Credit for electricity supplied

11. If you qualify for the Feed-in Tariff, we agree to credit you for the electricity you supply back into the grid at a rate no less than the rate(s) per kilowatt hour of generation determined by the Essential Services Commission for the relevant period and applicable tariff type, or as is otherwise required by the relevant section of the **Electricity Industry Act 2000**, and in accordance with the requirements of that Act. This is the Feed-in Tariff.

12. The amount which we will credit you under this EnergyAustralia Feed-in Agreement includes the Feed-in Tariff, and any additional rate(s) per kilowatt hour which we may decide to pay to you from time to time if you are eligible. This is your Total Feed-in Tariff, which will be set out in your Energy Plan Details. We will publish our rates and any further eligibility criteria for our feed-in tariffs on our website and/or in your Energy Plan Details. These rates are subject to change from time to time, subject to clause 27.
13. The credits for the electricity you supply will appear on the bill that we send to you under your Contract. We will credit you for the electricity you supply back into the grid at the same frequency as we bill you for the electricity you purchase under the Contract. You will not be entitled to a pay-by-the-due-date discount under your Contract if the electricity you supply back into the grid is in excess of what you use from the grid.
14. In addition to the charges set out in the EnergyAustralia Feed-in Agreement, you will need to pay any distributor-imposed charges. Upon your request we will inform you of the amount of any distributor-imposed charges prior to entering the EnergyAustralia Feed-in Agreement and these will be itemised on your account. Any adjustments for undercharging or overcharging in previous billing periods will be treated in accordance with of the Energy Retail Code of Practice and will also be shown on your account.
15. The rate at which we purchase your electricity does not include GST, subject to clause 34.

Connection

16. If you ask us to, we will make a request to the relevant distributor to connect your Small Renewable Energy Generation Facility to the distributor's distribution system as soon as practicable after you satisfy any relevant applicable requirements under your Contract or the Electricity Distribution Code of Practice relating to your application to us to be connected at your premises. The request will include details of the installation of any necessary metering and network tariff reassignment.
17. We will make the request no later than the next business day after receiving from you all documentation required under the **Electricity Safety Act 1998** and all documentation reasonably required by us or the relevant distributor.
18. You must let us know as soon as possible of any changes to your contact details.

Meter readings

19. Unless we and you agree otherwise, we will base any credits payable to you on a reading of your national electricity market-compliant meter that records the supply of electricity from your Small Renewable Energy Generation Facility to the distribution system, and in any event, we will use our best endeavours to ensure that the meter is read at least once in any 12-month period.
20. We do not breach clause 19 if we are unable to read a meter in any relevant period as a result of you breaching clause 21 or some other event outside our control.
21. You must allow us, the Responsible Person (or our Responsible Person's representative) safe, convenient and unhindered access to the address and to the meter that records the supply of electricity from you to the distribution system, for the purpose of reading the meter and for connection, disconnection, reconnection, maintenance and repair. The person who requires access must carry or wear official identification and on request will show that identification to you. We do not breach clause 21 if the Responsible Person is the relevant distributor and fails to carry, wear, or show their official identification.
22. If we are not able to credit your account based on the reading of the meter, we will not make a credit unless the relevant distributor estimates the generation in accordance with applicable regulatory instruments.
23. If you request us to, we will review any credits applied to your account as required by the Energy Retail Code of Practice.
24. If we over-credit or under-credit you for the electricity supplied by you back into the grid, we will rectify this error as required by the Energy Retail Code of Practice.

Force Majeure

25. If either party to this contract cannot meet an obligation under this contract because of an event outside the control of that party (a force majeure event):
- (a) the obligation, other than an obligation to pay money, is suspended to the extent it is affected by the force majeure event for as long as the force majeure event continues; and
 - (b) the affected party must use its best endeavours to give the other party prompt notice of that fact including full particulars of the event, an estimate of its likely duration, the extent to which the affected party's obligations are affected and the steps being taken to remove, overcome or minimise those effects.

Changes to the EnergyAustralia Feed-in Agreement

26. We may amend the EnergyAustralia Feed-in Agreement as a result of future amendments to applicable energy laws or to make variations that are reasonably necessary to achieve optimal business efficiency or to protect our legitimate business interests. If we amend the EnergyAustralia Feed-in Agreement, we will give you notice of the changes in accordance with any applicable energy law requirements, following which the amended terms set out in the notice will form part of this EnergyAustralia Feed-in Agreement. You consent to us amending this EnergyAustralia Feed-in Agreement by notice and you agree to comply with this EnergyAustralia Feed-in Agreement as amended by that notice.
27. If a Feed-in Tariff Change is to take effect, we will provide you with a feed-in tariff alert at least 5 business days in advance or within such other period specified under the Energy Retail Code of Practice.
28. If you are receiving the Feed-in Tariff, and, if applicable, other amounts which form part of a Total Feed-in Tariff, you must notify us 14 business days in advance of any change to your Small Renewable Energy Generation Facility that increases the capacity.

Termination

29. If the Contract is ended by either party, the EnergyAustralia Feed-in Agreement automatically terminates at the same time. Otherwise, we may not terminate the EnergyAustralia Feed-in Agreement unless you and we enter into a new Feed-in Agreement, if you have transferred to another retailer in respect of your premises or we are no longer required to provide the Feed-in Tariff, or any other amounts which form part of a Total Feed-in Tariff.
30. If there are any credits owing to you when the EnergyAustralia Feed-in Agreement ends, EnergyAustralia will pay you the equivalent amount.
31. You may terminate the EnergyAustralia Feed-in Agreement without notice. If it is a fixed-term Contract or an evergreen Contract, we may impose the early termination charge specified in your Energy Plan Details if we are permitted to do so under the Energy Retail Code of Practice.
32. The termination does not become effective until:
- (a) if you and we enter into a new Feed-in Agreement, the date the new agreement commences (which will be after the expiration of the 10 business day cooling-off period);
 - (b) if the EnergyAustralia Feed-in Agreement is terminated because you want to enter a Feed-in Agreement or electricity supply agreement with another retailer, the date when the other retailer becomes responsible under that agreement/for your premises; or
 - (c) if your premises is disconnected, the date when you no longer have a right under the Energy Retail Code of Practice to be reconnected; whichever occurs first.
33. If the EnergyAustralia Feed-in Agreement or the Contract is a fixed-term contract:
- (a) between one and two months before the expiry date, we will notify you of the date that the EnergyAustralia Feed-in Agreement is due to expire, the options available to you and the tariff and terms and conditions that will apply after that date if you do not exercise any other option; and

- (b) the EnergyAustralia Feed-in Agreement will continue after the expiry date on the tariff and terms and conditions notified, without further need for written agreement, provided the tariff and terms and conditions have taken effect in accordance with section 40H of the **Electricity Industry Act 2000**.

If you have a Small Renewable Energy Generation Facility and are either a small or medium retail customer (i.e. consuming less than 160 MWh per annum) and a FiT Qualifying Customer (i.e. receiving the Feed-in Tariff, and, if applicable, any other amounts which form part of a Total Feed-in Tariff) you must either:
 - (a) inform EnergyAustralia that you are registered for GST by quoting your ABN to EnergyAustralia in respect of any electricity you supply back into the grid from a Small Renewable Energy Generation Facility. On receipt of this information, EnergyAustralia agrees to credit to you an amount for the GST component of 10% in addition to the rate at which we credit you for the electricity you supply back into the grid; or
 - (b) warrant that your generation of electricity from the Small Renewable Energy Generation Facility is for private and domestic purposes and not related to any business enterprise carried on by you and for this reason you have not provided an ABN to us in respect of the electricity you supply back into the grid from a Small Renewable Energy Generation Facility. If we ask you to do so, you must complete a 'No ABN Withholding Declaration' (the form for which is available from us on request).
