SPECIAL

Transport (Compliance and Miscellaneous) Act 1983**VICTORIAN FARES AND TICKETING CONDITIONS**

Effective 1 January 2021

CHAPTER 1: PURPOSE AND LEGAL STATUS

The purpose of this document is to set out the conditions to which an entitlement to use a public transport service provided by a passenger transport company (i.e. a train operator, tram operator, V/Line Corporation or a bus company) is to be subject, as determined under section 220D(1) of the **Transport (Compliance and Miscellaneous) Act 1983** (the Act) (Conditions).

These Conditions take effect from and including 1 January 2021 for the classes of tickets specified below and govern the entitlement to use the public transport services specified in these Conditions, in respect of which those tickets are issued.

Customers who use the public transport services to which in these Conditions apply are required to comply with these Conditions in addition to the Act, the Ticketing Regulations and the Conduct Regulations.

In this Chapter ‘entitlement’ means an entitlement to use a specified public transport service that is able to be exercised on or after the commencement of these Conditions, including an entitlement that existed, but had not been exercised, before these Conditions were published in the Victoria Government Gazette.

These Conditions apply to the following classes of tickets –

- (a) myki;
- (b) V/Line tickets;
- (c) Regional Bus Tickets;
- (d) Travel Passes;
- (e) Student Passes;
- (f) Free Travel Passes;
- (g) Group Travel Authorities;
- (h) V/Line Group Travel Tickets; and
- (i) other travel authorities specified in these Conditions.

These Conditions may be amended or replaced from time to time and customers must ensure they are referring to, and complying with, the most up-to-date version of these Conditions.

These Conditions may be viewed at **ptv.vic.gov.au** or a website maintained by the Department of Transport.

If you require further information regarding public transport services and ticketing in Victoria please visit **ptv.vic.gov.au** or call **1800 800 007** 6am to midnight (all night Friday and Saturday).

TEMPORARY CONDITIONS DUE TO COVID-19

The Conditions under this heading in Chapters 1A to 1D apply on a temporary basis to support the Victorian Government's response to the coronavirus (COVID-19) pandemic, including in relation to the State of Emergency declared on 16 March 2020 under the **Public Health and Wellbeing Act 2008**, until such time as these conditions are revoked.

CHAPTER 1A: SPECIFICATION OF MEANS OF PAYMENT

Where these Conditions provide for the payment of money or purchase of products, including but not limited to paying for or purchasing a fare, ticket, travel authority, recording value on a myki (myki Money) or buying a pre-purchased myki product (myki Pass) or other authority, product or thing, whether by using the words 'purchase', 'purchasing', 'pay', 'payment', 'prepay', 'buying', 'topping up' or by using any other words or expression having similar or like effect –

- (a) Subject to paragraph (b) below –
 - payments made at railway stations, bus interchanges and PTV Hubs may be made only by non-cash means available at those premises (if any); and
 - payments made onboard V/Line services and bus services may be made only by non-cash means available on those services (if any).
- (b) Notwithstanding paragraph (a) above, payments made using a stand-alone myki or ticket machine may be made by any means available when using that machine.

CHAPTER 1B: REPLACEMENTS, REFUNDS AND REIMBURSEMENTS

Special circumstances

In addition to the provisions for refunds in Chapter 8 of the Conditions relating to special circumstances not otherwise covered by the Conditions, a person may apply for a replacement, refund or reimbursement in respect of products for which refunds are not otherwise available if special circumstances relating to COVID-19 exist.

Refunds, including but not limited to on-the-spot refunds for international visitors, will be made using only available non-cash means.

CHAPTER 1C: CHANGES TO V/LINE AND REGIONAL TICKETING REQUIREMENTS

V/Line tickets

Confirmation emails sent by V/Line following the purchase of a V/Line ticket through V/Line's website are V/Line tickets for the purposes of these Conditions.

Such V/Line tickets authorise travel on the regional train and coach services provided by V/Line, operating between the origin and destination specified in the email, subject to all other Conditions.

A customer will be taken to hold such a V/Line ticket if –

- (a) the customer holds a legible hard copy of the email from V/Line, in the format it was received from V/Line; or
- (b) instead of, or as well as, holding a hard copy of the email from V/Line, the customer has access to an electronic copy of the email, in the format it was received from V/Line, which can be displayed legibly on a smartphone or other device on request.

A customer may produce such a V/Line ticket for inspection by accessing and legibly displaying the electronic copy of the email on a smartphone or other device.

Regional bus tickets

Due to the Conditions in Chapter 1A regarding means of payment, in circumstances where non-cash means of payment are unavailable to purchase a regional bus ticket, customers are not required to purchase and hold a ticket to travel on a non-myki regional bus service, as ordinarily required by these Conditions.

CHAPTER 1D: OFF-PEAK MYKI MONEY FARES FOR TRAVEL IN ZONE 1 ONLY OR ZONES 1 + 2 FROM 31 JANUARY 2021 TO 30 APRIL 2021

The Conditions in this Chapter apply from 31 January 2021 until 30 April 2021 (inclusive).

The myki Money fare amounts specified in Table 1 in this Chapter apply for journeys in zone 1, zone 2 and zones 1 + 2 from 31 January 2021 until 30 April 2021 (inclusive).

During that period, the fares in Table 1 in this Chapter apply despite any conditions to the contrary in Chapter 4 of the Conditions, and instead of the fares specified in –

- (a) Table A in Schedule 1 to these Conditions; and
- (b) row 1 of Table D in Schedule 1 to these Conditions ('zones 1–2').

An off-peak discount of 30 per cent applies to fares for all journeys made in zone 1 only or zones 1 + 2 on a business day, except where –

- (a) touch off occurs before 9.30 am on a business day; or
- (b) touch on occurs between 4 pm and 7 pm (inclusive) on a business day –

as those journeys are peak journeys and the peak fare applies (excluding journeys which qualify for free early bird travel as set out in Chapter 3).

The off-peak discount is applied after any concession discount.

Customers must touch on and touch off in accordance with the Conditions in Chapter 4 to receive the applicable off-peak discount. Customers who do not touch on and off in accordance with the Conditions will be charged a default fare that is a peak fare.

For customers travelling off-peak, although only the discounted fare is paid, the peak fare that would otherwise apply to the customer's journey (if travelling during peak times) is still counted toward their daily fare cap. For conditions regarding daily fare caps, see Chapter 4.

Table 1 – myki Money fares – 31 January 2021 – 30 April 2021

	2 hours PEAK		Daily PEAK		2 hours OFF-PEAK		Daily OFF-PEAK	
	Full	Conc	Full	Conc	Full	Conc	Full	Conc
Zone 1	4.50	2.25	9.00	4.50	3.15	1.58	6.30	3.15
Zone 2	3.00	1.50	6.00	3.00	3.00	1.50	6.00	3.00
Zone 1 + 2	4.50	2.25	9.00	4.50	3.15	1.58	6.30	3.15

Note:

Fares for journeys in zone 2 only remain unchanged and will continue to be less than the off-peak fares for travel in zones 1 + 2.

The weekend/public holiday daily fare cap remains unchanged (see Table C in Schedule 1 to the Conditions).

CHAPTER 2: VALIDITY OF TICKETS AND PASSENGER OBLIGATIONS

TICKETING IN VICTORIA

Different ticketing conditions apply in Victoria depending on which public transport service a customer uses.

myki

myki may be used on the following public transport services (see Chapter 11 for definitions) and may be used on these services subject to all other relevant Conditions being met –

- (a) metropolitan train services;
- (b) metropolitan tram services;
- (c) metropolitan bus services;
- (d) V/Line myki commuter train services;
- (e) night coach network services operating between railway stations on the Regional train myki zones map in Figure D of Schedule 2 to these Conditions within the myki zones marked on that map;
- (f) V/Line parallel coach services operating between railway stations marked with a myki zone on the Regional train myki zones map in Figure D of Schedule 2 to these Conditions; and
- (g) regional bus services operating on the bus routes depicted on the maps in Parts 2A to 2J under the heading ‘Regional bus myki zone maps’ in the document entitled ‘Victorian Bus Zones and Maps’ published on PTV’s website or a website maintained by the Department of Transport.

Except as specified in paragraphs (e) and (f) above, myki cannot be used for travel on V/Line coach services.

Other tickets

V/Line tickets may be used for travel on train and coach services provided by V/Line.

V/Line tickets are also accepted on the Overland train service and in such cases V/Line fares will apply, but the relevant operator’s ticketing conditions will apply instead of these Conditions.

Regional Bus Tickets, as defined in Chapter 6, may be used on regional bus services in Victoria where myki is not accepted. For further information on Regional Bus Tickets, see Chapter 6.

Travel Passes may be used by persons to whom they are issued on metropolitan train services, metropolitan tram services, metropolitan bus services and myki enabled regional town bus services.

Student Passes may be used on the public transport services set out under the headings ‘Student pass myki’ in Chapter 4 and ‘Regional Bus Student Passes’ in Chapter 6.

Free Travel Passes and other travel authorities may be used on public transport services as specified in Chapter 3 and Chapter 7.

CONTRACT BETWEEN PASSENGERS AND OPERATORS

A ticket issued by or on behalf of one or more operators is evidence of a contract between the passenger who holds the ticket and each operator whose passenger services the passenger is entitled to use by virtue of their ticket.

REFERENCES TO CONDITIONS ON TICKETS

A reference on a ticket to ‘Ticketing Conditions’ or ‘terms and conditions’ is a reference to these Conditions, except as specified in this Chapter in relation to V/Line tickets used on the Overland train service.

OWNERSHIP OF TICKETS

A ticket (other than a Mobile myki) issued by or on behalf of an operator remains the property of that operator at all times. A ticket (other than a Mobile myki) issued by or on behalf of the Head, Transport for Victoria is and remains the property of the Head, Transport for Victoria.

PASSENGER OBLIGATIONS

Regulations

When using a public transport service, all customers must comply with the obligations and requirements applicable to the use of public transport in Victoria as set out in the Ticketing Regulations and the Conduct Regulations in addition to these Conditions.

These include, but are not limited to, the obligations to –

- (a) hold a valid ticket¹;
- (b) produce a ticket valid for travel²;
- (c) produce a ticket valid for entry to a compulsory ticket area³;
- (d) produce evidence of entitlement to rely on a concession ticket for travel⁴; and
- (e) produce evidence of entitlement to rely on a concession ticket for entry to a compulsory ticket area⁵.

Fares⁶

A customer who undertakes a journey in a passenger vehicle or enters a compulsory ticket area must pay the correct fare.

If a customer uses myki Money to pay for their fare for the whole or part of a journey, or for entry to a compulsory ticket area, but does not touch off the myki in accordance with the Conditions contained in Chapter 4, and a default fare referred to in Table H, I or J in Schedule 1 to these Conditions is charged, the default fare is deemed to be the correct fare for the journey or for the entry into the compulsory ticket area, subject to any concession entitlements or daily caps that may apply.

The correct fare for travel in a passenger vehicle in a zone or to, from or through a location at a particular time is deemed to be the correct fare for entry to a compulsory ticket area in that zone, or at that location, at that time.

VALIDITY OF TICKETS

The Ticketing Regulations state that –

- (a) a ticket is valid for the whole of a person's travel in a passenger vehicle if the ticket authorises the whole of the travel;⁷
- (b) a ticket is valid for a person's entry to a compulsory ticket area if the ticket authorised that entry to the compulsory ticket area;⁸
- (c) a ticket is not valid for the whole of a person's travel in a passenger vehicle if any part of that travel is not authorised by the ticket.⁹

The Ticketing Regulations also provide for defences to ticketing offences. For example, a defence may apply if the person charged took all reasonable steps that were available, before commencing the travel and while undertaking the travel, to have in that person's possession, or to produce for inspection, a ticket that was valid for the whole of the person's travel.

⁹ Regulation 6(c), Ticketing Regulations

myki

A myki is valid for a journey in a passenger vehicle or entry to a compulsory ticket area –

- (a) if the myki has been touched on and touched off in accordance with the Conditions contained in Chapter 4; and
- (b) if the myki is being used for a journey in more than two zones, there is recorded on the myki a myki Pass, a myki Money balance or a combination of these in accordance with the applicable Conditions set out under the heading ‘Minimum requirements for travel’ in Chapter 4; and
- (c) if the myki is a concession ticket, it either itself constitutes, or is accompanied by, evidence of a current concession entitlement to rely on that ticket; and
- (d) if the myki is used in accordance with all other Conditions for its use.

Despite subparagraph (a) of the immediately preceding paragraph, if a myki has been touched on but has not yet been touched off, and otherwise complies with the requirements of subparagraphs (b)-(d) of that paragraph, the myki is to be treated as valid for the relevant journey or entry until such time as the obligation to touch off the myki arises.

A myki is also valid for a journey in a passenger vehicle or entry to a compulsory ticket area, although the myki was not touched off in accordance with the Conditions contained in Chapter 4, if –

- (a) the myki was touched on for that journey or entry in accordance with these Conditions; and
- (b) after the myki was touched on, there was recorded on the myki either:
 - (i) a myki Pass or other product that authorised that journey or entry; or
 - (ii) a default fare at least equal to the correct fare for that journey or entry.

Travel Passes

Travel Passes are valid for a journey in a passenger vehicle or entry to a compulsory ticket area if –

- (a) the Travel Pass has been hole punched in accordance with the Conditions contained in Chapter 7 under the heading ‘Travel Passes’; and
- (b) in the case of a Day Travel Pass, the journey or entry is on the day the date of which has been hole punched on the Travel Pass; and
- (c) in the case of a 7 Day or a 30 Day Travel Pass, the journey or entry is on a day the date of which is within the applicable 7 day or 30 day period commencing on the date which has been hole punched on the Travel Pass; and
- (d) the Travel Pass is used in accordance with all other Conditions for its use.

Other tickets

A ticket (other than a myki or a Travel Pass) is valid for a journey in a passenger vehicle or entry to a compulsory ticket area if –

- (a) the fare for the journey or entry has been paid; and
- (b) the whole of the journey or the entry is authorised on the face of the ticket; and
- (c) in the case of a concession ticket, it either itself constitutes, or is accompanied by, evidence of a current concession entitlement to rely on that ticket; and
- (d) it is used in accordance with all other Conditions for its use applicable in respect of that class of ticket.

Validity of tickets for entry to compulsory ticket areas

If a ticket is valid for travel in a passenger vehicle in a zone or to, from or through a location, at a particular time, the ticket is valid for an entry to a compulsory ticket area in that zone, or at that location, at that time.

Validity of damaged tickets and concessions

A ticket is invalid if:

- (a) it has been altered, defaced or mutilated in any material particular way; or
- (b) it becomes, or has been made, illegible in any material particular way; or
- (c) information stored in an electronic chip in or on the ticket (or, in the case of Mobile myki, information contained in an imbedded computer microchip on the personal electronic device) has been altered or destroyed or made inaccessible in any material particular way.

Evidence of a concession entitlement is invalid if the card or other document which constitutes that evidence (other than a ticket):

- (a) has been altered, defaced or mutilated in any material particular way; or
- (b) becomes, or has been made, illegible in any material particular way.

Validity of tickets – delayed, disrupted or replaced services

When replacement vehicles are provided, tickets are valid on the replacement services to the same extent as they applied on the original service.

Validity of tickets – new Conditions or abolition of ticket types

If any conditions are published in accordance with section 220D of the Act which amend or replace these Conditions (**the Replacement Conditions**), any ticket specified in these Conditions that, immediately before the Replacement Conditions take effect –

- (a) has been issued but not used; or
- (b) has been used and is still able to be validly used –

may be used or continue to be used (as relevant) after the Replacement Conditions take effect, subject to the Replacement Conditions.

If a class of ticket ceases to be a class of ticket in the Replacement Conditions, any ticket of that class ceases to be valid in any way for travel or entry to a compulsory ticket area when the Replacement Conditions take effect.

Any refund in relation to any unused travel which the customer would otherwise be entitled to must be applied for in writing to the relevant operator, enclosing the relevant ticket (other than in the case of a ticket that is a Mobile myki), no later than three months after the Replacement Conditions take effect or such longer period as the Head, Transport for Victoria may specify in a notice published in the Victoria Government Gazette in relation to that class of ticket.

V/Line pick-up and set-down restrictions

For the purposes of the Conditions under this heading, in following three paragraphs, ‘metropolitan railway station’ means a railway station shown on the Melbourne Train Network Map in Figure A of Schedule 2 to these Conditions, other than Ardeer, Caroline Springs, Deer Park, Rockbank, Melton, Sunbury and Pakenham railway stations.

A customer may only board a V/Line train at a metropolitan railway station if the V/Line train service ends at a railway station that is not a metropolitan railway station.

A customer may only alight from a V/Line train at a metropolitan railway station if the V/Line train service ends at a railway station that is a metropolitan railway station or with the permission of an authorised person.

If a customer boards, or alights from, a V/Line train at a metropolitan railway station in contravention of either of the two immediately preceding paragraphs, any ticket held by the customer is not, or ceases to be, valid for the customer’s journey that consists of, or includes, the customer’s travel in that V/Line train or for any entry to a compulsory ticket area associated with that journey.

ENTITLEMENTS TO USE TICKETS

A ticket that is used for a journey or entry to a compulsory ticket area in contravention of these Conditions is invalid for that journey or entry.

- (b) another person who has the consent of the person registered as the account holder in respect of the myki –

who first uses the myki for a journey or entry to a compulsory ticket area so as to activate the pass is entitled to use the myki for that journey or entry to a compulsory ticket area and any subsequent journey or entry to a compulsory ticket area authorised by the myki while the myki Pass is loaded on it.

Registered myki with no myki Pass

If a registered myki (other than a myki Smartcard issued with a Free Travel Pass loaded on it) does not have a myki Pass loaded on it, only –

- (a) the person who is registered as the account holder in respect of the myki; or
- (b) any other person who has the consent of the person registered as the account holder in respect of the myki –

is entitled to use the myki for a journey or entry to a compulsory ticket area.

Unregistered myki with myki Pass

If a myki that is not registered has a myki Pass loaded on it, only the person who first uses the myki for a journey or entry to a compulsory ticket area so as to activate the myki Pass is entitled to use the myki for that journey or entry to a compulsory ticket area and any subsequent journey or entry to a compulsory ticket area authorised by the myki while the myki Pass is loaded on it.

Unregistered myki with no myki Pass

If a myki that is not registered does not have a myki Pass loaded, any person lawfully in possession of the myki may use it for a journey or an entry to a compulsory ticket area.

An unregistered myki that does not have a myki Pass loaded, may be used by more than one person but must be used by only one such person for the whole of any journey and any related entries to a compulsory ticket area or for the whole of any other entry to a compulsory ticket area.

Other tickets

Unless otherwise specified in another Chapter of these Conditions, only the person who first uses a ticket (other than a myki or a Travel Pass) for a journey or an entry to a compulsory ticket area is entitled to use that ticket for that journey or entry and any subsequent journey or entry to a compulsory ticket area authorised by the ticket.

OTHER CONDITIONS REGARDING PASSENGER SERVICES**Unaccompanied children**

Subject to the special requirements for services operated by V/Line set out in the paragraphs below, parents and guardians are responsible for the safety of children travelling alone on public transport services.

Public transport staff cannot accept responsibility for unaccompanied children.

On V/Line services, children under 10 years old must not travel alone and must travel with a responsible person, except when travelling with other children to and from school.

Children aged 10 to 15 years old may travel alone on V/Line services but the sole responsibility for the safety of the child remains with the parent or guardian who has care of the child.

Liability of operators

An operator who provides passenger services that a customer is entitled to use is not responsible to that customer for any loss, damage or delay caused by any failure by another operator in the provision of passenger services.

An operator shall not, in respect of any customer, be liable for any loss, damage or delay caused by or arising from an act of God or inevitable accident, riot, civil commotion, strike, lock-out, stoppage or restraint of labour, regardless of the cause and whether partial or general.

An operator may use any mode of transport to carry customers and may substitute the mode of transport used at any time, including during a journey.

An operator is not liable to a customer for –

- (a) any consequences arising from any variation in the time of arrival at or departure from any station or stop of any passenger vehicle; or
- (b) any loss or damage as a result of a cancellation of a passenger service or any variation of the time of arrival at, or departure from, any station or stop of a passenger vehicle.

An operator may cancel wholly or in part the scheduled passenger services shown in the operator's timetables or may vary the point at which passenger services will pick up and set down customers.

An operator does not guarantee the time of arrival or departure of its passenger services at the times published in its timetable.

A ticket which an operator is required to accept is subject to any alteration which the operator may make to a customer service to which that ticket relates during the currency of the ticket.

A customer is not entitled to any allowance or compensation due to a change in the time of the service or any reduction in the service.

Complaints

Any complaint about a public transport service may be raised directly with the operator or with PTV.

A complaint in relation to a myki or the account associated with a registered myki may be made at ptv.vic.gov.au, a website maintained by the Department of Transport or by calling the PTV call centre on **1800 800 007** 6 am to midnight daily (all night Friday and Saturday).

If a complaint in relation to the myki is not resolved by contacting PTV, the Public Transport Ombudsman provides a cost-free, independent and accessible dispute resolution scheme. Further information about the Public Transport Ombudsman is available at ptovic.com.au or by calling **1800 466 865**.

CHAPTER 3: CONCESSIONS AND FREE TRAVEL

CONCESSION FARES

Concession fares apply throughout Victoria on all public transport services as specified in Schedule 1 to these Conditions and the Victorian Regional Bus Fares Supplement.

Only a customer who is eligible for a concession may use a concession ticket as specified in this Chapter.

If a customer's entitlement to concession expires, the customer must not travel using a Concession myki and the customer must obtain a full fare myki to travel.

Where a change in a customer's circumstance results in a requirement to carry a different Concession myki type (for example, a child changes to a Health Care Card holder, or a Health Care Card holder changes to a Victorian senior), the customer must obtain a new Concession myki. A refund of any remaining balance on the old Concession myki is available at no charge (see Chapter 8).

To access such benefits offered for specified concession categories, customers must use the correctly coded myki Smartcard (or Mobile myki in the case of Victorian Seniors Card holders).

Subject to all applicable conditions and the regulations made under the Act, the myki may be used to obtain or prove an entitlement to use a public transport service by –

- (a) doing one or more of the following:

The maximum Value an account holder or cardholder is permitted to have on a myki is \$999.99. A transaction which would result in the Value on the myki exceeding \$999.99 will be rejected.

The myki may not be able to be used if the Value falls below the relevant minimum amount specified under the heading ‘Minimum requirements for travel’ in this Chapter.

The cardholder or any account holder, as is applicable, is liable to pay the fees and charges as published in and applied by these Conditions from time to time. The applicable fees and charges may be deducted from the Value on the myki.

If the Head, Transport for Victoria, in its absolute discretion, allows the myki to operate with a debit (negative) Value balance, the cardholder or, in the case of a registered myki, the account holder, must pay the Head, Transport for Victoria any debit (negative) balance on the myki and any value subsequently added to the myki will be applied first by the Head, Transport for Victoria to any debit (negative) balance.

Unless the myki is registered, as described under the heading ‘Registered myki’ in this Chapter, any person presenting the myki may redeem Value on the myki for myki Money (less any amounts owed by the cardholder or any account holder to the Head, Transport for Victoria), subject to complying with any applicable Conditions.

The Head, Transport for Victoria is entitled to reject an application to redeem Value on a myki if there has been a material breach of these Conditions.

Apart from the right to redeem Value in accordance with these Conditions, neither the cardholder nor any account holder has any legal, equitable or other right or interest in relation to money representing Value on the myki.

No trust or fiduciary relationship exists between the Head, Transport for Victoria and the cardholder or the Head, Transport for Victoria and any account holder.

The Head, Transport for Victoria’s records are, in the absence of manifest error, conclusive of the amount of Value on the myki and any other matter in relation to the myki Account or the myki.

The Head, Transport for Victoria may adjust the myki account or myki balance retrospectively if the Head, Transport for Victoria reasonably believes that either of them is incorrect.

Unclaimed monies

Until five years after the last use of the myki or the last activity on the myki account not initiated by the Head, Transport for Victoria, the Head, Transport for Victoria will hold all money representing Value on the myki unless, before that time, the Value is redeemed in accordance with these Conditions.

After that time, such money, other than amounts the value of which is less than \$20 (or any higher amount prescribed under the **Unclaimed Money Act 2008**), will be ‘unclaimed money’ for the purposes of the **Unclaimed Money Act 2008** and will only be able to be claimed from the Registrar of Unclaimed Money.

For a journey on a bus (other than a bus used for a night coach network service) –

- (a) a customer must touch on the myki immediately upon boarding the bus; and
- (b) a customer must touch off the myki before leaving the bus, but not before the bus leaves the second-last bus stop in that journey.

myki-enabled bus services are now pre-pay only.

Customers may board a myki-enabled bus and touch on their myki at any door. However, staff or signage may direct customers to use a specific door.

Touch on/touch off conditions – tram

For a journey on a tram –

- (a) unless subparagraph (b) or (c) applies, a customer must touch on the myki immediately upon boarding the tram;
- (b) if the journey is entirely within the free tram zone the customer is not required to touch the myki on or off (see additional conditions regarding the free tram zone in Chapter 3);
- (c) if the journey commences in and extends beyond the free tram zone, the customer must touch on the myki before the tram leaves the last boundary tram stop in that journey; and
- (d) the customer is not required to touch off, but if the customer chooses to touch off, they must not do so before the tram leaves the second-last tram stop in that journey.

For a journey entirely within the Zone 1/2 overlap, if the customer does not touch off, the default fare the customer may subsequently pay may be higher than the fare they would have paid if they had touched off.

Touch on period

The conditions specified in the paragraphs under this heading apply notwithstanding anything to the contrary in the conditions specified in the paragraphs under the headings ‘Touch on/touch off conditions – train’, ‘Touch on/touch off conditions – bus’ and ‘Touch on/touch off conditions – tram’.

If a customer using myki Money does not touch off the myki within the product duration (refer to the table under the heading ‘Product duration’ in this Chapter)¹⁰, a default fare may be charged when the myki is next touched to a myki reader. For the purpose of this Condition, such a touch will also be treated as a touch on. If a default fare is charged in these circumstances, the customer will not receive the benefit of any off-peak discount that would otherwise have been applicable.

To prevent this from happening, a customer may touch off the myki before the end of the journey (provided that it is within the product duration), but must then touch the myki on –

- (a) in the case of a journey on a tram or a bus, immediately after the myki was touched off; or
- (b) in the case of a journey on a train, before resuming the journey.

In the case of a journey on a train, if a customer wishes to touch off and touch on a myki in accordance with the immediately preceding paragraph at a railway station with ticket barriers, it is necessary for the customer to exit and re-enter the barriers.

If a myki is touched off, but is not touched on again, the myki is no longer valid for the journey and any related entries to a compulsory ticket area.

If a myki is touched off and touched on again (in accordance with the fourth paragraph under this heading ‘Touch on period’) the myki must then be touched off in accordance with these Conditions at the end of the journey.

Touch on/touch off conditions – Night Coach network services

For a journey on a bus being used for a Night Coach network service, a customer must touch on the myki –

- (a) if the customer is boarding the bus at the Southern Cross railway station coach terminal, before boarding the bus, using the myki readers at that terminal; or
- (b) in all other cases, before boarding the bus, using the myki readers at the railway station from which the bus is departing.

However, this Condition does not apply if arrangements are in place to enable the myki to be touched on near or on board the bus and the myki is touched on accordingly.

For a journey on a bus being used for a night coach network service, a customer must touch off the myki, using the myki readers at the railway station where the customer leaves the bus, unless the myki has been touched off by staff on board the bus.

MINIMUM REQUIREMENTS FOR TRAVEL**Travel in one or two zones**

In order to touch on and commence travel, customers travelling in only one or two zones must have on their myki a myki Money balance of at least \$0.00.

If the customer touches on with a balance of \$0.00 and a debit (negative) balance is created as a result of a journey or entry to a compulsory ticket area, note that the Conditions in the fifth paragraph under the sub-heading ‘Payments and Transactions’ earlier in this Chapter apply.

Travel in three or more zones

Except as set out in the next succeeding paragraph, customers travelling in three or more zones must have on their myki before travel:

- (a) a myki Pass covering the relevant zones of travel for their entire journey and a myki Money balance of at least \$0.00; or

¹⁰ Special arrangements have been made regarding the product duration for travel on bus route number 684, to allow for the length of time it may take to complete a journey on that bus route.

- (b) a sufficient myki Money balance to pay for the entire journey; or
- (c) a myki Pass covering relevant zones of travel for part of the journey and a sufficient myki Money balance to pay for the remainder of the journey.

The requirements set out in the immediately preceding paragraph do not apply in respect of the initial journey authorised by a myki Smartcard purchased from a V/Line train conductor in accordance with the conditions under the heading ‘V/Line pre-loaded myki Smartcards’ in this Chapter.

Negative myki Money balance

If a customer’s myki has a valid myki Pass or other valid product and a negative myki Money balance, the myki is not valid for travel or entry to compulsory ticket areas in zones for which the myki Pass or other product is valid until the myki Money balance has been topped up to at least \$0.00.

myki on V/Line parallel coach services

myki Money cannot be used for any part of a journey on a V/Line parallel coach service.

A myki may be used for a journey on a V/Line parallel coach service only if –

- (a) there is on the myki a myki Pass that has been activated and is valid for all of the zones in which the customer will travel on that service; and
- (b) before the journey, the customer produces the myki to the coach driver for inspection, including electronic reading.

FUNCTIONING MYKI

A myki which is not able to be touched on in accordance with these Conditions is not valid for travel or entry to a compulsory ticket area.

MYKI PASS ADDITIONAL CONDITIONS

Once purchased, a myki Pass will be activated when the customer first touches the relevant myki on and off –

- (a) to travel;
- (b) to enter and exit a compulsory ticket area; or
- (c) to enter a compulsory ticket area –

within a zone for which the myki Pass is valid and for which there is no other existing product (such as another myki Pass or where travel has been paid for by myki Money) on the myki.

The myki Pass will be valid for the number of consecutive days authorised by it, commencing the day the myki Pass is activated.

A myki with a myki Pass loaded on it must be touched on and off as required in these Conditions to be validated for travel, even if it is already activated for the relevant day and zone(s) of travel.

A myki Pass must be activated within 12 months of purchase, or the pass will expire.

If a myki Pass is activated within 12 months of purchase, the myki Pass will be available for use subject to the Conditions in this Chapter.

Only one myki Pass may be active at a time, although two passes may be stored at any one time on a single myki. For example, a new myki Pass can be purchased before the expiry of an existing myki Pass, and will be activated when the customer touches on and off (in a zone for which the myki Pass is valid) after the expiry of the existing myki Pass.

FAILURE TO TOUCH ON AND TOUCH OFF CORRECTLY – DEFAULT FARES

If a customer fails to touch on and touch off in accordance with these Conditions, a default fare may be charged the next time the customer touches on.

Default fare amounts are specified in Tables H, I and J in Schedule 1 of these Conditions.

Default fares assume the customer took the longest possible trip on the service used and are calculated according to the same rules as the fare that would have been charged had the customer touched on and touched off in accordance with these Conditions.

Default fares – myki Money

In order for the myki ticketing system to calculate the lowest fare, customers must touch on and touch off in accordance with these Conditions.

If a customer using myki Money does not touch off in accordance with these Conditions, then a default fare may be charged. The default fare is the myki Money 2-hour fare for the relevant zone or zones. The concession discount (50 per cent) for customers using a Concession myki is applied.

On V/Line myki commuter train services, the conductor may reset the default fare up to the 2-hour fare for the zones of the entire route of the service in which the customer is travelling.

However, for a rail replacement coach service for any V/Line myki commuter train service that departs from the coach terminal at Southern Cross Railway Station, when a customer touches on at the myki readers at that terminal, the default fare will be the 2 hour fare for the longest route of those services (Zones 1 to 13).

Customers who fail to touch off will not receive the benefit of any off-peak discounts that would otherwise have been applicable if the customer had touched off.

The system will recognise a failure to touch off by the next touch immediately following a touch on being –

- (a) on a different mode of transport from the touch on;
- (b) on a different vehicle (tram or bus) from the touch on; or
- (c) after the expiry of the touch on period referred to earlier in this Chapter.

Where a customer fails to touch off and a default fare is payable, it will be deducted from the myki Money balance at the next touch on. If this results in a negative balance, the customer will be unable to successfully touch on and must top up their myki Money to a balance of at least \$0.00 to travel.

Where no product existed for the trip to which the default fare applies, the default fare will create a product for the appropriate zone(s) based on the time of the touch on to which the default fare applies, and permit travel until the expiry of this product.

The amount of any default fare deducted will count towards a daily cap for the day on which the touch on took place.

Notwithstanding anything in these Conditions, if –

- (a) a customer touches on at a railway station and fails to touch off; and
- (b) the customer touches on again on a tram or a bus less than two hours after the original touch on (modified or extended in accordance with the rules in this Chapter); and
- (c) either touch on occurs in Zone 1 –

a default fare will not be charged for the first journey and the system will perform a normal touch off for that journey based on the location of the second touch on and charge a normal fare for that journey.

Default fares – myki Pass

Customers using a myki with a myki Pass will not be charged a default fare unless they are commencing their journey outside the zone(s) for which their myki Pass is valid.

Conditions relating to myki Money apply for travel outside the zone(s) covered by the myki Pass (including default fares).

Default fares – V/Line train services

The conductor will reset the default fare for each customer's myki to reflect the end of the commuter train services zone boundary or Zone 1, depending on the direction of travel.

To ensure the customer is charged the lowest fare, they must touch off in accordance with the Conditions relating to touching off a myki. If the customer does not touch off, the default fare will be applied.

Failure to touch on

Where a customer attempts to touch off but did not touch on in accordance with the Conditions earlier in this Chapter relating to touching on a myki, the touch off will be processed by the system as a touch on. In this case a default fare may subsequently be charged.

If a default fare is charged, the customer will not receive the benefit of any off-peak discount that would otherwise have been applicable.

A customer who has not touched on in accordance with the Conditions earlier in this Chapter relating to touching on a myki, will not be able to exit via the ticket barriers at railway stations and must see a member of staff for assistance.

A customer who did not touch on in accordance with the Conditions earlier in this Chapter must, at the request of an authorised person, touch on at the ticket barrier and may subsequently be charged a default fare.

PASSBACK AND CHANGE OF MIND**Passback**

The passback periods on different modes of public transport are as follows –

- (a) on board trams – 5 seconds;
- (b) on board buses – 30 seconds;
- (c) at railway stations without ticket barriers – 30 seconds; and
- (d) at railway stations with ticket barriers – 5 seconds.

At a railway station with ticket barriers, a ticket may only be touched off at the paid area side of the barrier.

If a customer touches on at a ticket barrier and does not pass through the barrier at the time the ticket is touched on, the customer will not be able to use the myki to touch on or enter through the barrier.

Change of mind

At all railway stations the change of mind period ends 15 minutes after touch on.

There is no change of mind period on metropolitan and regional bus services and metropolitan tram services.

REGISTERED MYKI

Customers may request to register their myki at ptv.vic.gov.au or a website maintained by the Department of Transport or by calling **1800 800 007**.

If requested, the Head, Transport for Victoria will register a myki, subject to the following Conditions –

- (a) each registered myki must have a person registered with the Head, Transport for Victoria as an account holder;
- (b) the account holder will manage, and the cardholder will use, the registered myki in accordance with the rights and obligations given to each of them under these Conditions;
- (c) an account holder may manage multiple myki accounts and may manage a myki account on behalf of someone else. For example, a parent or guardian may manage a child's myki account;

- (d) the account holder can manage up to eight active myki (including their own);
- (e) the Head, Transport for Victoria is entitled to rely upon any instructions given by the account holder in relation to the registered myki; and
- (f) any money payable by the Head, Transport for Victoria in respect of the redemption of Value on a registered myki is only payable to the account holder.

Auto Top Up

Registered myki account holders can set an automatic top up of any amount between \$10 and \$250 to go onto their myki from a nominated bank account or credit card when the myki Money balance falls to or below a minimum threshold.

Auto Top Up cannot be used to top up a myki Pass.

Auto Top Up is only available for registered myki and can be set up –

- (a) online at **ptv.vic.gov.au** or a website maintained by the Department of Transport; or
- (b) through the PTV app; or
- (c) through the PTV call centre on **1800 800 007**.

When Auto Top Up is first set up, \$1 will be deducted from the customer's bank account or credit card and credited to the myki Money balance regardless of the balance on the myki. After this time the myki is topped up by the chosen amount as soon as the myki Money balance falls to or below the specified level.

If sufficient funds are not available in the bank account or on the credit card to cover the Auto Top Up transaction, the amount credited to the myki Money balance will be deducted from the myki balance and the Auto Top Up cancelled.

If a myki has a negative myki balance and an Auto Top Up does not take the balance up to the applicable minimum balance required for travel, as specified in this Chapter, the myki is not valid for travel or entry to a compulsory ticket area until the balance has been topped up to the minimum balance required for travel.

Lost or stolen registered myki

The cardholder or account holder must advise the Head, Transport for Victoria as soon as possible if a registered myki Smartcard, or personal electronic device containing a registered Mobile myki, is lost or stolen –

- (a) online at **ptv.vic.gov.au** or a website maintained by the Department of Transport; or
- (b) by calling **1800 800 007**; or
- (c) at a PTV Hub.

The Head, Transport for Victoria will deactivate the registered myki following notification by either the cardholder or the account holder that it is lost or stolen. The deactivated myki can no longer be used.

If a registered myki is lost or stolen, the cardholder or account holder has no liability in respect of that myki, or for any costs incurred using that myki, after the time the loss or theft of the myki is notified to the Head, Transport for Victoria, other than any fees which apply.

Where a registered myki has been lost or stolen, the cardholder or account holder may obtain a replacement registered myki, subject to complying with these Conditions, which, at the Head, Transport for Victoria's discretion, may involve payment of a fee as specified in these Conditions.

Where a registered myki has been replaced, the Head, Transport for Victoria will, after deducting any amounts owed to PTV and/or the Head, Transport for Victoria, transfer the Value and/or Product from the registered myki which is being replaced to the new registered myki.

UNREGISTERED MYKI

Protections for myki Money balances or myki Passes are not available for an unregistered myki if the unregistered myki is lost or stolen. An unregistered myki can be registered at any time.

AUTO LOAD

Auto Load is a feature of Google Pay that is available to Mobile myki users, whether or not their myki is registered with the Head, Transport for Victoria.

Auto Load allows a Mobile myki account holder to set an automatic top up amount selected from the following options: \$10, \$15, \$20, \$25, \$30, \$40 or \$50.

When Auto Load is set, if the myki account balance drops below the selected minimum threshold amount, it will be topped up by the chosen automatic top up amount as soon as the myki Money balance falls to or below the specified level.

The minimum threshold amount is selectable and can be any amount that is a multiple of 10 from \$10 to \$50.

The top up amount and minimum balance threshold amounts for Google Pay must be whole dollar amounts.

Auto Load cannot be used to top up a myki Pass.

If a Mobile myki has a negative myki balance and an Auto Load does not take the balance up to the applicable minimum balance required for travel, as specified in this Chapter, the myki is not valid for travel or entry to a compulsory ticket area until the balance has been topped up to at least the minimum balance required for travel.

MYKI AND V/LINE TICKETS ON V/LINE SERVICES

The following Conditions apply to the use of myki and V/Line tickets on V/Line Services.

Customers travelling on a V/Line myki commuter train service whose journeys are entirely within the myki zones shown on the 'Regional train myki zone map' (Figure D in Schedule 2 to these Conditions), must use a myki for the entire journey.

Customers travelling on a V/Line myki commuter train service whose journeys include travel within the myki zones shown on the 'Regional train myki zone map' (Figure D in Schedule 2 to these Conditions) but commence or end beyond those zones, must either –

- (a) have a valid V/Line ticket for the entire journey; or
- (b) use a myki Pass for all or part of the journey within the myki zones and have a valid Single or Daily V/Line ticket for the remainder of the journey.

myki Money cannot be used for any part of such a journey.

The Single or Daily V/Line ticket referred to in paragraph (b) above must be purchased before the journey.

To travel beyond the locations for which a Date-to-Date, Weekly or Monthly V/Line ticket is valid, customers must purchase a Single or Daily V/Line Ticket that is valid to cover the travel to the additional locations. A myki cannot be used to extend travel authorised by those ticket types.

MYKI SMARTCARD PURCHASE PRICE

The price of a myki Smartcard is as specified in Table 2 below.

Table 2

myki Smartcard type	Price
Full fare myki	\$6.00
Concession myki	\$3.00

There is no cost to purchase a Mobile myki but a minimum top up amount of \$10 or a myki Pass applies at purchase.

myki Explorer

The price of a myki Explorer pack is as specified in Table 3 below.

Table 3

	Card	Pre-loaded myki Money	Total price
Full fare myki	\$6.00	\$9.00	\$15.00
Concession myki (only Child and General Concession available)	\$3.00	\$4.50	\$7.50

V/LINE PRE-LOADED MYKI SMARTCARDS

A V/Line conductor may, at their discretion, give a customer travelling on a V/Line myki commuter train service, who does not have a ticket that is valid for the journey, the opportunity to purchase a myki Smartcard with an amount of pre-loaded myki Money.

The cost of a full fare pre-loaded myki Smartcard is \$30 (\$6 for the cost of the card and \$24 myki Money).

The cost of a Concession pre-loaded myki Smartcard is \$15 (\$3 for the cost of the card and \$12 myki Money).

When purchased, the pre-loaded myki Smartcard will be touched on by the conductor for that journey.

TOPPING UP MYKI

The nearest myki outlet for a customer to top up their myki can be found by accessing the myki location finder available from ptv.vic.gov.au or a website maintained by the Department of Transport.

myki-enabled bus services are now pre-pay only. Customers cannot purchase or top up a myki on board buses. Customers travelling using a myki on myki-enabled bus services will accordingly need to hold a myki and ensure the myki is topped up, as required in accordance with the conditions in this Chapter, prior to boarding.

CALCULATING MYKI MONEY FARES**myki Money fare amounts**

Except as otherwise specified in the immediately succeeding paragraph and in Chapter 1D, myki Money fare amounts are specified in Tables A-K in Schedule 1 to these Conditions.

For travel on regional buses operating on routes in and between certain locations that are myki-enabled, specified in the Victorian Regional Bus Fares Supplement, the relevant myki Money fares specified in that document apply.

From 31 January to 30 April 2021, different myki Money fare amounts apply for travel in zone 1 only or zones 1 + 2, as specified in Chapter 1D.

General conditions – myki Money fare calculation

myki Money fares are calculated automatically when the customer touches on and touches off their myki for each journey.

The appropriate fare deductions from the myki Money balance are made each time a customer touches off their myki.

Where a discount (for example, for concession or off-peak travel) would result in a fare which includes a fraction of a cent, the fare will be rounded to the nearest whole cent.

When customers using myki Money have a valid 2 hour or Daily product for their zone(s) of travel, no further fares are deducted for travel in the relevant zone(s) while the product is valid.

If the deduction of a fare results in a customer's myki Money balance falling below \$0.00, the customer will not be permitted to use myki Money to touch on again until they have topped up the myki to at least \$0.00 (even if they are within a zone for which a current product exists on the myki).

Fare calculation – single trip

The maximum fare for a single trip (other than a default fare) is the 2 hour fare for the zone(s) travelled in.

When a myki is touched off, a 2 hour product is created on the myki.

Subject to the conditions under the heading 'Product duration' in this Chapter, a 2 hour product authorises unlimited travel in the zone(s) travelled in until two hours after the myki was first touched on, except where the first touch on is made between 6pm and 12.59am, in which case the product expires at the end of the day.

Where a trip is entirely within a zone overlap, the fare charged and product created will be for the zone for which the fare is lowest. Where fares are the same in each zone, the fare charged and product created will be for the lower numbered zone.

Within the zone(s) covered by it, the 2 hour product authorises travel that extends beyond the time of its expiry, as long as the myki is touched on before that expiry, subject to the Conditions in this Chapter.

Fare calculation – Daily fare cap

Fares for daily travel are capped at a fixed daily price (the daily cap).

The daily cap is the maximum fare charged for unlimited travel in the zone(s) in which travel takes place on a single day.

Daily cap fare amounts are specified in Table A in Schedule 1 of these Conditions (except from 31 January to 30 April 2021, see Table 1 in Chapter 1D).

The daily cap for a Concession myki is 50 per cent of the full fare daily cap. myki keeps track of fares paid, and zones travelled in, during a day and when the total fares paid on a day reaches the daily cap for the zone(s) travelled in on that day, a daily product for the zone(s) is created on the myki.

A daily product is also created after a 2 hour fare is paid for a zone(s) in which a customer has previously travelled that day and for which the daily cap has been reached.

Once a daily cap has been reached, a customer can make unlimited journeys across all modes of public transport within the applicable zone(s) until the end of the day and pay no more than the daily cap fare.

As specified in these Conditions, different caps apply on certain days and cap the fare at a lower daily rate than the standard daily cap fare.

Weekend and public holiday daily fare cap

The weekend and public holiday daily fare cap specified in Table C of Schedule 1 to these Conditions applies to customers using myki Money to travel entirely within Zones 1 and 2 on a Saturday, Sunday or public holiday.

Fare calculation – existing products

Where a product already exists on a customer's myki (a 2 hour product, daily product or a myki Pass) that is valid for a zone(s) and the customer makes a journey that consists of, or includes, travel in a zone(s) for which the existing product is not valid, the fare for the journey is the 2 hour fare for all zones for which the existing product is valid combined with the zone(s) for which the existing product is not valid minus the 2 hour fare for all zones for which the existing product is valid. Where this occurs and the existing product is a 2 hour product, the product on the myki is changed to include the additional zone(s).

Fare calculation – discounts and free travel

Off-peak discounts

Note: Further to the below discounts, from 31 January to 30 April 2021, off-peak myki Money discounts apply to travel in zone 1 only or zones 1 + 2, as specified in Chapter 1D.

An off-peak discount of 30 per cent is applied to fares for all journeys in made in three or more zones except journeys where touch off occurs within Zone 1 before 9:00am on a business day or touch on occurs within Zone 1 between 4 pm and 6 pm on a business day.

The discount is applied after any concession discount.

Customers must touch on and touch off in accordance with the Conditions in this Chapter to receive the applicable off-peak discount. Customers who do not touch on and off in accordance with these Conditions will be charged a default fare that is a peak fare.

For customers travelling off-peak, the equivalent peak fare contributes toward the daily cap fare, even though a reduced fare is paid. For example, when a full fare customer travels in three zones off-peak, 100 per cent of the standard peak fare will be counted towards the daily cap even though only 70 per cent of the standard peak fare has been paid.

Free travel

The free travel entitlements for early bird travel and free weekend travel specified in Chapter 3 are applied automatically when an eligible customer touches on and touches off their myki, subject to the conditions in Chapter 3.

TELEBUSES AND THE TELEBUS SURCHARGE

There are several Telebuses operating on bus routes in the Mooroolbark, Lilydale, Croydon Hills, Chirnside Park and Rowville areas.

If customers board or leave a Telebus at one of the fixed stops in the area, they pay the usual myki fare for that journey.

If customers book a home pickup service or make a permanent booking to be picked up and dropped off at home, they must pay a surcharge on the usual myki fare for the bus service as specified in Table 4 below.

Table 4

	Full fare	Concession
Telebus surcharge	\$1.00	\$0.50

Demand-responsive transport services

Demand-responsive transport services are currently being trialled in Melbourne.

Customers may board or leave such services at one of the fixed or virtual bus stops in the area the service operates or, if they can reasonably demonstrate that they have an accessibility requirement, can make a booking to be picked up or dropped off at home.

Customers travelling on demand-responsive transport services (such as the Rowville FlexiRide service) in Melbourne using a myki will pay the usual myki fare for that journey.

The Telebus surcharge in Table 4 does not apply to travel on the demand-responsive services being trialled in Melbourne.

PRODUCT DURATION

To ensure customers are able to complete long journeys on V/Line services and on bus route number 684, where a myki touch off indicates that a journey consisting of travel in at least 3 zones has been made (since the last touch on), the expiry time of the product will be extended by an additional 30 minutes for every multiple of 3 zones travelled in.

In these cases, references to ‘2 hour products’ or ‘2 hour fares’ in these Conditions mean products or fares for 2.5, 3, 3.5 or 4 hours (as applicable) as set out in Table 5 below.

Table 5

Number of zones travelled in	Product duration
1–2	2 hours
3–5	2 hours 30 minutes
6–8	3 hours
9–11	3 hours 30 minutes
12–13	4 hours

TRAVEL BY MYKI PASS HOLDERS BEYOND MYKI PASS ZONE(S)

If a myki Pass holder wishes to travel outside the zone(s) for which the myki Pass is valid, but still within a myki zone, they can use myki Money to pay for the additional travel and must have sufficient myki Money on their myki, before travel, to pay for the additional travel.

The fare charged for the trip is the 2 hour fare for all zones for which the pass is valid combined with the additional zone(s) of travel, minus the 2 hour fare for all zones for which the pass is valid.

See conditions under the ‘Free weekend travel entitlements’ heading in Chapter 3 regarding a special condition that may apply to myki Pass holders using such entitlements.

Daily fare caps will continue to apply for travel outside the zone(s) for which a myki Pass is valid according to the Conditions in this Chapter under the heading ‘Calculating myki Money Fares’.

MYKI PASS FARE CALCULATION AND PASS TYPES

myki Pass fares are specified in Tables A-K in Schedule 1 to these Conditions.

Concession myki Pass fares are 50 per cent of the full fare.

If a myki Pass fare is shown as, or is calculated to be, an amount ending in a multiple of one cent, that amount may be rounded up to the next 10 cents at the point of sale. In that case, the rounded amount is deemed to be the fare.

7 DAY MYKI PASS

A 7 day myki Pass is valid within the zone(s) programmed on the pass from the day of activation until the end of the day six days after the day it was activated.

The fares applicable for a 7 day myki Pass are specified in Tables B, E and G of Schedule 1 to these Conditions.

28–365 DAY MYKI PASS

A 28–365 day myki Pass is valid for the relevant number of days (selected at purchase) within the zone(s) programmed on the pass from and including the day of activation.

The fares applicable for a 28–365 day myki Pass can be calculated by multiplying the number of days required by the myki Pass daily rate (full fare or Concession), as specified in Tables B, E and G of Schedule 1 to these Conditions.

When a myki Pass for 325–365 days is purchased, the fare will be the cost of a 325-day Pass (the equivalent of up to 40 days free).

Commuter Club myki Passes

A Commuter Club scheme is available for employers or other organisations to purchase 365-day myki Passes on behalf of the organisation’s employees, members or volunteers at a discounted rate of 10 per cent.

365-day myki Passes purchased through the Commuter Club are loaded onto a myki Smartcard. They can be purchased to authorise travel on metropolitan trains, trams and buses in Zones 1 and 2 or Zone 2.

myki Passes purchased through the Commuter Club are not available as Mobile myki.

The myki Commuter Club is only available to organisations and is not open to individuals.

An organisation requires a minimum of 10 people to register for Commuter Club.

Student Pass myki

A Student Pass is a type of fixed-date travel authority that is loaded onto a myki Smartcard and authorises unlimited travel for eligible persons on all public transport train, tram and bus services within the zone(s) of validity on weekdays and weekends (including school holidays and public holidays) until the expiry of the pass.

The pass is only valid for economy class travel on V/Line train and coach services.

When purchased, the Student Pass is loaded onto a myki Smartcard and the fee for the myki Smartcard is waived.

A Student Pass and PTV School Student ID can be applied for together.

Student Passes are not available for Mobile myki.

Eligibility

To be entitled to purchase a Student Pass for travel a customer must –

- (a) be a full-time primary or secondary school student who attends a primary or secondary school in Victoria; or

ZONES

For the purposes of these Conditions, public transport services on which myki can be used are divided into zones, and fares deducted are based on the zones in which travel occurs.

When a customer uses myki Money to travel in accordance with these Conditions, the zones in which the customer travels will automatically be taken into account and the correct fare calculated when the customer touches on and off.

To use a myki Pass for travel the customer must use a myki Pass that is valid for travel in the relevant applicable zone(s).

For the purpose of these Conditions and the definition of ‘**zone**’ in Chapter 11 –

Zone 1 means –

- (a) **for train services**, all railway stations specified on the Melbourne Train Network Map in Figure A of Schedule 2 to these Conditions that have the zone number 1 printed beside the name of the railway station; and
- (b) **for tram services**, all of the tramways depicted on the Melbourne Tram Network Map in Figure B of Schedule 2 to these Conditions; and
- (c) **for bus services**, the bus routes, or parts of bus routes –
 - (i) specified as being in Zone 1 in the paragraphs and tables under the headings ‘Zones for metropolitan bus routes’, ‘Zones for Metropolitan bus routes extending outside the Melbourne metropolitan area’, ‘Zones for other bus routes’ and ‘Zones for Night Bus network routes’ in the document entitled ‘Victorian Bus Zones and Maps’ published on PTV’s website or a website maintained by the Department of Transport and as amended or replaced from time to time;
 - (ii) depicted as being in Zone 1 on a map under the heading ‘myki zones for the regional bus network’ in the document entitled ‘Victorian Bus Zones and Maps’ published on PTV’s website or a website maintained by the Department of Transport and as amended or replaced from time to time; and
- (d) **for V/Line parallel coach services and night coach network services**, all railway stations specified on the Regional train myki zones map in Figure D of Schedule 2 to these Conditions that have the zone number 1 printed beside the name of the railway station.

Zone 2 means –

- (a) **for train services** –
 - (i) all railway stations specified on the Melbourne Train Network Map in Figure A of Schedule 2 to these Conditions that have the zone number 2 printed beside the name of the railway station; and
 - (ii) all railway stations specified on the Regional train myki zones map in Figure D of Schedule 2 to these Conditions that have the zone number 2 printed beside the name of the railway station; and
- (b) **for tram services**, the parts of the following tramways depicted on the Melbourne Tram Network map in Figure B of Schedule 2 to these Conditions –
 - (i) Route 75 to Vermont South – Camberwell Road south-east of Bourke Road (Camberwell Junction) and Burwood Highway to the end of the route;
 - (ii) Route 86 to Bundoora – Plenty Road north-east of Tyler Street, Preston, to the end of the route;
 - (iii) Route 109 to Box Hill – Whitehorse Road east of Balwyn Road, Balwyn, to the end of the route; and
- (c) **for bus services**, the bus routes, or parts of bus routes –
 - (i) specified as being in Zone 2 in the paragraphs and tables under the headings ‘Zones for Metropolitan bus routes’, ‘Zones for Metropolitan bus routes extending outside the Melbourne metropolitan area’, ‘Zones for other bus routes’ and ‘Zones for Night Bus network routes’ in the document entitled ‘Victorian Bus Zones and Maps’ published on PTV’s website or a website maintained by the Department of Transport and as amended or replaced from time to time; or

- (ii) depicted as being in Zone 2 on a map under the heading ‘myki zones for the regional bus network’ in the document entitled ‘Victorian Bus Zones and Maps’ published on PTV’s website or a website maintained by the Department of Transport and as amended or replaced from time to time; and

V/Line myki commuter train zone means all railway stations specified on the Regional train myki zones map in Figure D of Schedule 2 to these Conditions that have the relevant zone number between **3 and 13** inclusive printed beside the name of the railway station.

For the purpose of these Conditions, the number of V/Line myki commuter train zones in which a customer travels is deemed to be the number derived by subtracting the zone number of the lowest numbered train station that forms part of the relevant journey from the zone number of the highest numbered train station that forms part of the journey and adding one.

Regional bus zone means the bus routes, or parts of bus routes, depicted as being in a zone with a zone number between **3 and 13** inclusive on a map under the heading ‘Regional bus network myki zone maps’ in the document entitled ‘Victorian Bus Zones and Maps’ published on PTV’s website or a website maintained by the Department of Transport as amended or replaced from time to time.

CHAPTER 5: NON-MYKI V/LINE SERVICES

V/LINE TICKETS – GENERAL CONDITIONS

V/Line tickets are issued in respect of, and authorise travel on, the regional train and coach services provided by V/Line, operating between the origin and destination printed on the ticket, subject to the Conditions specified in this Chapter and all other relevant Conditions.

V/Line tickets also authorise travel on metropolitan trains, trams and buses and local bus services in some regional cities as specified in this Chapter.

The purchase of a ticket for a V/Line train does not guarantee a seat for all or any part of the journey except where a reservation has been made on a long-distance service.

V/Line tickets are either machine-printed or handwritten by staff.

V/Line customers who intend to, or who are required to, rely on a V/Line ticket to travel must purchase the ticket before travel where a reasonable opportunity exists to do so. If this is not possible by taking all reasonable steps before the journey, the ticket must be purchased as soon as there is a reasonable opportunity to do so during the journey or, if there is no reasonable opportunity during the journey, at the completion of the journey.

If the location where the customer boards a V/Line train or coach has facilities for the purchase of tickets (e.g. a staffed V/Line railway station or a V/Line ticket agent) the customer is deemed to have had a reasonable opportunity to purchase a ticket before travel.

If a customer boards a V/Line service at an unstaffed V/Line railway station or a roadside coach stop, they may purchase a ticket from the train conductor or coach driver (unless the journey will be entirely within the V/Line myki commuter train zone).

A reservation is compulsory on most long-distance V/Line services.

Conditions regarding the use of myki on V/Line Services are specified under the heading ‘myki and V/Line tickets on V/Line services’ in Chapter 4 of the Conditions.

- (a) arrive in Melbourne (Southern Cross, Flinders Street, Richmond or Footscray) before 8.59 am; or
- (b) depart Melbourne between 4pm and 6pm.

Such V/Line services are ‘peak’ services.

Customers holding an off-peak ticket travelling on a peak service must purchase an Off-peak Single Upgrade. The fare for such an upgrade is specified in Table L of Schedule 1 to these Conditions.

Off-peak Single and Off-Peak Daily V/Line tickets are valid without time restrictions on weekends and public holidays.

CONDITIONS FOR ADDITIONAL TRAVEL AUTHORISED BY V/LINE TICKETS

Customers holding a Single or Off-peak Single V/Line ticket that –

- (a) is issued at a railway station that is not within a myki zone as indicated on the ‘Regional train myki zones map’ next to each station (see Figure D of Schedule 2 to these Conditions); and
- (b) authorises travel to or from Melbourne, or to or from some regional city railway stations – are authorised to travel in the metropolitan zone(s), or on the regional city transport network, as specified by the code printed on their ticket (see key for this code below), for one hour before and one hour after their V/Line journey.

To access this additional travel, customers must have their ticket endorsed on arrival at a metropolitan Premium Railway Station or at a staffed V/Line railway station.

Customers holding a Daily, Off-peak Daily, Weekly, Monthly or Date-to-Date V/Line ticket that –

- (a) is issued at a railway station that is not within a myki zone as indicated on the ‘Regional train myki zones map’ next to each station (see Figure D of Schedule 2 to these Conditions); and
- (b) authorises travel to and from Melbourne, or to and from some regional city stations – are authorised to all day travel before and after their V/Line journey within the metropolitan zone(s), or on regional city transport network, specified by the code printed on their ticket (see key for this code below).

Key for additional travel codes

The following codes printed on V/Line tickets specify the metropolitan zones or regional city bus networks in which the additional travel, as specified under the heading ‘Conditions for additional travel authorised by V/Line tickets,’ is authorised –

- (a) Z1 + 2 – metropolitan Zone 1 + 2;
- (b) Z2 – metropolitan Zone 2;
- (c) BTS – Ballarat Transit Service or Bendigo Transit Service;
- (d) GTS – Geelong Transit Service; and
- (e) T/Bus – Town Bus in Moe, Morwell, Traralgon, Seymour, Kilmore East or Wallan.

CALCULATING V/LINE TRAIN FARES

V/Line fares are calculated by –

- (a) determining the number of charging units between the origin and destination (see method set out under the heading ‘Calculating charging units’ in this Chapter);
- (b) determining the fare by referring to the relevant ticket type and the charging units applicable to the journey in Table L in Schedule 1 to these Conditions; and
- (c) adding the cost of an upgrade (to first class or from off-peak to peak) to the fare calculated, if applicable (as specified in Table L in Schedule 1 to these Conditions).

CALCULATING CHARGING UNITS

V/Line fares are based on the shortest route between a customer’s origin and destination, unless they choose to take a less direct route.

The charging units that apply between different locations for the purposes of fare calculation are specified in Table M titled ‘Melbourne to’ charging units’ in Schedule 1 to these Conditions.

The following Conditions specify how V/Line charging units for different types of journey are calculated:

Travel from regional location to/from Zone 1

For travel between a regional location and a railway station in Zone 1, the applicable charging units are specified next to the name of each regional location in Table M of Schedule 1 to these Conditions.

Travel from regional location to/from Zone 2 (on same railway line)

For travel between a regional location and a railway station in Zone 2, before entering Zone 1, on the same line, subtract 50 charging units from the number of charging units specified next to the relevant regional location of origin (in Table M in Schedule 1 to these Conditions).

Travel from regional location to/from another regional location (outside of Zones 1 & 2 and on same railway line)

For travel between regional locations on the same railway –

- (a) subtract the number of charging units specified next to the destination regional location in Table M in Schedule 1 to these Conditions from the number of charging units specified next to the origin location in Table M in Schedule 1 to these Conditions; and
- (b) round the number up to the next multiple of 10 charging units in Table L of Schedule 1 to these Conditions (10, 20 or 50 charging units).

Example calculations – journey from regional location to another regional location on same line or route)***Echuca to Kyneton***

Melbourne to Echuca = 220 charging units

Melbourne to Kyneton = 92 charging units

220 units minus 92 units = 128 charging units

Round up to nearest 10 = 130 charging units

Albury to Seymour

Melbourne to Albury = 320 charging units

Melbourne to Seymour = 99 charging units

320 units minus 99 units = 221 charging units

Round up to nearest 20 = 240 charging units

Regional location to/from another regional location (on different railway line)

For travel between a regional location and a regional location on a different railway line –

- (a) add the charging units of the origin location and the destination location as specified in Table M in Schedule 1 to these Conditions; and
- (b) round the number up to the next multiple of 10 charging units in Table L of Schedule 1 to these Conditions (10, 20 or 50 charging units).

Example calculation – journey from regional location to another regional location (on different line)***Bairnsdale to Geelong***

Melbourne to Bairnsdale = 274 charging units

Melbourne to Geelong = 73 charging units

274 units plus 73 units = 347 charging units

Round up to the nearest 20 = 360 charging units

CALCULATING V/LINE COACH FARES

Fares for travel to and from Melbourne and a regional location on a single V/Line coach journey are calculated using the same method as for V/Line train travel between Melbourne and a regional location as specified under the heading ‘Travel from regional location to/from Zone 1’ in this Chapter.

For coach fares applicable between two regional locations, contact PTV on **1800 800 007** or visit **vline.com.au**

RESERVATIONS

Reservations for travel are compulsory on most V/Line coach services, all Link services, all Mildura coach services, and train services travelling to/from Albury, Bairnsdale, Shepparton, Swan Hill and Warrnambool.

Reservations for Free Travel Pass holders and infants may be made free of charge.

FIRST CLASS TRAVEL

V/Line provides first class seating on selected train services that travel to and from Albury, Bairnsdale, Shepparton, Swan Hill and Warrnambool.

To travel in a first class seat the customer must make a seat reservation and pay an upgrade fee in addition to the usual fare. The upgrade fee is specified in Table N of Schedule 1 to these Conditions.

First class seating is not available on V/Line coaches.

Unless boarding at an unstaffed station, customers that wish to travel in a first class seat must purchase a first class ticket or upgrade before boarding.

Conductors will only sell first class upgrades to customers boarding at unstaffed stations.

Customers can alternatively use a First class 'Multi Card' to upgrade an Economy V/Line ticket to a first class V/Line ticket as specified in these Conditions.

First class fares

A first class V/Line fare is calculated by adding a first class upgrade fee to the relevant economy fare for the journey.

First class upgrade fee

The first class upgrade fee is the same for all ticket types, and applies to full fares and concession fares. The upgrade fee is specified in Table N of Schedule 1 to these Conditions.

First class upgrades for regular travellers (Multi Cards)

To obtain a discounted first class upgrade fare, regular first class travellers can purchase a First class upgrade Multi Card which includes –

- (a) 10 first class upgrades for journeys that are less than 100 charging units; or
- (b) 5 first class upgrades for journeys that are 100 charging units or greater.

First class Multi Cards are undated and must be clipped by the conductor on board at the time of travel. To validate the first class upgrade for the journey the conductor will clip –

- (a) one upgrade for customers taking a journey that has less than 100 charging units; and
- (b) two upgrades for customers taking a journey that has more than 100 charging units.

Refunds on First class upgrades

Customers may claim a refund of a first class upgrade fee if first class carriages are not available on the reserved service due to operational changes in trains or if the first class carriage is full on short distance services.

Refunds are not available for First class Multi Cards as the card is not clipped by a conductor if the first class seating is not available.

CHAPTER 6: NON-MYKI REGIONAL BUS TICKETS

Regional bus tickets are paper tickets which are issued in respect of, and may be used to authorise travel on, regional bus services and some train services in and between the regional towns and cities specified in these Conditions and as published in the Victorian Regional Bus Fares Supplement.

The Conditions below set out the regional bus ticket types, the travel that they authorise and conditions of travel specific to the ticket type, which apply unless an exception is specified in the Victorian Regional Bus Fares Supplement.

A customer may commence travel on any local bus (or train, if applicable) service before the ticket expires, even if the journey extends beyond the ticket's expiry time.

If a service is running late, the customer may still use a ticket, provided the service was scheduled to leave before the ticket expired.

If a scheduled service that would have left before the ticket expired does not run, the customer may travel on the following service.

- (d) the minimum number of persons who may travel using a Group Travel Authority or V/Line Group Travel Ticket for this purpose is 12; and
- (e) the maximum number of persons (whether in one or more groups) who may travel using a Group Travel Authority or V/Line Group Travel Ticket for this purpose per service or per carriage (as specified below) is the number set out in Table 8 below.

The Head, Transport for Victoria, Metro Trains Melbourne or V/Line (as the case requires) may exercise discretion on a case-by-case basis to issue a Group Travel Authority or V/Line Group Travel ticket to a preschool or primary school group to travel for free outside the above Conditions. Group Travel Authority or V/Line Group Travel Tickets issued outside of the above Conditions will be subject to service availability and other reasonable considerations.

‘Off-peak times’, for the purposes of free travel for preschool and primary school groups using a Group Travel Authority or V/Line Group Travel Ticket, means –

- (a) a school day –
 - (i) between 9.30 am to 3.30 pm; and
 - (ii) after 6 pm when travelling on V/Line services; or
 - (iii) after 7 pm when travelling on metropolitan services; or
- (b) any time on a weekend day.

Table 8

Metropolitan		V/Line	
Bus	25 (per service)	Train	35 per service
Train	35 (per carriage)		
Tram	35 (per service)	Coach	20 per service

On and from 1 January 2021, a primary school group that has a Prepaid Travel Authority that was issued prior to 1 January 2021, in accordance with the Victorian Fares and Ticketing Conditions in effect at the time, may use that Authority to travel, as authorised on the face of the ticket and in accordance with the above 2021 Conditions.

SPECIAL EVENT AND CONFERENCE TICKETING

For the purpose of the following Conditions under this heading, ‘participant’ means an event or conference participant, attendee, spectator, delegate, member, and includes persons attending the event or conference using complimentary tickets.

Organisers of large events and conferences may arrange special public transport ticketing for the event’s participants through prior arrangement with the Department of Transport.

Volunteers for the relevant event may be provided with special event public transport tickets together with other participants but special event ticketing is not available for volunteers alone without tickets being provided for other attendees.

The Department will provide eligible and approved event organisers who pay the required fees, as specified below, with a branded artwork template for the organisation to use as the event participant pass.

The participant pass can then be used by participants as a special event public transport ticket to allow access to public transport.

Event eligibility

To be eligible to purchase special event public transport tickets, the event or conference must meet the following Conditions and be approved by the Head, Transport for Victoria –

- cater for 500 or more participants per day;
- be held in the Melbourne metropolitan area which is serviced by high capacity public transport (For example, MCG, Melbourne Olympic Park, Melbourne Convention and Exhibition Centre, Caulfield Race Course, Royal Melbourne Showgrounds);
- be planned so attendees can attend on public transport; and
- the participant pass for the event must display details, and be in a form, required by the Head, Transport for Victoria or the Department of Transport.

Entitlement to travel

A special event public transport ticket authorises unlimited travel on metropolitan train, tram and bus services within Zones 1 + 2 on the day/s of the event or conference for the participant.

Pricing

For special event public transport tickets, a fee of \$3 per participant, per day for the total number of participants and the total time of the event or conference applies (including participants attending the event using a complimentary pass). For example, special event public transport tickets for a four-day conference with 1,300 participants would cost \$15,600 (1,300 x \$3 x 4 days).

Due to the low price of \$3 per day, all participants must be paid for, whether the participants use public transport or not.

The \$3 fee does not guarantee that capacity on existing public transport services will be available and does not include the cost of providing additional public transport services.

An initial instalment of 25% of the total cost of the event ticketing is to be paid to the Head, Transport for Victoria or the Department of Transport at least 10 days before the event.

TRAVEL PASSES

Day, 7 Day or 30 Day Travel Passes are paper tickets that are –

- (a) issued on behalf of the Head, Transport for Victoria by a community service organisation or charity authorised to do so by the Head, Transport for Victoria through an employee or volunteer of, or a person engaged by, that organisation or charity;
- (b) in the case of Day Travel Passes only, issued to a person to whom a Free Travel Voucher has been issued, in exchange for that voucher; or
- (c) in the case of Day Travel Passes only, issued on behalf of the Head, Transport for Victoria by the driver of a bus operating on bus route 787 or 788 to a customer presenting his or her Victorian Seniors Card for the fare set out in Table O in Schedule 1 to these Conditions.

Entitlement to travel

A Day, 7 Day or 30 Day Travel Pass entitles the holder to unlimited travel during the day, 7 Days or 30 days for which the Travel Pass is valid on –

- (a) any metropolitan train, tram or bus service, in Zones 1 and/or Zone 2;
- (b) any V/Line train services in Zone 1 and/or Zone 2; and
- (c) myki-enabled regional bus services.

Validity

- (a) A Day Travel Pass is valid for the day the date of which is hole punched on the Day Travel Pass.
- (b) A 7 Day or 30 Day Travel Pass is valid for the relevant period (7 days or 30 days), commencing on the date which is hole punched on the 7 Day or 30 Day Travel Pass.
- (c) The relevant day, month and year that the Day, 7 Day or 30 Day Travel Pass is to be valid on or from must be hole punched by the issuer of the relevant Travel Pass.
- (d) If the day, month and year are not all hole punched by the issuer of the relevant Travel Pass, the Travel Pass is not valid.
- (e) The day for which, or from which, a Day, 7 Day or 30 Day Travel Pass is valid can be a later date than the date on which it is issued.
- (f) If a Day, 7 Day or 30 Day Travel Pass has more than one day, month or year hole punched, the Travel Pass is not valid for any journey or entry to a compulsory ticket area at any time.
- (g) A Day Travel Pass that is correctly hole punched in accordance with the above conditions may, before the date hole punched on the Travel Pass, be exchanged at a staffed railway station for another Day Travel Pass that is hole punched with a later date.
- (h) A Day Travel Pass cannot be exchanged on or after the date that is hole punched on the Day Travel Pass.
- (i) If a Day, 7 Day or 30 Day Travel Pass is lost or stolen it will not be replaced.

AIRPORT SERVICES**SkyBus**

myki, V/Line tickets, Free Travel Passes, public transport concessions and other tickets specified in these Conditions are not accepted by SkyBus.

CHAPTER 8: TICKETING REPLACEMENTS, REFUNDS AND REIMBURSEMENTS

MYKI REPLACEMENTS

In cases where a customer is eligible for a replacement myki Smartcard (other than a replacement that may be provided on-the-spot, as specified below), the customer is required to use another myki until a replacement myki Smartcard is posted to them.

If a customer has been required to surrender their myki Smartcard to enforcement staff, specific Conditions apply with respect to replacement tickets as set out in this Chapter.

Eligibility for Replacement myki

Replacements – Expired, defective or damaged myki

A myki is considered ‘defective’ if it is unable to be electronically read, or if it processes fares incorrectly, and the ticket has not been visibly damaged or electronically interfered with.

myki Smartcards

A customer may obtain a free on-the spot replacement myki Smartcard at any staffed myki-enabled railway station or PTV Hub if the myki Smartcard –

- (a) has expired, or is due to expire within 60 days;
- (b) is used by a customer correctly, in accordance with these Conditions, but is defective; or
- (c) is damaged such that it has become non-operational.

To obtain a replacement myki Smartcard at staffed myki-enabled railway stations or PTV Hubs, the customer must provide their expired, defective or damaged myki Smartcard.

If a customer is entitled to a free replacement myki Smartcard, the replacement myki must be of the same myki Smartcard category (full fare or Concession type) as the original myki.

Customers with a personalised myki Smartcard who want a replacement that is personalised cannot obtain a replacement myki on-the-spot and must apply for a personalised myki Smartcard online as specified below.

Mobile myki

A replacement myki must be purchased by the customer –

- (a) when a Mobile myki is expired;
- (b) when a Mobile myki is used by a customer correctly, in accordance with the Conditions set out in Chapter 4, but is defective; or
- (c) if the personal electronic device containing a Mobile myki is damaged, and the Mobile myki is non-operational.

There is no cost to purchase a Mobile myki. However, there is a minimum top-up requirement of \$10 upon purchase.

A charge may be imposed if the customer elects to purchase a myki Smartcard as the replacement.

Replacements – Lost or stolen myki

Registered myki

myki Smartcard

Registered myki Smartcards are eligible for free replacement if the ticket is lost or stolen.

Customers may request a myki Smartcard to replace a lost or stolen registered myki Smartcard through the PTV call centre or PTV Hub when the cardholder or account holder reports their myki lost or stolen, or via an online application as specified below.

Mobile myki

If the personal electronic device containing a Mobile myki is lost or stolen a replacement myki must be purchased by the customer.

There is no cost to purchase a Mobile myki. However, there is a minimum top-up requirement of \$10 upon purchase.

A charge may be imposed if the customer elects to purchase a myki Smartcard as the replacement.

Unregistered myki

An unregistered myki that is lost or stolen is not eligible for replacement.

Applying for a replacement myki Smartcard online

To apply for a replacement myki Smartcard an eligible customer may complete a 'Replace your myki' form, available on PTV's website or a website maintained by the Department of Transport.

In the case of a replacement application for a myki Smartcard that is expired, defective or damaged, the customer must post the Replacement Request Receipt (received upon submitting the 'Replace your myki' application form) along with the myki Smartcard they are seeking to replace, to PTV (see postal address under the heading 'myki mailbox' in this Chapter).

A replacement myki Smartcard will be issued and posted to the customer or account holder once the customer's application form is processed and the myki to be replaced is received by PTV, provided that the myki Smartcard is eligible for replacement.

Transfer of remaining balance to replacement myki***Balance Transfers – myki Smartcards***

When an eligible myki Smartcard is replaced pursuant to these Conditions, any remaining myki Money balance and/or myki Pass loaded on the myki Smartcard will be transferred to the replacement myki.

A transferred myki Pass will be reactivated when the customer next touches on and travels in a zone for which the pass is valid.

Balance transfers for on-the-spot replacements at staffed myki-enabled railway stations or PTV Hubs

Where a replacement myki Smartcard is provided on-the-spot at a staffed myki-enabled railway station or PTV Hub and the myki Smartcard being replaced can be electronically read (for example, where the myki has expired), the myki Money balance and/or remaining myki Pass from the old myki Smartcard can be transferred immediately to the replacement myki Smartcard.

If the old myki Smartcard has a negative myki Money balance the customer must top up the replacement myki to a balance of at least \$0.00 before it can be used.

Where a replacement myki Smartcard is provided at a staffed myki-enabled railway station or PTV Hub, and the myki Smartcard being replaced cannot be electronically read (for example, a non-operational myki Smartcard), the balance transfer may take up to seven days.

If the customer needs to travel using the replacement myki Smartcard in the meantime, they must top up the myki.

Where a customer has requested a replacement for an expired or defective myki Smartcard by submitting the online application form, and the customer has purchased another myki Smartcard in order to continue travelling, pending receipt of the replacement myki, the customer can call **1800 800 007** to request a reimbursement of the Smartcard purchase price when the replacement process is complete.

Balance transfers for online replacement applications

Except in the circumstances specified below, where an online replacement application is successful, the remaining balance transferred from the original myki Smartcard will be included on the replacement myki Smartcard that is posted to the customer or account holder.

Where a myki Smartcard is issued to replace a myki that is due to expire within 60 days but has not yet expired, the remaining balance from the original myki Smartcard will not transfer to the replacement myki until up to 5 days after the original card expires. The balance that transfers to the new myki Smartcard after the original myki expires may not be available on the new Smartcard until around 10 business days after the expiry date of the original card.

Balance transfers – Mobile myki

If a customer replaces a Mobile myki by purchasing a new myki, the value remaining on the original Mobile myki can either –

- (a) be refunded to the customer's or account holder's nominated bank account; or
- (b) be transferred to a myki Smartcard or other Mobile myki –

unless the original Mobile myki was unregistered and the personal electronic device on which it was stored is lost or stolen.

A transfer or refund request can be made at a PTV Hub or by calling **1800 800 007**. Refunds may also be requested by completing the 'Apply for refund' online form as specified in this Chapter.

Transfer of Student Pass to replacement myki

A myki Smartcard containing a Student Pass that is eligible for replacement pursuant to the Conditions set out in this Chapter can be replaced on-the-spot with a new myki Smartcard containing a Student Pass, but only at the location at which it was originally purchased.

Transfer of Free weekend travel entitlements to replacement myki

If a Concession myki Smartcard of a concession category that receives a free weekend travel entitlement, other than a Victorian Seniors concession, (i.e. Disability Support Pensioner, Carer Payment recipient and Victorian Carer Card holder concessions) cannot be electronically read and is replaced at a staffed railway station or a PTV Hub, the free weekend travel entitlement will not be immediately transferred to the replacement myki Smartcard.

In such cases, the free weekend travel entitlement will be transferred to the replacement myki Smartcard within 24 hours. If the relevant Concession myki Smartcard that is to be replaced can be electronically read, the free weekend travel entitlement can be immediately transferred to the replacement myki Smartcard.

If a Victorian Seniors category Concession myki Smartcard is replaced at a staffed railway station or a PTV Hub, it will be replaced with another Victorian Seniors category Concession myki Smartcard that contains free weekend travel entitlements immediately.

If a customer who usually has free travel entitlements travels on a Saturday or Sunday before their replacement myki is updated to contain the entitlements, they may be charged a fare. Customers charged for travel on a weekend when they are entitled to travel for free should call **1800 800 007** to claim a reimbursement.

MYKI REFUNDS

Refunds of myki Money balance and/or unexpired myki Pass value are available to customers subject to the following conditions.

If, pursuant to these Conditions, a person is entitled to a refund, or a transfer to a new myki, of the myki Money balance recorded on a myki, the person is also entitled to a refund or transfer to a new myki (whichever is applicable) of any amount paid to the Head, Transport for Victoria to be recorded as myki Money on the myki, but which had not been so recorded by the time the relevant refund or transfer is made.

If a customer has been required to surrender their myki Smartcard to enforcement staff, specific Conditions apply with respect to refunds, as set out in this Chapter.

Only full refunds can be made.

Once a myki balance is refunded the myki is cancelled and can no longer be used for travel.

Refunds – unused value

A customer may apply to have the remaining value (myki Money balance and/or any unexpired myki Pass days) on their myki refunded, except in the case of an unregistered myki that is lost or stolen.

No refunds are available for expired myki Passes. However, in specific circumstances, reimbursements may be available as specified under the ‘myki Reimbursements’ heading in this Chapter.

The cost of a myki Smartcard itself is non-refundable.

myki Pass refund calculations

If a myki Pass has already been activated when a refund application is made, the refund amount is calculated –

- (a) based on the difference between –
 - (i) the full purchase price of the myki Pass; and
 - (ii) the amount the customer would have been required pay for travel authorised by the Pass on the days for which the Pass was active; and
- (b) from the day the refund application was submitted (not the day the myki Pass was last used).

The amount referred to in sub-paragraph (a)(ii) above is calculated based, as far as possible, on the applicable myki Pass fares for the relevant days and, to the extent this is not possible, on the applicable myki Money daily cap fare for the zone or zones for which the pass was valid, without the application of any other caps or off-peak discounts.

Refunds – lost or stolen myki

Registered myki that is lost or stolen

A registered myki that is reported as lost or stolen is eligible for a refund of myki Money balance and/or any unexpired myki Pass days.

If a registered myki is reported as lost or stolen, a refund application can be made regardless of whether the myki is being replaced or a replacement application is made.

For a Mobile myki, the value remaining on the Mobile myki can only be refunded from the registered Mobile myki to the cardholder or account holder’s nominated bank account. Alternatively, the balance can be transferred to a myki Smartcard or other Mobile myki.

Unregistered myki that is lost or stolen

An unregistered myki that is lost or stolen is not eligible for a refund of myki Money balance or unexpired myki Pass days under any circumstances, including if the transaction to load the value onto the myki can be verified by EFTPOS, credit card or other payment type.

Conditions applicable to refund applications

Except in the case of a registered myki that the customer or account holder has reported as lost or stolen, refund applications can only be considered if the following Conditions are met –

- (a) if applying for a refund via the application form, the form has been completed correctly;
- (b) a claim is submitted no later than five years after the myki was last used;
- (c) the sale of the myki can be traced;
- (d) documentary evidence of any claim is included with the application, if requested by PTV; and
- (e) in the case of a myki Smartcard (except a myki Smartcard containing a Free Travel Pass), the card that is the subject of the refund application is sent to PTV (see postal address under the heading ‘myki mailbox’ in this Chapter) along with the Refund Request Receipt received upon completion of the online refund application form (or the Refund Request Receipt number if the request was made by phone).

A customer is not required to send their myki Smartcard to PTV in order to receive a refund of money loaded onto a myki that contains a Free Travel Pass. Otherwise, standard refund conditions apply.

If a registered myki is managed by a separate account holder, a refund will be provided to the account holder.

Commuter Club customers with a registered myki may nominate for the refund to be sent to the myki account holder or the Commuter Club organiser.

Applying for a refund

Customers with a myki that is eligible for a refund under these Conditions can apply for a refund by –

- (a) completing the online ‘Apply for Refund’ form on the PTV website or a website maintained by the Department of Transport (which can be completed as an anonymous customer or a registered customer);
- (b) calling **1800 800 007**; or
- (c) visiting a PTV Hub.

myki Smartcard

In the case of a refund application regarding a myki Smartcard, unless it is reported as lost or stolen, the Smartcard must be –

- (a) posted to PTV (see postal address under the heading ‘myki mailbox’ in this Chapter); or
- (b) provided to the PTV Hub –

for the application to be processed, along with the Refund Request Receipt (the receipt received upon submitting a refund request via the ‘Apply for Refund’ online form) or the Refund Request Receipt number if the request was made by phone.

Once the refund is processed, the myki Smartcard will be blocked from further use (except in the case of a refund processed for a myki containing a Free Travel Pass).

Mobile myki

In the case of a refund application regarding a Mobile myki, unless it is reported as lost or stolen, the customer must provide the Mobile myki ticket number to PTV with the refund application, to identify the specific myki.

To verify that the customer applying for the refund is the Mobile myki holder, the first 4 and last 4 digits of the credit or debit card last used to make a transaction on the Mobile myki requested for refunding must be provided on request. These details are used for account verification only and will not be used for any other purpose. These details may be included by the customer when applying for a refund or a PTV representative may contact the customer to acquire this information.

Once the refund is processed the Mobile myki will be blocked from further use.

Special refund categories

Refunds for international visitors

On-the-spot refunds are available at the PTV Hub at Southern Cross Station where the following eligibility criteria are met –

- (a) the remaining balance on the myki is between \$5 and \$50;
- (b) the myki Smartcard or Mobile myki holder produces photo identification to prove an international address; and
- (c) where the myki is registered, registration details must match the name on the international identification.

The minimum on-the-spot refund is \$5 and the maximum is capped at \$50 for all myki types.

International Undergraduate Student Education Pass refunds

Students with an iUSEpass must contact the institution that issued the pass to apply for an iUSEpass refund.

Institutions will provide a refund for an unused iUSEpass according to iUSEpass refund rules and may, at their discretion, apply an administration fee.

MYKI REIMBURSEMENTS

In the following cases, and subject to the following Conditions, a reimbursement of myki Money or a myki Pass which has been used may be available to a customer on application.

Where a myki is managed by a separate account holder, and a reimbursement claim is successfully processed, the reimbursement will be provided to the account holder (except for Commuter Club customers, where the reimbursement may be sent to the Commuter Club organisation).

Reimbursement applications can only be considered if the following Conditions are met –

- (a) if applying for a reimbursement via the online ‘Apply for Reimbursement’ form (available on PTV’s website or a website maintained by the Department of Transport), the form has been completed correctly;
- (b) a claim is submitted no later than 12 months after the date the myki was last used;
- (c) the sale of the myki can be traced; and
- (d) documentary proof of claim is provided, if required in these Conditions (for example, a medical certificate).

Severe service disruption

In the event of prolonged severe service disruption or industrial action the Head, Transport for Victoria or transport operators will produce special bulletins to advise of reimbursement arrangements.

Eligibility criteria for reimbursements due to severe service disruption will be determined and published by the Head, Transport for Victoria for each event.

On each occasion where reimbursements are made available, affected and eligible customers will be identified and compensation amounts will be paid to the accounts of nominated and/or approved myki cards.

No action is required by affected customers to seek a reimbursement for severe service disruption unless the Head, Transport for Victoria specifically advises for each event.

In some cases, customers may be advised to seek a reimbursement by completing the ‘Apply for Reimbursement’ online form available on PTV’s website or a website maintained by the Department of Transport.

To be eligible for a reimbursement due to severe service disruption, the myki that the reimbursement is being requested for must have been –

- (a) valid for travel during the stoppage or disruption; and
- (b) not used on alternative or replacement services during the stoppage or disruption.

Customers affected by service disruptions who use non-myki tickets should apply to the relevant operator under their Compensation Code and Customer Charter.

myki ticketing equipment faults

Where a myki ticketing system equipment fault has caused a customer to be incorrectly charged, the customer may seek a reimbursement by –

- (a) calling **1800 800 007**;
- (b) completing a myki feedback form available on PTV’s website or a website maintained by the Department of Transport; or
- (c) completing the ‘Apply for Reimbursement’ online form available on PTV’s website or a website maintained by the Department of Transport.

Payment of a reimbursement that is requested due to a myki ticketing equipment fault will be subject to verification of the fault by Department of Transport staff.

If a customer is charged a default fare because no operational myki reader was available to touch off, the customer may call **1800 800 007**, or use the ‘Apply for reimbursement’ form (available on PTV’s website or a website maintained by the Department of Transport), to request a reimbursement of any amount charged that was greater than the correct fare.

Medical condition (expired myki Passes only)

In certain circumstances, a reimbursement of all or some of the value of an expired myki Pass may be available to a customer who has experienced medical problems.

Reimbursements due to medical conditions will only be considered on application by the customer and if the application meets the following Conditions (in addition to the Conditions specified under the heading ‘myki Reimbursements’ above) –

- (a) the customer completes the ‘Apply for Reimbursement’ form available on PTV’s website or a website maintained by the Department of Transport;
- (b) the application is accompanied by a medical certificate specifying that the customer had a medical condition on the dates for which the reimbursement is claimed (statutory declarations are not accepted as proof); and
- (c) the customer has been unable to travel owing to illness for the minimum number of days required, which apply depending on the type of myki Pass the claim relates to and are as specified below –
 - (i) for 7 day myki Pass, at least three business days;
 - (ii) for 28–69 day myki Pass, at least seven days; or
 - (iii) for 70–365 day myki Pass, at least seven days plus two days for each 30 days or part thereof in excess of 69; and
- (d) the myki Pass has expired.

A reimbursement claimed due to a medical condition can be claimed for non-consecutive days of illness. However, a medical certificate must be provided for each period of illness.

Special circumstances

Reimbursements may be provided in special circumstances not covered by these Conditions.

Applications for such reimbursements must be made using the ‘Apply for Reimbursement’ form online available on PTV’s website or a website maintained by the Department of Transport.

Customers are requested to include copies of any documentary evidence of special circumstances that support their application when they submit the form.

MYKI PASS TO MYKI MONEY CONVERSION***myki Smartcard***

A customer may have the value of the remaining days of a myki Pass on a myki Smartcard converted to myki Money, provided the value of the myki Money credited does not exceed \$250 and the total myki Money balance on the myki following the conversion does not exceed \$999.99.

If the value of the myki Money to be credited following the conversion exceeds \$250 or the total myki Money balance on the myki following the conversion would exceed \$999.99, the full amount of the balance may be paid to the customer by electronic funds transfer and, the myki Smartcard will not be returned.

Customers must use another myki to travel while waiting for the Pass conversion application to be processed.

Mobile myki

myki Pass to myki Money conversion is not available for Mobile myki.

A refund of unexpired myki Pass value may be available subject to the Conditions set out in this Chapter.

How to apply for a myki Pass to myki Money conversion

To request a myki Pass to myki Money conversion, the customer may call **1800 800 007** or complete the ‘Apply for Refund’ online form on PTV’s website or a website maintained by the Department of Transport and follow the additional Conditions specified below, as applicable depending on the relevant myki type.

For a myki Smartcard, the customer seeking the myki Pass conversion must post the Refund Request Receipt (the receipt received upon submitting the online refund application form) or Refund Request Receipt number (if the application was made by phone), along with the relevant myki Smartcard, to PTV (see postal address under the heading 'myki mailbox' in this Chapter).

The myki Smartcard will be returned to the customer by post once the pass conversion is completed.

When either of the events referred to above occurs, the following Conditions apply in respect of the surrendered ticket –

Following prosecution of holder of surrendered ticket

If the enforcement activities culminated in a successful prosecution of the holder of the ticket, a Court order may be sought by or on behalf of the informant for the forfeiture of the ticket. If such an order is not made by the Court, the ticket will be returned to the person prosecuted if it has any remaining unused value, but no replacement tickets will be issued, and no refund will be made, to the extent of the whole or part of any unused value remaining on the ticket at the time of surrender.

If the enforcement activities culminate in the prosecution of the holder of the ticket and that prosecution results in the acquittal of the holder of the ticket on the charge or charges and if the holder makes application to the Department of Transport within 28 days of the Court's decision –

- (a) if the ticket has any remaining unused value, the ticket will be returned to the holder; and
- (b) whether or not the ticket is returned under paragraph (a), the holder is entitled to a replacement ticket or tickets, or a refund, to the extent of the whole of any unused value remaining on the ticket at the time of surrender, less, if the ticket is returned, any remaining unused value as at the date the ticket is returned.
