ORDERS IN COUNCIL**Planning and Environment Act 1987****DECLARATION OF MACEDON RANGES AS A DISTINCTIVE AREA AND LANDSCAPE****Order in Council**

The Governor in Council, under section 46AO(1) of the **Planning and Environment Act 1987**, on the recommendation of the Minister, makes the following Order:

1. Preamble

In accordance with section 46AO(2)(d), the following statement sets out the significance of the area to the people of Victoria:

- (a) The Macedon Ranges has landscapes of outstanding natural beauty and environmental, economic and cultural heritage values of state and national significance.
- (b) Its diverse natural environment and impressive landforms, combined with visible layers of settlement history, underscore its special significance to the people of Victoria and its important role in our social, cultural and economic development.
- (c) Hanging Rock, Mt Macedon, Camels Hump, the Jim Jim and Brock Monument are rocky outcrops of special scientific and educational value, all of which help us understand Victoria's geological history.
- (d) The conservation areas of the declared area, including the Macedon Regional Park, Wombat State Forest, Lerderderg State Park and Cobaw State Forest, contain rare concentrations of biodiversity including endangered plant and animal species.
- (e) Strategic water resources flow from the many mountainous and forested areas of the declared area. These form impressive riparian landscapes and biodiversity corridors, and they also provide drinking water for regional and metropolitan use.
- (f) Across the landscape, a wealth of archaeological findings combine with intangible expressions of culture to indicate the importance of the area across generations of Aboriginal use and occupation. Hanging Rock and other landscape features are sacred and important to Traditional Owner communities. Mt William (Willam-i-murring) is one of the most significant Aboriginal quarrying sites in Australia, and it evidences a history of trade and interaction between peoples.
- (g) The Macedon Range's 19th century built heritage includes public buildings, private homes and businesses and formal gardens. The public infrastructure legacy includes the major transport corridor to Victoria's goldfields and the railway linking Melbourne to Bendigo, which continues inland to the Murray River. The area has some of the earliest pastoral settlements and farm complexes in Victoria, and its townships reflect the importance of transport, agriculture and forestry to Victoria's early social and economic development.
