Forests Act 1958

DETERMINATION OF FIREWOOD COLLECTION AREAS

I, Chris Mitchell, Regional Director Northwest Victoria, Parks Victoria, make the following determination under section 57U of the **Forests Act 1958**.

Definitions

In this determination and with reference to a numbered item in the table in the determination:

Determination

Each area of the Reserve shown hatched on a plan lodged in the Central Plan Office of the Department of Transport and Planning, the number of which is shown in column 1 of an item in the table in this determination, is a firewood collection area for the purposes of section 57U of the **Forests Act 1958**, effective from the opening date for that area until the closing date for that area (inclusive).

Being satisfied that it is necessary to do so for management of the supply of fallen or felled trees for domestic use as firewood in the region of the state comprising the rural cities of Mildura and Swan Hill, I specify that only the following classes of persons (or their nominees) may cut and take away fallen or felled trees in the firewood collection areas:

(a) residents of the Rural City of Mildura;

(b) residents of the Rural City of Swan Hill.

Subordinate Legislation Act 1994

NOTICE OF PREPARATION OF REGULATORY IMPACT STATEMENT

Proposed Plumbing Amendment (Water Efficiency) Regulations 2026

I, Harriet Shing MP, Minister for Housing and Building and Minister responsible for administering the **Building Act 1993**, give notice, in accordance with section 11 of the **Subordinate Legislation Act 1994**, that a regulatory impact statement (RIS) has been prepared for the proposed Plumbing Amendment (Water Efficiency) Regulations 2026 (the proposed Regulations).

The proposed Regulations would be made under sections 221ZZZV and 262 of the **Building Act 1993**. The proposed Regulations would amend the Plumbing Regulations 2018 by introducing minimum requirements for water efficiency for certain fixtures and fittings of buildings. The amendments seek to support the Victorian Government policy to strengthen water security by reducing household and commercial building water use through increasing the minimum requirements for water efficient fixtures.

The RIS:

- considers the costs and benefits of the proposed introduction toilet, tap, and showerhead water efficiency requirements in the Plumbing Regulations 2018;
- assesses the impact of the proposed amendments, which will require plumbers to use fixtures meeting the water efficiency requirements in new buildings and existing buildings (unless an exception applies);
- assesses how the proposed changes to the plumbing regulations may impact the plumbing industry, consumers of plumbing services and the community.

The RIS concludes that it is appropriate to add the water efficiency requirements to the Plumbing Regulations 2018 to strengthen water security in Victoria and reduce household water bills.

RIS and submissions

Members of the public can download a copy of the RIS and the proposed regulations from the Engage Victoria website: https://engage.vic.gov.au/

Submissions concerning the proposed amendments to the Plumbing Regulations 2018 and the RIS must be received no later than 5.00 pm on 9 April 2026. Any submissions made will be considered before the proposed Regulations are made.

Please note that all submissions will be treated as public documents and may be published on a government website, unless a submission clearly indicates that it is confidential.
