Electricity Industry Act 2000

1ST ENERGY PTY LTD ABN 71 604 999 706

The following sets out Standing Offer Tariffs to Domestic (Residential) and Small Business customers pursuant to sections 35 and 39 of the **Electricity Industry Act 2000** effective from 1 January 2018 until such time that the tariffs are varied. The weighted average revenue variation for 1st Energy standing offer electricity customers is an increase of 23.7%, and affects less than 2% of 1st Energy's Victorian customers. This is due to increases in the costs of purchasing and supplying electricity.

APPLICABILITY OF RATES:

Rates subject to confirmation of distribution zone, meter type and configuration, and details of supply address. Guidance regarding applicability is set out below.

Single Rate tariffs:

These tariffs consist of a daily supply charge, and then a per kWh energy rate which is the same at all times of the day, 24 hours a day. These tariffs do not have any 'Off Peak' rates but Controlled Load Rates may apply. This tariff is the basic network tariff for general usage for most cases.

Controlled Load rates:

Rates for time switch controlled hot water services, space heaters and other dedicated loads, generally controlled between 11 pm and 7 am.

Time of Use tariffs:

These tariffs consist of a daily supply charge, and different per kWh energy rates for peak times and off peak times. Peak times are generally between 7 am and 11 pm (Monday to Friday for 5 Day TOU tariffs and all week for 7 Day TOU tariffs), and all other times are off peak.

Flexible tariffs:

These tariffs include a 'shoulder' per kWh energy rate in addition to peak and off peak rates. For these tariffs, peak times are generally between 3 pm and 9 pm Monday to Friday, off peak times are generally between 10 pm and 7 am all week, and all other times are shoulder times.

Demand based tariffs:

If a demand based distribution tariff is applicable, pricing will include a demand charge in addition to the daily supply and c/kWh charges, to reflect applicable distributor charges.

Residential Demand:

Summer Demand Charge (1 Dec to 31 Mar): based on monthly maximum demand between 3 pm and 9 pm local time Mon–Fri. Non-Summer Demand Charge (1 Apr to 30 Nov): based on monthly maximum demand occurring between 3 pm and 9 pm local time Mon–Fri. Minimum monthly chargeable demand of 1.5 KW for United Energy distribution areas.

Business Demand:

Summer Demand Charge (1 Dec to 31 Mar): based on monthly maximum demand between 10 am and 6 pm local time Mon–Fri (except AusNet which is 3 pm–9 pm Mon–Fri and Jemena which is 10 am–8 pm Mon–Fri). Non-Summer Demand Charge (1 Apr to 30 Nov) based on monthly maximum demand occurring between 10 am and 6 pm local time Mon–Fri (except AusNet which is 3 pm–9 pm Mon–Fri and Jemena which is 10 am–8 pm Mon–Fri).

AusNet Services Business Multi Rate Seasonal:

Summer Peak: Dec–Mar from Monday to Friday between 2 pm–6 pm

Summer Shoulder: Dec–Mar from Monday to Friday between 12 pm–2 pm and 6 pm to 8 pm

Winter Peak: Jun–Aug from Monday to Friday between 4 pm to 8 pm

Off Peak: all other times.
