*Who is a close contact?*

*Note: the Departmental Requirements set out different categories of close contacts and different requirements for each category of close contact, including self-quarantine requirements.*

*Example: a close contact may include a person who has had close contact with a diagnosed person, or a person who has had close contact with that close contact.*

- (3) For the purposes of subclause (1)(b), the notice:
  - (a) must specify the time (including by reference to an event) at which the person will no longer be required to self-quarantine, having regard to Departmental Requirements; and  
*Example: the notice could specify that a person is no longer required to self-quarantine from 14 days after the last diagnosed person in their household has received clearance from self-isolation.*
  - (b) may be given orally or in writing, and, if given orally, must be confirmed in writing as soon as reasonably practicable; and
  - (c) is not required to be in a particular form.

*Requirement to self-quarantine*

- (4) Subject to subclause (8), a close contact must **self-quarantine** under these directions.  
*Note: the requirements of self-quarantine are specified in clause 8.*

*Location of self-quarantine*

- (5) A close contact may choose to self-quarantine at:
  - (a) a premises at which they ordinarily reside; or

- (6) If, at the time a person is given a notice under subclause (1)(b), the person is not at the premises chosen by the person under subclause (5), the person must immediately and directly travel to that premises.

#### *End of self-quarantine period*

- (7) For the purposes of this clause, the period of self-quarantine ends:
- (a) subject to paragraphs (b) and (c), at the time specified in the notice given under subclause (1)(b) as given or as varied under subclause (11); or
  - (b) if the notice given to the person under subclause (1)(b) is revoked under subclause (11), at the time that revocation takes effect; or
  - (c) if the person becomes a diagnosed person following a test for SARS-CoV-2, when the diagnosis is communicated to the person.

*Note 1: a close contact who becomes a diagnosed person will then be required to self-isolate under clause 4, for a period ending when the person is given clearance from self-isolation under clause 5.*

*Note 2: a close contact's period of self-quarantine may also be extended in certain circumstances under clause 7.*

#### *Exception – previous clearance*

- (8) A person is not required to self-quarantine under this clause if the person has been given clearance from self-quarantine by the **Expert Review Panel** in accordance with subclause (9).
- (9) For the purposes of subclause (8):
- (a) the Expert Review Panel may make a determination in relation to a person if the Expert Review Panel is satisfied that the person is at negligible risk of infection of SARS-CoV-2, on the basis that the person has previously been a diagnosed person and has since been given clearance from self-isolation in accordance with clause 5(1); and
  - (b) for the purposes of subclause (9)(a), the notice must be in writing but is not required to be in a particular form.

#### *Review of determination and notice*

- (10) An **authorised officer**, who is authorised to exercise **emergency powers** by the Chief Health Officer under section 199(2)(a) of the PHW Act, may review a determination made under subclause (2) and, if satisfied that it is appropriate, having regard to Departmental Requirements, may vary or revoke the notice given to the person under subclause (1)(b), and must give the person notice of the authorised officer's decision.

#### *Transitional provision – close contacts under Revoked Isolation Directions*

- (11) If a person was a close contact under a Revoked Isolation Direction:
- (a) a determination made, or taken to have been made, under the Revoked Isolation Direction in relation to the person's status as a close contact is taken to be a determination made under subclause (2); and
  - (b) a notice given, or taken to have been given, to the person under the Revoked Isolation Direction in relation to the determination referred to in paragraph (a) is taken to be a notice given under subclause (1)(b); and
  - (c) for the purposes of subclause (5), the person is taken to have chosen to self-quarantine at the premises at which the person was required to self-quarantine under the Revoked Isolation Direction.

#### *Notifications by the close contact*

- (12) Immediately after choosing a premises under subclause (5), a close contact must notify the Department of:
- (a) the address of the premises chosen by the close contact; and
  - (b) the name of any other person who is residing at the premises chosen by the close contact.

- (13) If, during the period that a close contact is self-quarantining at a premises for the purposes of clause 6, another person informs the close contact that they intend to commence residing at the premises chosen by the close contact:
- the close contact must inform the other person of their self-quarantine; and
  - if the other person commences residing at the premises, the close contact must notify the Department that a person has commenced residing with the close contact and of the name of that person.

## 7 Testing of persons in self-quarantine

- (1) If a person is required to self-quarantine under clause 6 and, during the period of self-quarantine, the person:
- is tested for SARS-CoV-2; and
  - the period for which the person is required to self-quarantine under clause 6 expires during the period in which the person is awaiting the result of that test, the period of self-quarantine is extended until the person receives the result of the test.
- Note 1: persons who are in self-quarantine and experience a temperature higher than 37.5 degrees or symptoms of acute respiratory infection are encouraged to get tested. In certain circumstances, a person may be required to comply with an order that they undergo a medical test: PHW Act, section 113(3).*
- Note 2: in some circumstances, the Chief Health Officer or Deputy Chief Health Officer may consider it appropriate to exempt a person from the extension of their self-quarantine period under clause 9, having regard to the need to protect public health and relevant principles in the PHW Act as they apply in the person's individual circumstances.*
- Note 3: a person is not required to continue to self-quarantine under clause 7(1) if the person is exempted in accordance with clause 9, either before or after the period of self-quarantine is extended pursuant to clause 7(1).*
- (2) If a person is required to self-quarantine under clause 6 and, during the period of self-quarantine, the person receives a test result stating that they have been diagnosed with SARS-CoV-2, the person becomes a diagnosed person and must self-isolate under clause 4.
- (3) If a person is required to self-quarantine under clause 6 and, during the period of self-quarantine, the person receives a test result stating that they have not been diagnosed with SARS-CoV-2, the person:
- if the period for which the person is required to self-quarantine under clause 6 has not expired—must continue to self-quarantine under that clause for the remainder of that period; or
  - if the period of self-quarantine was extended under subclause (1)—may cease self-quarantining; or
  - if the period of self-quarantine was extended under subclause (4)—may cease self-quarantining at the time referred to in clause 6(7)(a) and, if that time has already passed, may cease self-quarantining immediately.

- (4) If a person is required to self-quarantine under clause 6 because they are a close contact of a diagnosed person and the person refuses or otherwise fails to take a test for SARS-CoV-2 when offered on or about the thirteenth day of their period of self-quarantine, the period of self-quarantine is extended until 14 days after the time specified in the notice given under clause 6(1)(b) as given or as varied under clause 6(10).

*Note 1: close contacts will typically be offered a test for SARS-CoV-2 on day 13 of their self-quarantine, as testing at this time is likely to detect the presence of SARS-CoV-2 in close contacts who have contracted the virus, even if they have not yet developed symptoms. As a person may be infectious for up to 14 days after the 14 day incubation period, where a test does not occur on or about the thirteenth day of self-quarantine, an additional 14 days of quarantine is required to prevent a person who develops SARS-CoV-2 towards the end of the 14 day incubation period, even if not symptomatic, transmitting SARS-CoV-2 to the broader community.*

*Note 2: in some circumstances, the Chief Health Officer or Deputy Chief Health Officer may consider it appropriate to exempt a person from the extension of their self-quarantine period under clause 9, having regard to the need to protect public health and relevant principles in the PHW Act as they apply in the person's individual circumstances.*

*Note 3: a person is not required to continue to self-quarantine under clause 7(4) if the person is exempted in accordance with clause 9, either before or after the period of self-quarantine is extended pursuant to clause 7(4).*

## 8 Requirements of self-isolation and self-quarantine

    - (ii) it is necessary for the other person to enter for medical or emergency purposes; or

- (3) An exemption under subclause (2) must:
  - (a) be given, in writing, to the person the subject of the exemption; and
  - (b) specify the requirement or requirements that the person need not comply with.
