## EXEMPTION

Application No. H149/2018

The Victorian Civil and Administrative Tribunal has considered an application pursuant to section 89 of the **Equal Opportunity Act 2010** (the Act) by Baluk Arts (Aboriginal Corporation for Frankston and Mornington Peninsula Indigenous Artists) ABN 52 678 116 723 (the applicant). The application for exemption is to enable the applicant to advertise for, recruit and employ an aboriginal person (the exempt conduct).

Upon reading the material filed in support of this application, including the affidavit of Annamaree McLeod the Tribunal is satisfied that it is appropriate to grant an exemption from sections 16, 107 and 182 of the Act to enable the applicant to engage in the exempt conduct until the application is finally heard and determined.

In granting this exemption the Tribunal noted:

- The applicant is an Aboriginal Arts Centre based in Mornington established 8 years ago. It services a wide range of Indigenous members providing a facility, materials and professional development for Aboriginal artists to develop their creative careers. It also offers workshops to the public and to organisations seeking indigenous educational content.
- The applicant's Board of Directors has decided to recruit an Aboriginal Manager to enhance the leadership and cultural knowledge of the organisation. To date the manager has been a non-indigenous person.

- The recruitment of an Aboriginal Manager will foster the advancement of indigenous people who have been historically disadvantaged in positions of leadership in the workplace.
- While the exempt conduct may meet some of the criteria as a 'special measure' for the purposes of providing an exception under the Act, it does not meet all the criteria for such an exception. It is therefore appropriate to grant an interim exemption as otherwise the exempt conduct may amount to prohibited discrimination.
- When making decisions about exemptions, the Tribunal is required to consider relevant human rights as set out in the **Charter of Human Rights and Responsibilities Act 2006** (Charter). Arguably, this exemption limits the right to equality and, in particular, the right to equal and effective protection against discrimination of non-Aboriginal persons who may wish to apply for the position. I am satisfied that, in the circumstances discussed above, the limit imposed by this exemption is reasonable and justified under the Charter.

The Tribunal hereby grants an exemption from the operation of sections 16, 107 and 182 of the Act to enable the applicant to engage in the exempt conduct.

This exemption is to remain in force from 19 July 2018 until 18 July 2023.

## Notes on Tables 1 and 2:

- Seasonal determinations may be made in intervals of 1% by interpolation between the values shown or extrapolation below 10% (or above 100% for the losses), not just in the 10% intervals shown.
- Murray Valley and Torrumbarry have fixed losses of 63,247 GL and 50,892 GL (including 0,352 GL for Tresco) respectively, plus two variable loss components as follows:
  - for high-reliability rights, variable loss varies from zero at zero allocation, increasing linearly to 10,436 GL for Murray Valley and to 16,301 GL for Torrumbarry at an allocation of 100%,
  - for low-reliability rights, variable loss varies from zero at zero low allocation, increasing linearly to 38,033 GL for Murray Valley and to 52,034 GL for Torrumbarry at an allocation of 100% to low-reliability entitlements; and these losses may be allocated as required to deliver water carried over in these irrigation areas based on the equivalent maximum allocation in each area (calculated as the seasonal determination + carryover).
- Allocations against the 22.1 GL of high-reliability entitlement added to Table 1 in November 2009 for Snowy EWR commenced when the Lake Boga-Lake Kangaroo-Lake Charm component of the Victorian Mid-Murray Storages was first deemed by the Resource Manager to have been operated in accordance with clause 8A (which occurred on 1 April 2010).
- Broken Creek entitlements are generally supplied from the Goulburn System, including town supplies for Numurkah and Nathalia and relevant environmental entitlements, hence are not included in Tables 1 and 2, but receive Murray allocation regardless of whether they are supplied from the Murray or Goulburn System.
- The allocation to the Murray Valley and Torrumbarry losses shown may be increased up to the maximum accumulated unused loss volume available for each in order to allow for delivery of allocation carried over in these districts from the previous year.
- These tables do not show changes in water share volumes as a result of trade since 13 August 2015, except for the consolidation by North East Water to consolidated 1,303.9 ML of high-reliability water shares into entitlement which occurred in 2018, or entitlements to unregulated flows in the River Murray or River Murray Increased Flows.
