ago were the cattle obtained or purchased? (if purchased at different times, tick the box corresponding to the line of the most recent purchase.)
A. Less than 2 months B. 2-6 months C. 6-12 months D. more than 12 months

3 In the past 60 days, have any of these cattle been fed by-product stockfeeds?
Yes No If Yes, attach a list of the by-product stockfeeds, date when last fed and a copy of an analyst's report if available.

4 In the past 6 months, have any of these cattle been on a property listed on the ERP database or placed under grazing restrictions because of chemical residue?
Yes No If Yes, give details:

5 Are any of the cattle in this consignment still within a Withholding Period (WHP) or Export Slaughter Interval (ESI) as set by APVMA or SAFEWEAT, following treatment with any veterinary drug or chemical?
Yes No If Yes, give details: (Record additional details in question 8)

CHEMICAL PRODUCT TREATMENT DATE / / WHP ESI (if SET)

6 In the past 60 days, have any of the cattle in this consignment consumed any material that was still within a withholding period when harvested, collected or first grazed?
Yes No If Yes, give details: CHEMICAL PRODUCT DATE APPLIED / / GRAZING WHP / / DATE FEEDING/GRAZING CEASED / /

7 In the past 42 days, were any of these cattle:
a) grazed in a spray risk area; or
b) fed fodder cut from a spray drift risk area? (See Explanatory Notes for definition of spray drift risk area.)
Yes No If Yes Date sprayed: DAY / MONTH / YEAR

8 Additional information: see requirements in Explanatory Notes for completing this document.

Declaration

FULL NAME ADDRESS CONTINUED FULL ADDRESS VENDOR NUMBER STATE LPA

I declare as the manager responsible for the husbandry of the animals in this consignment, that the information stated in this declaration is true and correct. I also declare that none of the animals have ever been treated with HGPS; I have records available to demonstrate that the animals were either a) born on the property the PIC of which is shown or b) for purchased cattle accompanied by an EU vendor declaration attesting to their HGP freedom. I also declare that all cattle in this consignment have been properly identified by the use of the approved NLS device. This declaration is made under the Export Control Act 1992. I will retain a copy of this declaration for two (2) years, three (3) years in WA (giving notice of this requirement under the Criminal Code Act 1995; the punishment for which is a period of imprisonment for one (1) to two (2) years).

I also declare that I have read and understood all the questions that I have answered, that I have read and understood the explanatory notes, and that, while under my control, the cattle were not fed restricted animal material (including meat and bone meal) in breach of State or Territory legislation.

Signature* **Date*** / /
*Only the person whose name appears above may sign this declaration, or make amendments which must be initialed.

Tel no. **Fax no.**
Part B To be completed by the person in charge of the cattle while they are being moved.
Completion of this part is optional in SA and VIC.

Movement commenced: DAY / MONTH / YEAR : (am/pm)
Vehicle registration number(s):*

I am the person in charge of the cattle during the movement and declare all the information in Part B is true and correct.
Signature **Date** / / **Tel no.**
*When more than one truck is carrying the cattle, other vehicle registration numbers are to be recorded.

Part C Agents declaration for cattle sold at auction.
Agents completing Part C should retain the original or a scanned copy of the original declaration or a summary for a minimum of two (2) years, or three (3) years in WA and supply a copy or summary to any buyer on request.

Vendor code **Agent's code**
Stock agent company
Buyer's name **Destination PIC**
No. of cattle purchased **Saleyard arrival time (am/pm)** :
Agent's signature **Date** / / DAY MONTH YEAR

EXPLANATORY NOTES – EUROPEAN UNION VENDOR DECLARATION (CATTLE) AND WAYBILL

The European Union Cattle Accreditation Scheme (EUCAS) operates under the Export Control Act 1982.

A copy of this form must be used for all cattle consigned from one EU accredited facility (farm, feedlot, saleyard or abattoir) to another.

If cattle are sent from an EU accredited facility to a non-accredited facility, then a LPA NVD form is required.

More information about the EUCAS can be found at www.daff.gov.au/eucas.

When you sign Part A of an LPA EU NVD, you are sharing information on livestock history and declaring compliance with all LPA requirements (www.mlia.com.au/lpa).

As an LPA accredited producer you must provide an LPA EU NVD for any movement of stock – to processors, to saleyards or between properties - if they have different Property Identification Codes (PICs). You must also request a correctly completed NVD or post sale summary when buying cattle.

When transporting livestock, a waybill is required by law in all States except Victoria. Part B of this document satisfies these State requirements, except in the Northern Territory (NT). The NT only accepts the NT waybill as its mandatory movement document.

Your responsibility

All answers must be accurate. Any false, misleading or unverified statements may result in prosecution or civil action. Before signing you must be absolutely satisfied that you understand and have correctly completed all parts of the LPA EU NVD.

The document is in triplicate.

- **Top (white) sheet:** Purchaser copy.
- **Middle (green) sheet:** Carrier copy.
- **Bottom (pink) sheet:** Vendor copy. MUST be filed for auditing purposes.

*If you rely on the document to verify future claims about purchased stock, then the stock should be identifiable against their accompanying document.

Any residue testing is the responsibility and a commercial matter between the buyer and the vendor.

The following notes assist in accurately completing the LPA EU NVD:

PART A

Part A must be completed by an EU accredited manager (usually the owner of the cattle or person responsible for their husbandry).

Address and Property Identification Code (PIC) / place where the journey commenced
Make sure the pre-printed PIC on this LPA EU NVD is the PIC that the cattle are being moved from. If the stock are being moved from a different property (e.g. agistment), you must obtain an LPA EU NVD from the owner of that property.

If the cattle are loaded from a different property for the purpose of access to yards or loading facilities, do not record the PIC of the property on which the cattle were loaded.

A new LPA EU NVD must be completed if the cattle have been purchased or moved to a new property and then sold.

Description of Cattle

For consignments that require more lines to describe the stock, complete the Attachment to the LPA NVD. The total number of cattle being sold must be included on the original LPA EU NVD.

Consigned to

Include the name and full physical address of the person and/or company the cattle are being consigned to.

Destination

If different to the 'consigned to' address, include the full physical address of the destination of the cattle.

National Livestock Identification System (NLIS) devices

Where cattle carry NLIS approved breeder or post-breeder devices, the number of animals and device types must be recorded. For more information on NLIS visit <http://www.mlia.com.au/nlis>

Details of other statutory documents

Examples include cattle health statements, permits, additional description sheets. All additional documentation must be labelled with the LPA EU NVD serial number and attached to each copy of the LPA EU NVD.

Q1. Animal fats

If you DON'T KNOW, you must tick YES

Only tick NO if: (a) they were bred on your property and you know they have never been fed feed containing animal fats (b) you have evidence showing that these cattle have never consumed feed containing animal fats.

Acceptable evidence includes an agent's post-sale summary or a signed statement or LPA EU NVD from the previous owner that declares:

- the animals are 'Saudi eligible', or
- the animals have not consumed feed containing animal fats.

Q2. Ownership

If you DON'T KNOW, you must tick NO

When sending in stock in one lot that are both vendor-bred and non vendor-bred, you must:

- tick NO and answer the subsequent question on how long they have been owned for, or
- use separate LPA EU NVDs for vendor-bred stock and the non vendor-bred stock.

Q3. By-product stock/feet

If you DON'T KNOW, you must tick YES

Includes any plant material not produced primarily for livestock consumption, such as waste fruit, vegetables and fibre crops including peel, pulp, pressings, stem and leaf

material. It does not include grain and grain by-products, cotton seed, oilseed meals, tallow or molasses.

Q4. Extended Residue Program (ERP) status

If you DON'T KNOW, you must tick YES

Particulates in the LPA program must undertake a property risk assessment to identify sites on-farm that are uncontaminated with persistent chemicals or physical contaminants.

Properties with known risks of persistent chemical residues such as DDT may have a 'T' status applied to that property by a state or territory authority. If you are unsure of the ERP status of your property, contact your state residue coordinator. www.mlia.com.au/lpa

Answer YES to this question if, in the past 6 months:

- The cattle have been on a property that currently has a 'T' status. Properties with a 'C' (clear), 'R', 'M' or 'I5' classification do not have an ERP status for the purposes of this question.

OR

The cattle have been placed under restrictions, such as quarantine or detention, by a due to chemical residues that exceeded the maximum residue limit (MRL) for agvet chemicals or the maximum level (ML) for contaminants such as lead or cadmium.

Attach any relevant report or state authority letter of clearance to all copies of the LPA EU NVD.

Q5. Veterinary drugs and chemicals

If you DON'T KNOW, you must tick YES

Veterinary drugs include chemicals administered orally, by injection or to the skin such as antibiotics, vaccines, worm and externally applied insecticides but exclude vitamin and mineral treatments.

Export Slaughter Intervals (ESIs) are the period following treatment when cattle are unsuitable for export processing. Withholding Periods (WHPs) are the period following treatment when cattle are unsuitable for processing for consumption in Australia.

ESIs and WHPs for commonly used vet chemicals registered for use in cattle are listed in the table on the opposite cover. Up to date WHP and ESI information is available at www.darwin.gov.au/ESI

Q6. Agricultural chemicals

If you DON'T KNOW, you must tick YES

Unacceptable residues in livestock may be present in pasture, crop, stubble, grain or a prepared stockfeed, previously treated with agricultural chemicals.

If the cattle have consumed purchased feeds within 60 days prior to sale the vendor must answer YES unless they hold commodity (CVD) or by-product (BVD) vendor declarations which confirm that all required WHPs have been met. If you

are unsure, or there was no WHP on the label, you must answer YES and provide details.

Q7. Spray Drift

If you DON'T KNOW, you must tick YES

A spray drift risk area can exist for up to 10 weeks after any application and can include all grazing land, fodder and forage crops that at the time of application were within 750 metres downwind of a site treated by aerial application and 200m downwind of a site treated by ground rig. Refer to the product label for any downwind mandatory no-spray zone information. Label information is available at <https://portal.apnma.gov.au/publicis>

Q8. Additional information

List any required attached documents, and attach copies of the documents to the original LPA EU NVD and all copies of the LPA EU NVD. Examples include the Attachment to the NVD form, cattle health statements, by-product stockfeed list, residue reports and clearances, treatment details.

Declaration

Signing this declaration has legal significance. Regulatory authorities may take legal action, and purchasers may seek damages, if any information in Part A is incorrect. You must be absolutely satisfied you understand all elements of the document and these explanatory notes.

Restricted Animal Material includes any tissue, blood or other material taken from an animal and any meals derived from animals. Examples include meat and bone meals, blood meal, fish meal, and feather meal. It does not include tallow, gelatine or milk products. www.mlia.com.au/lpa

PART B

Part B must be completed by the carrier (or driver where applicable) in the states that require waybills.

This waybill is valid for one journey only, e.g. from vendor's property to saleyard. A separate waybill must be completed for any subsequent journey, e.g. from saleyard to buyer's property. When more than one truck is carrying the cattle all vehicle registration numbers are to be recorded.

If there is insufficient space to record all the vehicle registration numbers the Attachment to NVD form should be used and attached to all copies of the LPA EU NVD. Some state regulatory authorities will require a copy of the LPA EU NVD/waybill to travel with each individual vehicle. If any information is incorrect regulatory authorities may take legal action.

PART C

A photocopy of the original LPA EU NVD form with a completed and signed Part C must accompany the consignment when moving cattle from an EU accredited sale to accredited premises & abattoirs. Sending a copy by fax is not sufficient.

The Attachment to the NVD form template can be downloaded from www.mlia.com.au/lpa

NATIONAL VENDOR DECLARATION (BOBBY CALVES) AND WAYBILL

BC0412

Part A To be completed by the owner or person who is responsible for the husbandry of the calves.

Owner of the calves (FULL TRADING NAME) _____

Property/place where the journey commenced (ADDRESS) _____

(TOWN/SUBURB) _____ (STATE) _____

Property Identification Code (PIC) of this property

*When more than one truck is carrying the calves, other vehicle registration numbers are to be recorded.

Please Note: In the case of calves sold at auction, this declaration is to be retained (original, scanned copy or summary) by the selling agent for a minimum of two (2) years, or three (3) years in WA. A copy is to be made available to any buyer of the consignment, or part of the consignment, on request.

EXPLANATORY NOTES – NATIONAL VENDOR DECLARATION (BOBBY CALVES) AND WAYBILL (FOR CALVES BETWEEN 5 & 30 DAYS OLD NOT ACCOMPANIED BY THEIR MOTHER)

The Livestock Production Assurance (LPA) National Vendor Declaration (NVD) underpins Australia's meat and livestock food safety reputation.

When you sign Part A of an LPA NVD, you are sharing information on livestock history and declaring compliance with all LPA requirements (www.mla.com.au/lpa).

As a LPA accredited producer you must provide an LPA NVD for any movement of stock – to processors, to saleyards or between properties – if they have different Property Identification Codes (PICs). You must also request a correctly completed LPA NVD or post sale summary when buying bobby calves.

When transporting livestock, a waybill is required by law in all States except Victoria. Part B of this document satisfies these State requirements, except in the Northern Territory (NT). The NT only accepts the NT waybill as its mandatory movement document.

Your responsibility

All answers must be accurate. Any false, misleading or unverified statements may result in prosecution or civil action. Before signing you must be absolutely satisfied that you understand and have correctly completed all parts of the LPA NVD.

The document is in triplicate.

- **Top (white) sheet:** Purchaser copy.
- **Middle (green) sheet:** Carrier copy.
- **Bottom (pink) sheet:** Vendor copy. **MUST** be filed for auditing purposes.

*If you rely on the document to verify future claims about purchased stock, then the stock should be identifiable against their accompanying document.

The following notes assist in accurately completing the LPA NVD:

PART A

Part A must be completed by the owner of the bobby calves or person responsible for their husbandry.

Address and Property Identification Code (PIC) / place where the journey commenced

Make sure the pre-printed PIC on this LPA NVD is the PIC that the bobby calves are being moved from. If the stock are being moved from a different property (e.g. agistment), you must obtain an LPA NVD from the owner of that property.

If the bobby calves are loaded from a different property for the purpose of access to yards or loading facilities, do not record the PIC of the property on which the bobby calves were loaded.

Description of Bobby Calves

For consignments that require more lines to describe the stock, complete the Attachment to the LPA NVD. The total number of bobby calves being sold must be included on the original LPA NVD.

Consigned to

Include the name and full physical address of the person and/or company the bobby calves are being consigned to.

Destination

If different to the 'consigned to' address, include the full physical address of the destination of the bobby calves.

Details of other statutory documents

Examples include bobby calf health statements, permits, additional description sheets, the Attachment to the LPA NVD Form. All additional documentation must be labelled with the corresponding LPA NVD serial number and attached to each copy of the LPA NVD.

Q1. Audited quality assurance program

Provide details about any QA accreditation or licensing.

Q2. Ownership

If you DON'T KNOW, you must tick NO

When sending in stock in one lot that are both vendor-bred and non vendor-bred, you must:

- tick NO and answer the subsequent question on how long they have been owned for or
- use separate LPA NVDs for vendor-bred stock and the non vendor-bred stock.

Q3. Stockfeed

If you DON'T KNOW, you must tick YES

Unacceptable residues in livestock may be present in livestock after consuming conventional stockfeeds, such as pasture, crop, stubble, grain or a prepared stockfeed, previously treated with agricultural chemicals.

If the bobby calves have consumed purchased feeds prior to sale the vendor must answer YES unless they hold commodity (CVD) or by-product (BYD) vendor declarations which confirm that all required Withholding Periods (WHPs) have been met. If you are unsure, or there was no WHP on the label, you must answer YES and provide details.

Q4. Veterinary drugs and chemicals

If you DON'T KNOW, you must tick YES

Veterinary drugs include chemicals administered orally, by injection or to the skin such as antibiotics, vaccines, worm and externally applied insecticides but exclude vitamin and mineral treatments. Export Slaughter Intervals (ESIs) are the period following treatment when bobby calves are unsuitable

for export processing. Withholding Periods (WHPs) are the period following treatment when bobby calves are unsuitable for processing for consumption in Australia. ESIs and WHPs for commonly used vet chemicals registered for use in bobby calves are listed in the table on the opposite cover, it is important to check these are current. Up to date WHP and ESI information is available at www.apvma.gov.au/ESI

Q5. Milk consumption

If you DON'T KNOW, you must tick YES

Include access to milk from cows treated or exposed to drugs or chemicals that may be present in milk.

Q6. Extended Residue Program (ERP) status

If you DON'T KNOW, you must tick YES

Answer YES to this question the bobby calves have been placed under restrictions, such as quarantine or detention, due to chemical residues that exceeded the maximum residue limit (MRL) for agvet chemicals such as an antibiotic 'KV' Status as notified by the National Residue Survey.

Attach any relevant report or state authority letter of clearance to all copies of the LPA NVD.

Q7. Additional information

List any required attached documents, and attach copies of the documents to the original NVD and all copies of the NVD. Examples include the Attachment to the NVD form, bobby calf health statements, by-product stockfeed list, residue reports and clearances, treatment details.

Only declare Saudi eligible if: (a) they were bred on your property and you know they have never been fed feed containing animal fats (b) you have evidence showing that these bobby calves have never consumed feed containing animal fats.

Acceptable evidence includes an agent's, post-sale summary or a signed statement of LPA NVD from the previous owner that declares:

- the animals as 'Saudi eligible', or
- the animals have not consumed feed containing animal fats.

Declaration

Signing this declaration has legal significance. Regulatory authorities may take legal action, and purchasers may seek damages, if any information in Part A is incorrect. You must be absolutely satisfied you understand all elements of the document and these explanatory notes.

Animal Welfare

Bobby calves on this LPA NVD must be cared for in keeping with the Australian Dairy Industry Animal

Welfare Standards.

The calves are between the age of 5 and 30 days old and must be: protected from cold and heat; in good health; able to rise up; fed milk or replacers on the farm within 6 hours of transport; delivered within 18 hours of last feed and transported for less than 12 hours.

People consigning calves must have an auditable and accessible record system that identifies the calves were last fed within 6 hours of transport, unless the journey is between rearing properties and is less than 6 hours' duration.

Bobby calves that do not meet these criteria cannot be sold or slaughtered.

<http://www.dairyaustralia.com.au/Animalmanagement/Animalwelfare/Galf-welfare.aspx>

Restricted Animal Material

This includes any tissue, blood or other material taken from an animal and any meals derived from animals. Examples include meat and bone meals, blood meal, fish meal, and feather meal. It does not include tallow, gelatine or milk products. www.mla.com.au/lpa

PART B

Part B must be completed by the carrier (or driver where applicable) in the states that require waybills.

This waybill is valid for one journey only, e.g. from vendor's property to saleyard. A separate waybill must be completed for any subsequent journey, e.g. from saleyard to buyer's property.

When more than one truck is carrying the bobby calves all vehicle registration numbers are to be recorded.

If there is insufficient space to record all the vehicle registration numbers the Attachment to NVD form should be used and attached to all copies of the NVD. Some state regulatory authorities will require a copy of the LPA NVD/ waybill to travel with each individual vehicle. If any information is incorrect regulatory authorities may take legal action.

The Attachment to the NVD form template can be downloaded from www.mla.com.au/lpa

NATIONAL VENDOR DECLARATION (SHEEP AND LAMBS) AND WAYBILL S0413

Part A To be completed by the owner or person who is responsible for the husbandry of the sheep or lambs.

Owner of sheep or lambs Property/place where the journey commenced

Property Identification Code (PIC) of this property

Description of sheep or lambs

Table with columns: Number, Year born, Description, PICs on Ear Tags/Brands, Month of shearing, Earmarks

Have all sheep in this consignment been tagged with an additional pink post breeder tag with the PIC printed on this NVD? Yes No

Consigned to

Destination (if different) of sheep or lambs

Details of other statutory documents relating to this movement

1 Have these sheep or lambs been raised consistent with the rules of an independently audited QA program on the property the PIC of which is shown above?

2 Have all the sheep or lambs in this consignment been treated with a Scabby Mouth Vaccination either at marking or at least 14 days prior to their presentation for sale?

3 Were all of these sheep or lambs bred by the owner or vendor?

4 Are any of the sheep or lambs in this consignment still within a Withholding Period (WHP) or Export Slaughter Interval (ESI) as set by APVMA or SAFEMEAT, following treatment with any veterinary drug or chemical?

5 In the past 60 days, have any of the sheep or lambs in this consignment consumed any material that was still within a withholding period when harvested, collected or first grazed?

6 Have the sheep or lambs in this consignment ever in their lives been fed feed containing animal fats?

7 Please include any additional information below

No. of sheep or lambs purchased Agent's signature Date

EXPLANATORY NOTES – NATIONAL VENDOR DECLARATION (SHEEP AND LAMBS) AND WAYBILL

The Livestock Production Assurance (LPA) National Vendor Declaration (LPA NVD) underpins Australia's meat and livestock food safety reputation.

When you sign Part A of an LPA NVD, you are sharing information on livestock history and declaring compliance with all LPA requirements (www.mia.com.au/lpa).

LPA accredited producers must provide an LPA NVD for any movement of stock – to processors, to saleyards or between properties – if they have different Property Identification Codes (PICs). They must also request a correctly completed NVD or post sale summary when buying sheep.

When transporting livestock, a waybill is required by law in all States except Victoria. Part B of this document satisfies these State requirements, except in the Northern Territory (NT). The NT only accepts the NT waybill as its mandatory movement document.

Your responsibility

All answers must be accurate. Any false, misleading or unverified statements may result in prosecution or civil action. Before signing you must be absolutely satisfied that you understand and have correctly completed all parts of the LPA NVD.

The document is in triplicate.

- **Top (white) sheet:** Purchaser copy.
- **Middle (green) sheet:** Carrier copy.
- **Bottom (pink) sheet:** Vendor copy. MUST be filed for auditing purposes.

*If you rely on the document to verify future claims about purchased stock, then the stock should be identifiable against their accompanying document.

The following notes assist in accurately completing the LPA NVD:

PART A

Part A must be completed by the owner of the sheep or person responsible for their husbandry.

Address and Property Identification Code (PIC) / place where the journey commenced

Make sure the pre-printed PIC on this LPA NVD is the PIC that the sheep are being moved from. If the stock are being moved from a different property (e.g. on agistment), you must obtain an LPA NVD from the owner of that property.

If the sheep are loaded from a different property for the purpose of access to yards or loading facilities, do

not record the PIC of the property on which the sheep were loaded.

Description of sheep

All PICs on sheep ear tags, or brands in WA, must be listed. Alternatively, a pink post-breeder tag may be attached to every animal. Ear-matching, tattooing or distinctive nose or head raddled may be used for other identification purposes. You are required to state which option you have chosen to identify PICs within the consignment. For consignments that require more lines to describe the stock, complete the Attachment to the LPA NVD. The total number of sheep being sold must be included on the original LPA NVD.

Consigned to

Include the name and full physical address of the person and/or company the sheep are being consigned to.

Destination

If different to the 'consigned to' address, include the full physical address of the destination of the sheep or lambs.

Electronic NLS (Sheep) tags

Where electronic NLS (Sheep) tags have been used, vendors do not need to visually inspect tags, record tag PICs on their NVD or use pink transaction tags. If the tags on the sheep are registered against the PIC or dispatch on the NLS database. For more information visit <http://www.mia.com.au/nls>

Details of other statutory documents

Examples include sheep health statements, permits, additional description sheets, the Attachment to the LPA NVD Form. All additional documentation must be labelled with the corresponding LPA NVD serial number and attached to each copy of the LPA NVD.

Q1. Quality Assurance (QA) program

Include here any independently audited QA program, eg. Floccare.

Q2. Scabby mouth vaccination

If you DON'T KNOW, you must tick NO
Some live export markets require immunity to the Scabby Mouth virus. A Scabby Mouth Vaccination at least 14 days prior to presentation for sale is a requirement to qualify. Only tick YES if you have evidence that the sheep have been treated.

Q3. Ownership

If you DON'T KNOW, you must tick NO

When sending in stock in one lot that are both vendor-bred and non vendor-bred, you must:

- tick NO and answer the subsequent question on how long they have been owned for, or
- use separate LPA NVDs for vendor-bred stock and the non vendor-bred stock.

Q4. Veterinary drugs and chemicals

If you DON'T KNOW, you must tick YES
Veterinary drugs include chemicals administered orally, by injection or to the skin such as antibiotics, vaccines, worm and externally applied insecticides but exclude vitamin and mineral treatments.

Export Slaughter intervals (ESIs) are the period following treatment when sheep are unsuitable for export processing. Withholding Periods (WHPs) are the period following treatment when sheep are unsuitable for processing for consumption in Australia.

ESIs and WHPs for commonly used vet chemicals registered for use in sheep are listed in the table on the opposite cover. It is important to check that WHP and ESI information is current. Up to date WHP and ESI information is available at www.darvma.gov.au/ESI
Information relating to wool WHPs should be answered under Q7 or included in the Attachment to the NVD form.

Q5. Agricultural chemicals

If you DON'T KNOW, you must tick YES

Unacceptable residues in livestock may be present in livestock after consuming conventional stockfeeds, such as pasture, crop, stubble, grain or a prepared stockfeed, previously treated with agricultural chemicals.

If the sheep have consumed feed sprayed or treated in the past 60 days and you are unsure of the WHP or there was no WHP on the label, you must answer YES and provide details. If sheep have been fed purchased feeds within 60 days prior to sale you must answer YES unless you hold commodity (CVD) or by-product (BVD) vendor declarations which confirm that all WHPs have been met.

Q6. Animal fats

Only tick NO if: (a) they were bred on your property and you know they have never been fed feed containing animal fats (b) you have evidence showing that these sheep have never consumed feed containing animal fats.

Acceptable evidence includes an agent's post-sale summary or a signed statement of LPA NVD from the previous owner that declares the animals as 'Saudi eligible', or the animals have not consumed feed containing animal fats.

Q7. Additional information

List any required attached documents, and attach copies of the documents to the original LPA NVD and all copies of the LPA NVD. Examples include the Attachment to the LPA NVD form, sheep health statements, by-product stockfeed list, residue reports and clearances, treatment details.

Declaration

Signing this declaration has legal significance. Regulatory authorities may take legal action, and purchasers may seek damages, if any information in Part A is incorrect. You must be absolutely satisfied you understand all elements of the document, and these explanatory notes.

Restricted Animal Material includes any tissue, blood or other material taken from an animal and any meals derived from animals. Examples include meat and bone meals, blood meal, fish meal, and feather meal. It does not include tallow, gelatine or milk products. www.mia.com.au/lpa

PART B

Part B must be completed by the carrier (or drover where applicable) in the states that require waybills.

This waybill is valid for one journey only, e.g. from vendor's property to saleyard. A separate waybill must be completed for any subsequent journey, e.g. from saleyard to buyer's property.

When more than one truck is carrying the sheep all vehicle registration numbers are to be recorded.

If there is insufficient space to record all the vehicle registration numbers the Attachment to NVD form should be used and attached to all copies of the NVD. Some state regulatory authorities will require a copy of the LPA NVD/ waybill to travel with each individual vehicle. If any information is incorrect regulatory authorities may take legal action.

The Attachment to the NVD form template can be downloaded from www.mia.com.au/lpa

For information about the on-farm requirements of LPA accreditation visit: <http://www.mia.com.au/lpa>

NATIONAL VENDOR DECLARATION (GOATS) AND WAYBILL

EXPLANATORY NOTES – NATIONAL VENDOR DECLARATION (GOATS) AND WAYBILL

The Livestock Production Assurance (LPA) National Vendor Declaration (NVD) underpins Australia's meat and livestock food safety reputation.

When you sign Part A of an LPA NVD, you are sharing information on livestock history and declaring compliance with all LPA requirements (www.mia.com.au/lpa).

As a LPA accredited producer you must provide an LPA NVD for any movement of stock – to processors, to saleyards or between properties – if they have different Property Identification Codes (PICs). You must also request a correctly completed LPA NVD or post sale summary when buying goats.

When transporting livestock, a waybill is required by law in all States except Victoria. Part B of this document satisfies these State requirements, except in the Northern Territory (NT). The NT only accepts the NT waybill as its mandatory movement document.

Your responsibility

All answers must be accurate. Any false, misleading or unverified statements may result in prosecution or civil action. Before signing you must be absolutely satisfied that you understand and have correctly completed all parts of the LPA NVD.

- **Top (white) sheet:** Purchaser copy.
- **Middle (green) sheet:** Vendor copy. MUST be filed for auditing purposes.
- **Bottom (pink) sheet:** Carrier copy.

*If you rely on the document to verify future claims about purchased stock, then the stock should be identifiable against their accompanying document.

The following notes assist in accurately completing the LPA NVD:

PART A

Part A must be completed by the owner of the goats or the person responsible for their husbandry.

Address and Property Identification Code (PIC) / place where the journey commenced

Make sure the pre-printed PIC on this LPA NVD is the PIC that the goats are being moved from. If the stock are being moved from a different property (e.g. agistment), you must obtain an LPA NVD from the owner of that property.

If the goats are loaded from a different property only for the purpose of access to yards or loading facilities, do not record the PIC of the property on which the goats were loaded.

Description of Goats

For consignments that require more lines to describe the stock, complete the Attachment to the LPA NVD. The total number of goats being sold must be included on the original LPA NVD.

All PICs on tags attached to the goats, or brands in WA, must be listed OR a pink post breeder tag may be attached to every animal. Declare which option has been used for identification within this consignment.

National Livestock Identification System (NLIS) devices

Where goats carry NLIS approved breeder or post-breeder devices, the number of animals and device types must be recorded. For more information on NLIS visit <http://www.mia.com.au/nlis>

Consigned to

include the name and full physical address of the person and/or company the goats are being consigned to.

Destination

if different to the 'consigned to' address, include the full physical address of the destination of the goats.

Details of other statutory documents

Examples include goat health statements, permits, additional description sheets, the Attachment to the LPA NVD Form. All additional documentation must be labelled with the corresponding LPA NVD serial number and attached to each copy of the LPA NVD.

Q1. Ownership

If you DON'T KNOW, you must tick NO

When sending in stock in one lot that are both vendor-bred and non vendor-bred, you must:

- tick NO and answer the subsequent question on how long they have been owned for, or
- use separate LPA NVDs for vendor-bred stock and the non vendor-bred stock.

Q2. Rangeland conditions

If you DON'T KNOW, you must tick NO

Rangeland goats are those that have never been fed in a feedlot or had any chemical or veterinary treatments.

Q3. Veterinary drugs and chemicals

If you DON'T KNOW, you must tick YES

Veterinary drugs include chemicals administered orally, by injection or to the skin such as antibiotics, vaccines, worm and externally applied insecticides but exclude vitamin and mineral treatments.

Only use products that are registered for use on goats unless you have written veterinary instructions authorising use.

Export Slaughter Intervals (ESIs) are the period following treatment when goats are unsuitable for export processing. Withholding Periods (WHPs) are the period following treatment when goats are unsuitable for processing for consumption in Australia.

ESIs and WHPs for commonly used vet chemicals registered for use in goats are listed in the table on the opposite cover. It is important to check that WHP and ESI information is current. Up to date WHP and ESI information is available at www.apvma.gov.au/ESI. Goat ESI information can be found by identifying the product name in the cattle and sheep ESI lists.

Q4. Agricultural chemicals

If you DON'T KNOW, you must tick YES

Unacceptable residues in livestock may be present in livestock after consuming conventional stockfeeds, such as pasture, crop, stubble, grain or a prepared stockfeed, previously treated with agricultural chemicals.

If the goats have consumed purchased feeds within 60 days prior to sale the vendor must answer YES unless they hold commodity (CVD) or by-product (BYD) vendor declarations which confirm that all required WHPs have been met. If you are unsure, or there was no WHP on the label, you must answer YES and provide details.

Q5. Animal fats

If you DON'T KNOW, you must tick YES

Only tick NO if: (a) they were bred on your property and you know they have never been fed feed containing animal fats (b) you have evidence showing that these goats have never consumed feed containing animal fats.

Acceptable evidence includes an agent's post-sale summary or a signed statement or LPA NVD from the previous owner that declares:

- the animals are 'Saudi eligible', or
- the animals have not consumed feed containing animal fats.

Q6. Additional information

List any required attached documents, and attach copies of the documents to the original LPA NVD and all copies of the LPA NVD. Examples include the Attachment to the LPA NVD form, goat health statements, by-product stock-feed list, residue reports and clearances, treatment details.

Declaration

Signing this declaration has legal significance. Regulatory authorities may take legal action, and purchasers may seek damages, if any information in Part A is incorrect. You must be absolutely satisfied

you understand all elements of the document and these explanatory notes.

Restricted Animal Material includes any tissue, blood or other material taken from an animal and any meals derived from animals. Examples include meat and bone meals, blood meal, fish meal, and feather meal. It does not include tallow, gelatine or milk products. www.mia.com.au/lpa

PART B

Part B must be completed by the carrier (or driver where applicable) in the states that require waybills.

This waybill is valid for one journey only, e.g. from vendor's property to saleyard. A separate waybill must be completed for any subsequent journey, e.g. from saleyard to buyer's property.

When more than one truck is carrying the goats all vehicle registration numbers are to be recorded.

If there is insufficient space to record all the vehicle registration numbers the Attachment to NVD form should be used and attached to all copies of the NVD. Some state regulatory authorities will require a copy of the LPA NVD/ waybill to travel with each individual vehicle. If any information is incorrect regulatory authorities may take legal action.

The Attachment to the LPA NVD form template can be downloaded from www.mia.com.au/lpa

Livestock Disease Control Act 1994

APPROVAL OF A TAG, MARK, BRAND OR DEVICE

I, Richard Bolt, Secretary to the Department of Economic Development, Jobs, Transport and Resources, give notice that:

1. the Notice for the permanent identification of cattle, as published in Victoria Government Gazette G39 on 25 September 2008 at pages 2240–2242, is revoked; and
2. for the purposes of section 9A(1)(c) of the **Livestock Disease Control Act 1994**, an approved tag, mark, brand or device is a tag, mark, brand or device set out in Schedule 3 of the Livestock Disease Control Regulations 2017.

Dated 30 June 2017

RICHARD BOLT
Secretary

Livestock Disease Control Act 1994

LIVESTOCK DISEASE CONTROL REGULATIONS 2017

Notice for Recording and Transmitting of Movement Information

I, Richard Bolt, Secretary to the Department of Economic Development, Jobs, Transport and Resources, in accordance with regulations 85, 86, 87, 88, 89, 91, 93 and 94 of the Livestock Disease Control Regulations 2017 ('the Regulations') give notice as follows:

1. For the purposes of regulations 86, 87, 89, 91, 93 and 94 of the Regulations the person nominated by the Secretary to be notified of the movement information is the administrator of the database system managed by Integrity Systems Company Limited for the purposes of the National Livestock Identification System ('NLIS database system').
2. For the purposes of regulations 86 (Cattle scale operator) of the Regulations –
 - a. 'the specified manner' means recording the movement information by either electronic means or in a hard copy form, so that the movement information is correlated or cross referenced to each individual head of cattle, sheep or goat; and
 - b. 'the required manner or by the required method of transmission' means accessing the NLIS database system through the NLIS internet site at www.nlis.com.au and sending the movement information in a form capable of being received and downloaded into the NLIS database system.
3. For the purposes of regulations 87 (Auctioneer or selling agent of cattle, sheep and goats not sold from saleyard) and 90 (Auctioneer or selling agent of pigs, sheep and goats sold at saleyard) of the Regulations –
 - a. 'the specified manner' means recording the movement information by electronic means, so that the movement information is correlated or cross referenced to each individual pig, sheep or goat; and
 - b. 'the required manner' means accessing the NLIS database system through the NLIS internet site at www.nlis.com.au and sending the movement information in a form capable of being received and downloaded into the NLIS database system.
4. For the purposes of regulation 88 (Auctioneer or selling agent of cattle sold at saleyard) –
 - a. 'the required manner' means the manner determined by the saleyard operator operating at the saleyard at which the cattle was sold and notified to the auctioneer or selling agent; and
 - b. 'the manner required by the Secretary' means via email or fax to an email address or fax number nominated by the abattoir or knackery.

5. For the purposes of regulations 89 (Saleyard operator to record information about cattle and forward it to Secretary) and 91 (Saleyard operator to record information about pigs, sheep and goats and forward it to Secretary) of the Regulations –
 - a. ‘the specified manner’ means recording the movement information by electronic means, so that the movement information is correlated or cross referenced to each individual head of cattle, pig, sheep or goat; and
 - b. ‘the required manner or by required method of transmission’ means accessing the NLIS database system through the NLIS internet site at www.nlis.com.au and sending the movement information in a form capable of being received and downloaded into the NLIS database system.
6. For the purposes of regulation 93 (Operator of an abattoir or knackery), the ‘required manner’ of forwarding movement information is by accessing the NLIS database system through the NLIS internet site at www.nlis.com.au and sending the movement information in a form capable of being received and downloaded into the NLIS database system.
7. For the purposes of regulation 94 (Livestock owner) of the Regulations –
 - a. ‘the required manner or by the required method of transmission’ means recording the movement information is by electronic means so that the movement information is correlated or cross referenced to each individual head of cattle, pig, sheep or goat; and
 - b. ‘the required manner or by the required method of transmission’ is –
 - i. by accessing the NLIS database system through the NLIS internet site located at www.nlis.com.au and sending the movement information electronically to the NLIS database system through the NLIS internet site in a form capable of being received and downloaded into the NLIS database system; or
 - ii. electronically via email.
8. This Notice takes effect on the day that it is published in the Government Gazette.
9. The Notice for Recording and Transmitting of Movement Information published in Victoria Government Gazette S134 on 21 June 2007 is revoked.
10. Section 94A of the **Livestock Disease Control Act 1994** requires that records be available for inspection for a period of 7 years after the date of the sale or purchase.
