Section 165AI

GUIDANCE FOR THE PANDEMIC (WORKPLACE) ORDER 2022 (No. 9)

This Order imposes specific obligations on employers to assist in reducing the frequency of outbreaks of COVID-19 in Victorian workplaces.

An employer must take reasonable steps to ensure that all workers comply with face covering requirements that may apply under the **Public Safety Order** and that they respond appropriately if there is a symptomatic person or a confirmed case in the work premises.

This Order specifies additional obligations on certain categories of hospitals.

A regulated employer must not permit a worker to work outside their ordinary place of residence, or to work at a facility if the worker is under 18 years of age and is not fully vaccinated, or the worker is 18 years or over and is not fully vaccinated (boosted), in order to limit the spread of COVID-19 within the population of those workers.

Amongst other things, this Order requires certain regulated employers to:

- (1) collect, record and hold certain vaccination information of workers;
- (2) not permit workers to work outside their ordinary place of residence unless the worker is under 18 years of age and is fully vaccinated, or the worker is 18 years or over and is fully vaccinated (boosted), or an excepted person or unless an exception applies to the worker; and
- (3) notify current and new workers that the employer is obliged to collect, record and hold vaccination information about the worker and to not permit the worker who is not fully vaccinated (for workers under 18 years of age) or not fully vaccinated (boosted) (for workers aged 18 years or over) from working outside the worker's ordinary place of residence, or at a facility, as applicable.

Exceptions are set out in this Order where an employer is not required to comply with this Order. Otherwise, failure to comply with this Order may result in penalties.

This guidance does not form part of the Pandemic (Workplace) Order 2022 (No. 9) and is for explanatory purposes only.
